The Scheme will have tenure of 3 years (1095 days) from the date of allotment of units under the Scheme.</p> <p>On maturity of the scheme, the outstanding Units shall either be redeemed and proceeds will be paid to the Unitholder or will be switched-out to any existing open ended scheme of the Mutual Fund in the respective options, as opted but the Unitholder, as the case may be. If the investor does not select any of the aforesaid options then the units of the scheme will be redeemed by default. The switch-in in the scheme will be subject to applicable cut-off timing provisions.</p> <p>The switch option/facility as mentioned above shall not be applicable for Units held in demat form. Maturity proceeds would be payable to investors as per the bank details provided in the beneficiary position details received from depositories, in case of units held in demat form.</p> <p>If the maturity date falls on a non-business day, the immediately following business day will be considered as the maturity date for the Scheme.</p>
NAV Disclosure/ Portfolio Disclosure	<p>NAV Disclosure:</p> <p>The AMC will calculate and disclose the first NAV(s) of the scheme not later than 5 (five) Business days from the date of allotment. Thereafter, the NAV will be calculated and disclosed for every Business Day. NAV of the scheme will be calculated up to two decimal places and shall be published in at least two daily newspapers on daily basis in accordance with the SEBI Regulations. The AMC shall update the NAVs on the website of Association of Mutual Funds in India – AMFI (www.amfiindia.com) and the website of the AMC www.canararobeco.com by 9.00 p.m. every day. In case of any delay, the reasons for such delay would be explained to AMFI by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.</p> <p>Portfolio Disclosure:</p> <p>As presently required by the SEBI Regulations, the portfolio of the schemes shall be available in a user-friendly and downloadable format on the website of AMC (www.canararobeco.com) on or before the tenth day of the succeeding month.</p>

	As presently required by the SEBI Regulations, a complete statement of the Scheme portfolio would be published by the Mutual Fund as an advertisement in a newspaper within one month from the close of each half year (i.e. March 31 & September 30) or mailed to the Unit holders.
Applications Supported By Blocked Amount (ASBA)	<p>Investors may apply through the ASBA process during the NFO period of the Scheme by filling in the ASBA form and submitting the same to their respective banks, which in turn will block the amount in the account as per the authority contained in ASBA form, and undertake other tasks as per the procedure specified therein.</p> <p>For complete details on ASBA process refer Statement of Additional Information (SAI) made available on our website www.canararobeco.com.</p>
Listing	The Units are proposed to be listed on NSE or any other recognized Stock Exchange as may be approved by the Trustee, within 5 business days from the date of allotment. For details, please refer provision for Listing under 'Section III. Units and Offer'.
Transaction Charges	<p>The AMC shall deduct the Transaction Charges on purchase / subscription of Rs. 10,000/- and above received from first time mutual fund investors and investor other than first time mutual fund investors through the distributor/agent (who have opted to receive the transaction charges for this Scheme type) as under:</p> <p>First Time Mutual Fund Investor: Transaction charge of Rs 150/- for subscription of Rs. 10,000 and above will be deducted from the subscription amount and paid to the distributor/agent of the first time investor. Option to Hold Units in demat mode	<p>Investors shall have an option to subscribe to/ hold the units in electronic (demat) form in accordance with the guidelines/ procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time.</p> <p>Investors intending to hold units in electronic (demat) form will be required to have beneficiary account with a Depository Participant (DP) (registered with NSDL / CDSL) and will be required to indicate, in the application form, the DP's name, DP ID Number and the Beneficiary account number of the applicant held with the DP at the time of NFO. Applicants must ensure that the sequence of the names as mentioned in the application form matches with that of the beneficiary account held with the DP. Names, PAN details, KYC details etc. mentioned in the Application Form will be verified against the Depository records. If the details mentioned in the application form are found to be incomplete / incorrect or not matching with the depository records, the application shall be treated as application for physical (non-demat) mode and accordingly units will be allotted in physical (non-demat) mode, subject to it being complete in all other aspects. For conversion of physical holdings into demat form, the unit holders will have to send the demat requests to their Depository Participants. No redemption/repurchase of units shall be allowed prior to the maturity of the</p>

