INVESTMENT STRATEGY:

The scheme aims to provide long term capital growth by investing in a well-diversified portfolio of equity and equity related securities. The fund manager proposes to concentrate on business and economic fundamentals driven by in-depth research techniques and employing the full potential of the research team at the AMC. The Fund manager shall combine top-down analysis with a bottom-up approach seeking to identify companies whose revenues and earnings are expected to increase at a faster rate than the average company within the same industry. As part of the stock selection process the fund proposes to invest in high quality, successful companies that have posted reasonable performance and have expectations to do well. The aim will be to build a portfolio, which represents a cross-section of the strong growth companies in the prevailing market. The fund will invest in companies with a long and successful track record and companies that enjoy leading positions in their markets and have significant competitive advantage. The fund manager endeavors to build an optimally diversified portfolio to mitigate liquidity and concentration risks. It will also look

at stocks that are trading at attractive valuations in relation to earnings or book value or current and/or future dividends and are available at a price, which can be termed as a bargain. The fund would also look into other quantitative parameters like Return on Equity (ROE) and Return on Capital Employed (ROCE) to identify stocks which may be available at more favorable valuations when compared with peer group and stocks in applicable benchmark. The fund would also invest in companies in which the above quantitative factors may not be a correct indicator of the intrinsic value of the stock. For example a company which has land as an asset in its balance sheet at historical cost, the P/B may not be a correct indicator of the worth of the stock.

Within the defined universe, the investment manager may seek to identify companies that exhibit the following qualities: strong competitive edge and sustainable leadership market share, a proven business model; financial strength (strong balance sheet, good revenue growth); relatively attractive valuations.

Key to the manager's investment strategy is the identification of triggers for potential appreciation of stocks in the universe over the medium to long term time frame. Fundamental analysis of triggers for stock price performance would include the following financial metrics; this is an indicative but not an exhaustive list.

- Discounted cash flow
- Cash Flow Return on Investment
- Return on Invested Capital relative to the Weighted Average Cost of Capital
- Price/Book value
- Earnings Yield

Apart from such fundamentals the investment managers would also strive to identify the potential impact of changes in share-holding patterns, liquidity and similar short term triggers to share price movements.

The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unit holders' interest.

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity with the investment objective of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments. As per SEBI Regulations, such interscheme investments shall not exceed 5% of the Net Asset Value of the Fund.

At present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

The Fund may also invest in depository receipts including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs), debt securities convertible into common shares, preference shares and warrants.

The Scheme may invest in derivatives to engage in permitted currency hedging transactions with an intention to reduce exchange rate fluctuations between the currency of the Scheme (INR) and the foreign currency exposure.

RISK PROFILE OF THE SCHEME:

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme Specific Risk Factors summarised below.

Scheme Specific Risk Factors and Risk Management Strategies:

In general, investment in the scheme may be affected by risks associated with equities and fixed income securities.

The Scheme retains the flexibility to hold from time to time relatively more concentrated investments in a few sectors as compared to plain diversified equity funds. This may make the Scheme vulnerable to factors that may affect these sectors in specific and may be subject to a greater level of market risk leading to increased volatility in the Scheme's NAV.

The scheme being close ended its units would be listed on a stock exchange. The scheme does not guarantee a liquid and active secondary market for its units on the stock exchange and hence the units may trade at a premium or discount to its NAV.

Risks associated with transaction in units through stock exchange mechanism

Units of the Schemes will be traded on BSE or any other recognised stock exchange. Debit/Credit of Units in investor's demat account on any Business Day will depend upon the order processing/settlement by BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange shall be governed by the operating guidelines and directives issued by BSE or such other recognised exchange in this regard.

Risk management strategies: The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity and debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in equity and debt Securities designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & Description	Risk mitigants/management strategy
Risks associated with Equity investment	
Market Risk: The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme.	Market risk is a risk which is inherent to an equity scheme. The Scheme may use derivatives to limit this risk.
Liquidity risk: The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the fund invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / maturity payments are made on time and not affected by illiquidity of the underlying stocks.
Concentration Risk: Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The Scheme will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
Derivatives Risk: As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	Derivatives will be used for the purpose of hedging/ portfolio balancing purposes or to improve performance and manage risk efficiently. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.
Currency Risk: The Schemes will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency (US\$), the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The scheme subject to applicable regulations, shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

Risk & Description	Risk mitigants/management strategy
Risks associated with Debt investment	
Market Risk / Interest Rate Risk: As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The scheme will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the scheme will increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.
Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The Scheme will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.
Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.