	<p>scheme. Unit holders wishing to exit may do so through the Stock Exchange mode. In case, the Unitholder desires to hold the Units in a Dematerialized /Rematerialized form at a later date, the request for conversion of units held in physical (non-demat) mode into electronic (demat) form or vice-versa should be submitted along with a Demat / Remat Request Form to their Depository Participant(s). Investors should ensure that the combination of names in the account statement is the same as that in the demat account.</p> <p>The allotment of units in demat form shall be subject in terms of the guidelines / procedural requirements as laid by the Depositories (NSDL/CDSL) from time to time. Further, the units held in electronic (demat) form will be transferable in accordance with provisions of Depositories Act, 1996 and the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996 as may be amended from time to time.</p>

I. INTRODUCTION

A. RISK FACTORS

I. Standard Risk Factors:

- I. Mutual Fund Investments are subject to market risks, read all scheme related documents carefully.
- II. Mutual Funds and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme will be achieved.
- III. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- IV. As the price / value / interest rate of the securities in which the scheme invests fluctuates the value of your investment in the scheme may go up or down.
- V. The past performance of the Sponsors/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- VI. Canara Robeco India Opportunities is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or returns.
- VII. Canara Bank and Robeco Groep N. V., being the Sponsors, are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 10 Lacs made by it towards setting up the Canara Robeco Mutual Fund.

II. Scheme specific Risk Factors

The performance of Scheme will be affected by a number of risk factors including the following:

In general, investment in the scheme may be affected by risks associated with equities and fixed income securities. The Scheme retains the flexibility to hold from time to time relatively more concentrated investments in a few sectors as compared to plain diversified equity funds. This may make the Scheme vulnerable to factors that may affect these sectors in specific and may be subject to a greater level of market risk leading to increased volatility in the Scheme's NAV. The Scheme being close ended its units would be listed on a stock exchange. The Scheme does not guarantee a liquidity and active secondary market for its units on the stock exchange and hence the units may trade at a premium or discount to its NAV.

Risks associated with transaction in units through stock exchange mechanism

Units of the Schemes will be traded on NSE or any other recognised stock exchange. Debit/Credit of Units in investor's demat account on any Business Day will depend upon the order processing/settlement by NSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange shall be governed by the operating guidelines and directives issued by NSE or such other recognised exchange in this regard.

Risk associated with close ended Schemes:

A close ended Scheme endeavors to achieve the desired returns only at the scheduled maturity of the Scheme. Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode, if they have opted to hold Units in a demat form, by mentioning their demat details on the NFO application form. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the desired returns. Although the securities in the portfolio will have high market liquidity at the end of the tenure of the Scheme, there is a possibility that market liquidity could get impacted on account of company/sector/general market related events and there could be a price impact at maturity while liquidating the portfolio.

Risk associated with Listed Schemes:

Investors who hold units in demat form and wish to exit/redeem may do so through the stock exchange mode. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme on the exchange may not get the desired returns.

Absence of Prior Active Market:

Although the scheme will be listed on stock exchange, there can be no assurance that an active secondary market will develop or be maintained.

a. Risks associated with investments in equities

Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended Securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell Securities held in the Scheme's portfolio could result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of Securities held in the Scheme's portfolio. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted Securities may be affected if they have to be sold prior to the target date for divestment. All investments involve risks and there can be no guarantee against loss resulting from an investment in any share of the Scheme, nor can there be any assurance that the Scheme's investment objective will be attained in respect of its overall performance. In certain circumstances the right of the investors of the Scheme may be suspended.

The value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law / policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors. Consequently, the NAVs of units issued under the Scheme may be adversely affected.

Further, the Equity and Equity Related Instruments are risk capital and are subordinate in the right of payment to other securities including debt securities. Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.

The Fund Manager of the Scheme may invest in the Securities of smaller, lesser-known companies. These investments may involve greater risk and the possibility of greater portfolio price volatility than investing in larger, more mature or better-known firms. Amongst other reasons for the greater price volatility of Securities of small companies and unseasoned stocks are the less certain growth prospects of smaller firms, the lower degree of liquidity of the markets for such stocks, and the greater sensitivity of small companies to changing economic conditions. For example, these companies are associated with higher investment risk than that normally associated with larger firms due to the greater business risks of small size and limited product lines, markets, distribution channels and financial and managerial resources. Such Securities, including those of newer or recently restructured companies or those which may have experienced financial difficulties, may be more volatile in price than larger capitalized stocks

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The Scheme's ability to sell these investments is limited by overall trading volumes on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

b. Risk Factors associated with investments in Fixed Income Securities

Price-Risk or Interest - Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Re - investment Risk: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.

Pre-payment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

c. Risk associated with investing in Derivatives

- As and when the Scheme trades in the derivatives market, there are risk factors that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that loss may be sustained by the portfolio as a result of the failure of another party (usually referred as the "counter party") to comply with the terms of the derivatives contract. Other risk in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Derivatives can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involve uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.
- The risk associated with the use of derivatives is different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives may be riskier than other types of investments because they may be more sensitive to changes in economic or market conditions than other types

of investments and could result in the losses that significantly exceed the Scheme's original investment. Certain derivatives may give rise to a form of leverage. Due to the low margin deposits normally required in trading financial derivative instruments, an extremely high degree of leverage is typical for trading in financial derivative instruments. As a result, the Scheme may be more volatile than if the Scheme had not been leveraged because the leverage tends to exaggerate the effect of any increase or decrease in the value of the Scheme's portfolio. A relatively small price movement in a derivative contract may result in substantial losses to the investor.

- Derivatives are also subject to the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. The use of derivatives for hedging or risk management purposes or to increase income or gain may not be successful; resulting in losses to the Scheme and the cost of such strategies may reduce the Scheme's returns and increase the Scheme's potential for loss.
- The Scheme may use derivatives to hedge market and currency risk, and for the purposes of efficient portfolio management. The use of derivatives may expose the Scheme to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions are geared.
- The price at which credit default swaps trades may differ from the price of the credit default swaps' referenced security. In adverse market conditions, the basis (difference between the spread bonds and the spread of credit default swaps) can be significantly more volatile than the credit default swaps' referenced securities.

Trading in derivatives has the following risks:

- i. An exposure to derivatives in excess of the hedging requirements can lead to losses.
 - ii. An exposure to derivatives can also limit the profits from a genuine investment transaction.
 - iii. Efficiency of a derivative market depends on the development of a liquid and efficient market for underlying securities.
- d. Particular Risks of Exchange Traded Derivative Transactions**
- The securities exchange on which the shares of the Scheme may be listed may have the right to suspend or limit trading in all securities which it lists. Such a suspension would expose the Scheme to losses and delays in its ability to redeem shares of the Scheme.
- e. Stock Market Fluctuations**
- Investors may note that the value of their investment may fall as well as rise and they may get back less than they originally invested. The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.
- f. Dividends**
- The Scheme may distribute not only investment income, but also realised capital gains or capital. Where capital is distributed, this will result in a corresponding reduction in the value of shares of the Scheme, and a reduction in the potential for long-term capital growth.
- g. Warrants**
- The Scheme may invest in warrants, the values of these warrants are likely to fluctuate more than the prices of the underlying securities because of the greater volatility of warrant prices.
- h. Futures and Options**
- The Scheme may use options and futures on securities, indices and interest rates for the purpose of efficient portfolio management.
 - Transactions in futures and options carry a high degree of risk. A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders.

i. **Listing**

- In case the shares of the Scheme are listed, the exchanges on which those shares are listed will have no responsibility for the contents of any prospectus issued by the Scheme or will make no representations as to its accuracy or completeness and expressly disclaim any liability whatsoever for any kind of loss arising from or in reliance upon any part of any such prospectus.

j. **Risks associated with investing in Securitized Debt**

Not Applicable. The Scheme will not invest in Securitized debt.

k. **Risks associated with Short Selling**

Not Applicable. The Scheme will not undertake short selling.