Risk & Description	Risk mitigants/management strategy
Risks associated with Debt investment	
	In case of securitized debt instruments, the Scheme will ensure that these instruments are sufficiently backed by assets.
Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
Derivatives Risk: As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The Scheme has provision for using derivative instruments for portfolio balancing and hedging purposes. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Mark to Market of swaps, netting off of cash flow and default provision clauses will be provided as per international best practice on a reciprocal basis. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.

e) An investor can also subscribe to the New Fund Offer (NFO) through ASBA facility.

f) **NRI/FII/PIO Investors**

- Repatriation basis:** Payments by NRIs/FIIs/Persons of Indian Origin residing abroad, may be made either by way of Indian Rupee drafts or cheques by means of (i) inward remittance through normal banking channels; or (ii) out of funds held in NRE/FCNR account payable at par and payable at the cities where the Customer Service Centres are located.

In case of Indian Rupee drafts purchased through NRE/FCNR Account, an account debit certificate from the bank issuing the draft confirming the debit should also be enclosed.

In case the debit certificate is not provided, the AMC reserves the right to reject the application of the NRI investors.

2. **Non Repatriation basis:** NRIs or Persons of Indian origin residing abroad investing on a non-repatriable basis may do so by issuing cheques/demand drafts drawn on Non-Resident Ordinary (NRO) account payable at the cities where the Customer Service Centres are located.
3. **FIRC certificate:** In case of investments by Non Resident Indians (NRIs), if FIRC certificate was not submitted, CAMS/AMC will not provide FIRC outward letters to banks.
4. **Payment of Maturity Proceeds:** NRIs shall provide details of purchase including contract notes on or before the maturity date. In the absence of such details on or before the maturity date, TDS towards capital gain would be done at higher applicable rate. For this purpose, the difference between allotment NAV and NAV applicable for Maturity payment is considered as capital gains.

The plan under the scheme shall be fully redeemed at the end of the maturity period of the respective Plan unless rolled over as per SEBI guidelines.

XIV. THIRD PARTY PAYMENTS : Investment/subscription made through Third Party Cheque(s) will not be accepted. Third party cheque(s) for this purpose are defined as:

- (i) Investment made through instruments issued from an account other than that of the beneficiary investor,
- (ii) in case the investment is made from a joint bank account, the first holder of the mutual fund folio is not one of the joint holders of the bank account from which payment is made.

Third party cheque(s) for investment/subscription shall be accepted, only in exceptional circumstances, as detailed below:

- 1) Payment by Parents/Grand-Parents/related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding Rs.50,000/- (each regular purchase or per SIP installment). However this restriction will not be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio.
- 2) Payment by Employer on behalf of employee under Systematic Investment Plans or lump sum/ one-time subscription through Payroll deductions.
- 3) Custodian on behalf of a Foreign Institutional Investor (FI) or a client.

The above mentioned exception cases will be processed after carrying out necessary checks and verification of documents attached along with the purchase transaction slip/application form, as stated below:

- (1) Determining the identity of the Investor and the person making payment i.e. mandatory Know Your Client (KYC) for Investor and the person making the payment.
- (2) Obtaining necessary declaration from the Investor/unitholder and the person making the payment. Declaration by the person making the payment should give details of the bank account from which the payment is made and the relationship with the beneficiary.
- (3) Verifying the source of funds to ensure that funds have come from the drawer's account only.