L. Risks Associated with investing in Money Market Instruments

- Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's inability to meet interest and principal payments.
- Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, the general level of market liquidity and market perception of creditworthiness of the issuer of such instruments.
- The NAV of the Units, to the extent that the corpus of the Scheme is invested in money market instruments, will be affected by changes in the level of interest rates. When interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline.

M. Risk associated with Securities Lending

Securities lending may involve the risk of default on the part of the borrower. However, this is unlikely to happen if the stock lending is carried out for stocks which are in dematerialised form and through an authorised stock lending Scheme, subject to appropriate Regulations.

The Investment Manager perceives such situations to be exceptional in nature. Although the Stock Market in India is still developing, considering the good demand for listed / quoted Equity Shares of reputed companies, the Scheme may choose to meet repurchase needs through temporary borrowings, within the permissible limits.

Risk profile and Control Measures

Please refer to Section I-A Risk Factors for details on Risk Profile pertaining to the Scheme.

Risk Control Measures:

Market Risk	The Scheme will invest in select Equity and Equity related securities in which market risk is inherent. The scheme may use derivatives to manage this risk to the extent possible.
Concentration Risk	The Scheme will try and mitigate this risk by investing in sufficiently large number of companies so as to maintain optimum diversification and keep stock-specific/sector specific concentration risk relatively low.
Currency Risk	The Scheme will not invest in overseas securities and hence there will be no exposure to foreign currencies.
Liquidity Risk	The liquidity of stocks that the fund invests into could be relatively low. The fund is Close Ended Fund and as such daily liquidity requirements are inherently not present. The Scheme would invest in securities keeping in mind the maturity date of the scheme to ensure liquidity to meet redemption/maturity requirements.
Derivatives Risk	Derivatives will be used for the purpose of hedging/portfolio balancing purposes or to improve performance and manage risk efficiently. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme(s) and individual Plan(s) under the Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s). These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme(s)/Plan(s) shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 business days of the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS, if any

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

Canara Robeco India Opportunities is a Close Ended Equity Scheme.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

To generate capital appreciation by investing predominantly in equity and equity related instruments of mid cap companies.

However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The Asset Allocation pattern of the Scheme under normal circumstances would be as under:

Instruments	Indicative Allocation		Risk Profile
	Minimum	Maximum	
Mid- and Small Cap Equity and Equity Related Instruments	65%	90%	High
Large Cap Equity and Equity Related Instruments	10%	35%	High
Micro Cap Equity and Equity Related Instruments	0%	5%	High
Debt and Money Market Instruments	0%	25%	Low

For the purpose of this fund:

- Large cap companies are the top 150 Companies appearing in BSE 200 index or those companies whose market capitalisation is within the range of market capitalisation of top company and the 150th company of BSE 200.
- Midcap companies are the companies which are appearing in CNX Midcap Index or those companies whose market capitalisation is within the range of market capitalisation of top company and the last company of CNX Midcap Index;
- Small cap companies are the Companies which are appearing in CNX small cap Index or those companies whose market capitalisation is within the range of market capitalisation of top company and the last company of CNX small cap Index.

In case of a overlapping of Companies, viz. the Companies that can be considered both as Large cap & Midcap, based on the above definitions, the allocation will be considered for allocation towards the Large cap. Similarly companies that can be considered both as midcap and small cap based on the above definitions the allocation will be considered for allocation towards Midcap.

The ranking will be reviewed periodically.

In the last six months of the tenure of the scheme, the exposure to Large Cap stocks may go up to 100 per cent, if considered in the best interest of investors, in order to facilitate smooth completion of maturity of the scheme.

Subject to guidelines specified by SEBI (MF) Regulations as may be amended from time to time, exposure by the Scheme in derivative instruments for the purpose of hedging and portfolio rebalancing shall not exceed 30% of the Net Assets of Scheme at the time of investment. Exposure by the scheme in derivative shall be in accordance with Circular No. Cir/IMD/DF/ 11/2010 dated August 18, 2010 as may be amended from time to time.

The Scheme shall not invest in ADRs/GDRs. The Scheme shall not invest in foreign securities.

The Scheme shall not invest in securitized debt.

The scheme does not intend to invest in unrated debt instruments. The Scheme does not intend to enter Repo/ Reverse repo transactions in corporate debt securities

Subject to the SEBI (MF) Regulations and in accordance with Securities Lending Scheme, 1997, SEBI Circular No MFD/CIR/01/ 047/99 dated February 10, 1999, SEBI Circular no. SEBI / IMD / CIR No 14 / 187175/ 2009 dated December 15, 2009 and framework for short selling and borrowing and lending of securities notified by SEBI vide circular No MRD/DoP/SE/Dep/Cir- 14/2007 dated December 20, 2007, as may be amended from time to time, the Scheme seeks to engage in Stock Lending.

The AMC shall adhere to the following limits should it engage in Stock Lending:

1. Not more than 15% of the net assets of the Scheme can generally be deployed in Stock Lending.
2. Not more than 5% of the net assets of the Scheme can generally be deployed in Stock Lending to any single approved intermediary. Total of investments in Equity, debt securities, money market instruments and gross notional exposure in derivatives shall not exceed 100% of the net assets of the scheme

Pending deployment of the funds in securities pursuant to the investment objectives of the Fund, such funds may be invested in short term deposits of scheduled commercial banks as permitted under the Regulations. The investments in these deposits shall be in accordance with SEBI Circular Nos. SEBI/IMD/CIR No. 9/20306/03, SEBI/IMD/CIR No. 1/91171/07, SEBI/IMD/CIR No. 8/107311/07, SEBI/IMD/CIR No. 7/129592/08 dated 12 November 2003, 16 April 2007, 26 October 2007 and 23 June 2008 respective and any other applicable guidelines as amended or updated from time to time

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations inter alia due to market changes. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

Portfolio Rebalancing:

The scheme shall rebalance the portfolio within 30 days. However, the scheme will endeavour to complete the rebalancing within 10 days. At all times the AMC shall ensure that the portfolio would adhere to the overall investment objective of the schemes.

D. WHERE WILL THE SCHEME INVEST?

The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated and of any maturity. The securities may be acquired through initial public offerings (IPOs), secondary market operations, private placement or rights offers. All investments in securities whether privately placed or otherwise will be in line with SEBI guidelines as applicable and the investment objectives and policies of the Scheme.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market is the oldest and the largest component (70% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates.

In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call (i.e. market for overnight and term money between banks and institutions)
- Collateralised Borrowing & Lending Obligations (CBLO)
- Repo/Reverse Repo Agreement (temporary sale with an agreement to buy back the securities at a future date at a specified price)
- Treasury Bills (issued by RBI)
- Government securities with a residual maturity of < 1 year.
- Commercial Paper CPs, short term unsecured promissory notes, generally issued by corporates)
- Certificate of Deposit (CDs, issued by banks)

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing as on 21st October, 2014 for some of the instruments:-

Instrument	Current Yield Range
CBLO	6.50% - 8.80%
Repo	8.00%
3m Tbill	8.46%
1y Tbill	8.45%
10y G Sec	8.37%
3m PSU Bank CD	8.53%
3m NBFC CP	8.98%
3m Non NBFC CP	8.88%
1y PSU Bank CD	8.98%
1y NBFC CP	9.33%
1y Non NBFC CP	9.23%
5y AAA Institutional Bond (PSU Bond)	9.00%
10y AAA Institutional Bond (PSU Bond)	9.05%

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

E. WHAT ARE THE INVESTMENT STRATEGIES?

Investment Focus and strategy:

The primary investment objective of the Scheme is to seek to provide long term capital growth by investing predominantly in equity and equity related instruments. The Scheme does not guarantee/indicate any assured returns. The Scheme will predominantly invest in Mid- and Small-Caps and a small portion in Large Caps and Micro-Caps. A bottom up stock-picking approach will be used to identify opportunities in the Mid- and Small-cap space. Guiding principle will be to get exposure to growth at a reasonable price. In the Large Cap space exposure will be taken to those companies which are expected to turn-around and show positive performance in the renewed positive business climate. Large Cap (as well as debt/money market) exposure might also be taken in case of sustained adverse market circumstances in which the Mid-, Small and Micro Cap companies underperform and a reversal is not expected any time soon.