In case of investment/subscriptions made via Pay Order, Demand Draft, Banker's cheque, RTGS, NEFT, ECS, bank transfer, net banking etc. Following additional checks shall be carried out:

- (1) If the investment/subscription is settled with pre-funded instruments such as Pay Order, Demand Draft, Banker's cheque, etc., a Certificate from the Issuing banker must accompany the purchase application, stating the Account holder's name and the Account number which has been debited for issue of the instrument. The funds should be debited from a pre-registered pay in account available in the records of the Mutual fund, or from the account of the first named unit holder. Additionally, if a pre-funded instrument issued by the Bank against cash, it shall not be accepted for investments of Rs.50,000/- or more. Such prefunded instrument issued against cash payment of less than Rs.50,000/- should be accompanied by a certificate from the banker giving name, address and PAN (if available) of the person who has requested for the demand draft.
- (2) If payment is made by RTGS, NEFT, ECS, bank transfer, etc., a copy of the instruction to the bank stating the account number debited must accompany the purchase application. The account number mentioned on the transfer instruction should be from pay in account available in the records, or from the account of the first named unit holder.

Investors are requested to note that AMC reserves right to have additional checks of verification for any mode of payment received. AMC reserves the right to reject the transaction in case the payment is received in an account not belonging to the first unit holder of the mutual fund.

In case of investors with multiple accounts, in order to ensure smooth processing of investor transactions, it is advisable to register all such accounts, as the investments/subscriptions received from the said multiple accounts shall be treated as 1st party payments.

Refer Third Party Payment Declaration form available in www.icicipruamc.com or ICICI Prudential Mutual Fund branch offices.

XV. PLEDGE/LIEN : In case investor creates pledge / lien on their units in favour of any financial institution or lender, the details of the same shall be provided to ICICI Prudential AMC or CAMS within two days of creations of such pledge/lien. The redemption proceeds/dividend payment will be on hold till proper details are made available.

XVI. TRIGGER ON MATURITY OF THE SCHEME:

1. Trigger facility will switch all the units in the target scheme within the respective Folio Number of the investor.
2. Any of the open ended schemes of ICICI Prudential Mutual Fund can be a target scheme.
3. For Trigger facility to happen the minimum purchase/redemption criteria should be met else the trigger will not be effected.
4. Trigger facility on each scheme will require a separate/independent Trigger request form to be filled. If an investor holds similar schemes in two folios, they will have to register separately for it mentioning the folio number.
5. Target scheme where units will be switched, if option/sub-options are not selected, it will be switched to the default option (available under the Target Schemes).
6. Switch will be implemented on the day the Trigger condition is satisfied. The Trigger is a one time operation and will cease once it is exercised.
7. Once switch is done exercising Trigger option, the same will not be reversed whatsoever and it will be final and binding.
8. If Trigger facility is not activated and/or implemented due to reasons which are beyond the control of ICICI Prudential AMC Ltd. (the AMC), the AMC will not be responsible. Trigger facility is only a facility extended by the AMC for the convenience of the unit holders and does not form part of any scheme/fund objectives.
9. AMC reserves the right to amend/terminate this facility at any time, keeping in view business/operational exigencies and the same shall be in the best interest of the investors.
10. The investor is being provided a facility to give the switch request from the close ended funds, much in advance of the maturity of the fund. At a future date changes can arise in the target scheme which can prevent the AMC from processing the switch request. In such cases the switch request would be considered NULL & VOID and the investor would have to re-submit the Trigger request. Few examples of such changes are
 - a. Change in fundamental attribute of the target Scheme.
 - b. Merger of the target scheme into any other scheme.
 - c. Any change in the target scheme specifications which restricts the AMC from accepting the switch request. For example : Maximum and Minimum amount size.
 - d. When Target Scheme has stopped accepting fresh subscriptions in the Scheme.
11. In case folio consolidation is requested by the investor, the existing Trigger request would be considered Null & Void.
12. The investor would be allowed to re-register a fresh Trigger request as per existing process.
13. In case of change of broker or change of investment status as "direct" after closing of New Fund Offer, the new broker code would be updated for existing investments and for existing Trigger request.
14. Conversion of physical unit to demat mode will nullify any existing / future Trigger request and the request cannot be re-submitted.
15. Trigger facility will be effected only when the terms and conditions of the said facility is fulfilled.
16. In case of Trigger facility, the switch into the open ended scheme will be subject to applicable cut off timings provisions.