The investment emphasis of the scheme will be in identifying companies with strong competitive position in good business and having quality management. The AMC will follow an active investment style supported by in-house research. Essentially, the focus would be on long-term fundamentally driven values.

The fund will follow a bottom-up investment methodology with a top-down overlay. Sector selection will be based on opportunities available in sectors.

Risk Mitigation:

Investments made by the Scheme would be in accordance with the investment objectives of the schemes and provisions of SEBI Regulations. Since investing required disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risk. With the aim of controlling risks, the investment team of the AMC will carry out rigorous in depth analysis of the securities proposed to be invested in. Following are few identified risks and control measures to mitigate the same. However, there can be no assurance that these risks would be completely eliminated:

Type of Risks	Risk mitigation measures
Market Risk	The Scheme will invest in select Equity and Equity related securities in which market risk is inherent. The scheme may use derivatives to manage this risk to the extent possible.
Concentration Risk	The Scheme will try and mitigate this risk by investing in sufficiently large number of companies so as to maintain optimum diversification and keep stock-specific/sector specific concentration risk relatively low.
Currency Risk	The Scheme will not invest in overseas securities and hence there will be no exposure to foreign currencies.
Liquidity Risk	The liquidity of stocks that the fund invests into could be relatively low. The fund is Close Ended Fund and as such daily liquidity requirements are inherently not present. The Scheme would invest in securities keeping in mind the maturity date of the scheme to ensure liquidity to meet redemption/maturity requirements.
Derivatives Risk	Derivatives will be used for the purpose of hedging/portfolio balancing purposes or to improve performance and manage risk efficiently. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.

Procedure followed for investment decisions:

The Fund Manager of the Scheme is responsible for making buy / sell decisions for the Scheme's portfolio and seeks to develop a well diversified portfolio taking into account the asset allocation patterns of various schemes along with risks that are associated with such investments. The investment decisions are made on an ongoing basis keeping in view the market conditions and other regulatory aspects.

The AMC has constituted an Investment Committee, currently comprising of the CEO, COO, Head of Risk Management, Head of Equities, Head of Fixed Income that meets at periodic intervals. The Investment Committee's role is to formulate broad investment strategies for the Scheme, review the performance of the Scheme and the general market outlook.

The Fund Manager is responsible for facilitating investment debate and a robust investment culture. The investment team would hold ongoing meetings as well as additional ad-hoc meetings as needed, to explore the investment thesis.

It is the responsibility of the AMC to seek to ensure that the investments are made as per the Regulatory guidelines, the investment objective of the Scheme and in the interest of the Unit holders of the Scheme(s).

The AMC will keep a record of all investment decisions in accordance with the guidelines issued by SEBI.

The AMC and Trustee will review the performance of the scheme in their Board meetings. The performance would be compared with the performance of the benchmark index and with peer group in the industry.

Portfolio Turnover Policy:

Purchase and Sale of securities attract transaction costs of the nature of brokerage, stamp duty, custodian transaction charges etc. The portfolio turnover is essential to regularly explore trading opportunities to optimise returns for the Scheme and enable portfolio restructuring when required.

The Scheme will manage its portfolio taking into account the associated risks (such as interest / liquidity / redemption etc.) perceived / expected, so as to minimise the risks by using adequate risk management techniques. The portfolio turnover policy will be aimed at maximising the returns/growth.

The AMC believes in active churning of the portfolio with an aim to encash on the opportunities that present themselves from time to time. However the scheme shall aim to achieve the turnover target of 100% to 150% of the corpus of the Scheme so long as the above target is cost effective and profitable without affecting long-term growth prospects of the investment and scheme objective

Pursuant to Schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations, 1996, the cost of investments acquired or purchased shall include all such costs incurred for effecting the transaction while the sale proceeds of investment sold or redeemed shall be net of all such costs incurred for effecting the sale transactions and shall form part of the purchase or the sale value of investments.

Stock/Securities Lending by the Fund:

The Fund may in future carry out stock/securities lending activity under any of its Schemes, in order to augment its income. Stock/securities lending may involve the risk of default such as loss, bankruptcy etc on the part of the borrower. However, this is unlikely to happen if the stock/securities lending is carried out for stocks/securities which are in dematerialised form and through an authorised stock/securities lending Scheme which is subject to appropriate regulation. Any stock/securities lending done by the Scheme shall be in accordance with any regulations or guidelines regarding the same. The policy to be followed for stock/securities lending shall be approved by the Board of Directors of the Investment Manager as well as by the Board of Trustees.

Hedging and Derivatives:

SEBI vide its circular no. DNP/Cir-29/2005 dated September 14, 2005 permitted mutual funds to participate in derivatives trading subject to the observance of guidelines issued by SEBI. Mutual Funds are permitted to participate in the derivatives market at par with Foreign Institutional Investors (FII)/Foreign portfolio Investors (FPI). Accordingly, the mutual funds shall be treated at par with a registered FII/ FPI in respect of position limit in index futures, index options, stock options and stock futures contracts. The Mutual Fund will be considered as trading members like registered FIIs/ FPI and the schemes of Mutual Funds will be treated as clients like sub-accounts of FIIs/FPIs. As a part of the fund management process, the AMC may use appropriate derivative instruments in accordance with the investment objectives of the Scheme.

The following are the position limits for Mutual Funds and its schemes:

i. Position limit for Mutual Funds in index options contracts

- a. The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 250 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for Mutual Funds in index futures contracts:

- a. The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 250 crore or 15% of the total open interest of the market in index futures, whichever is higher per Stock Exchange.
- b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging

In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:

1. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
2. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for Mutual Funds for stock based derivative contracts

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, stand in the following manner:

1. For stocks in which the market wide position limit is less than or equal to Rs. 250 crore, the Mutual Fund position limit in such stock shall be 20% of the market wide position limit.
2. For stocks in which the market wide position limit is greater than Rs.250 crore, the Mutual Fund position limit in such stock shall be Rs.50 crore.

v. Position limit for each scheme of a Mutual Fund

The position limits for each scheme of mutual fund and disclosure requirements shall be identical to that prescribed for sub account of a FII/FPI. Therefore, the scheme-wise position limit/ disclosure requirements shall be:

- i. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of: 1% of the free float market capitalisation (in terms of number of shares) or 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
- ii. This position limits shall be applicable on the combined position in all derivative contracts on underlying stock at a Stock Exchange.
- iii. For index based contracts, Mutual Funds disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Monitoring of Position Limits

- a. The Mutual Fund shall notify Clearing Member/s for each scheme, through whom it would clear its derivative contracts, to the Stock Exchange.
- b. The Stock Exchange would then assign a unique client code to each scheme of the Mutual Fund.
- c. The Stock Exchange shall monitor the scheme-wise position limits in the manner similar to that prescribed for FIIs/FPI and their sub-accounts in SEBI circular no. SMD/DC/Cir/-11/02 dated February 12, 2002 as modified from time to time.

The Fund shall comply with the guidelines issued by SEBI and amendments thereof issued from time to time in derivative trading.

Equity / Equity Related Derivative Instruments:

Index futures are meant to be an efficient way of buying / selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures can be an efficient way of achieving the Scheme's investment objective. Index futures may avoid the need for tracking in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scrips. Index futures can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares of an index and will be easy to settle compared to physical portfolio of shares representing an index. Stock futures could also be used as an alternative to investing in particular stocks comprising an index where either the liquidity is low or the impact cost is high.

Basic Structure of an Index Future

Index Futures are instruments designed to give exposure to the equity market indices. The Stock Exchange, Mumbai and the National Stock Exchange of India Limited have started trading in index futures. The pricing of an index future is the function of the underlying index and short-term interest rates.

Illustration :

Spot Index : 1070

1 month Nifty Future Price on day 1 : 1075

Fund buys 100 lots. Each lot has a nominal value equivalent to 200 units of the underlying index.

Let us say that on the date of settlement, the future price = Closing spot price = 1085

Profits of the Fund = $(1085-1075) * 100 \text{ lots} * 200 = \text{Rs.}200,000$.

Similarly, the fund can suffer a loss if the future price is lower than the contracted price. Let us say that in the above example, on the date of settlement the future price = Closing Spot Price = 1060.

Loss for the Fund = $(1060-1075) * 100 \text{ lots} * 200 = (\text{Rs.}300,000)$

Please note that the above example is given for illustration purposes only.

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity) plus interest costs on funds that would otherwise be invested in stocks comprising the index. The risks associated with index futures are similar to those associated with equity investments.

Additional risks could be on account of illiquidity and/or mispricing of the future at any time during the life of the contract.

Advantages of Equity Derivatives:

In times of volatility in the equity markets, derivatives provide much needed flexibility to hedge against this volatility. Some of the advantages of specific derivatives products are given below:

- ▣ Stock Index Futures can give exposure to the index. Appreciation in Index Investment in Stock Index Futures can give exposure to the index without directly buying the individual stocks, which make up the index. Appreciation in Index stocks can be effectively captured through investment in Stock Index Futures.
- ▣ The Scheme can sell futures to hedge against market movements without actually selling the underlying stocks it hold.
- ▣ By buying call options on the index, one can participate in the rise in the market, without actually buying individual stocks.
- ▣ By buying put options on the index, the Scheme can insulate the portfolio (assuming a perfect co-relation between portfolio and index which may not be the case) from the downside risk at a small cost.

Debt / Debt Related Derivatives

The Scheme may use derivatives in accordance with SEBI Regulations. RBI has issued guidelines on Interest Rate Swaps (IRS) and Forward Rate Agreements (FRA) on July 7, 1999. These products were introduced for developing the nation's Debt Market.

Interest Rates Swaps (IRS)

All swaps are financial contracts, which involve exchange (swap) of a set of payments receivable by one party for another set of payments receivable by another party, usually through an intermediary. An IRS can be defined as a contract between two parties (Counter Parties) to exchange, on particular dates in the future, one series of cash flows (fixed interest) for another series of cash flows (variable or floating interest) in the same currency and on the same principal for an agreed period of time. The exchange of cash flows need not occur on the same date.

Forward Rate Agreements (FRA)

A FRA is an agreement between two counter parties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date, based on a notional amount, for an agreed period.

In short, in a FRA, interest rate is fixed now for a future period. The special feature of FRAs is that the only payment is the difference between the FRA rate and the Reference rate and hence are single settlement contracts. As in the case of IRS, notional amounts are not exchanged.

The Scheme will use derivative instruments for the purpose of hedging and portfolio balancing. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment.

Basic Structure of an Interest Rate Swap

An interest rate swap is an agreement between two parties to exchange future payment streams based on a notional amount. Only the interest on the notional amount is swapped, and principal amount is never exchanged.

In a typical interest rate swap, one party agrees to pay a fixed rate over the term of the agreement and to receive a variable or floating rate of interest. The counterparty receives a stream of fixed rate payments at regular intervals as described in the agreement and pays the floating rate of interest.

Illustration :

Fixed interest rate: 10% p.a.

Variable Interest Rate: Over-Night MIBOR (variable)

Notional Principal: Rs.10 crore

Period of Agreement: 1 year

Interest Frequency: Semi-annual

Suppose six month period from the value date of swap to the first payment date is 182 days and the daily compounded over-night MIBOR is say 8% p.a. on that date, the interest streams are as follows:

Fixed Rate Payment:

$$\text{Rs.}10,00,00,000.00 \times 182 \times 10 / 365 \times 100 = \text{Rs.}49,86,301.36$$

Variable Rate:

$$\text{Rs.}10,00,00,000.00 \times 182 \times 8 / 365 \times 100 = \text{Rs.}39,89,041.09$$

In the above example, the fixed rate payer will pay the variable rate payer a net amount of Rs.9,97,260.27 (Rs.49,86,301.36 - 39,89,041.09).

Likewise the second and final payment will depend upon the variable NSE MIBOR for the remaining 183 days and the interest stream of fixed rate for the said period, the difference of which, will be settled between the parties at the expiry of the contract.

The above example illustrates the benefits and risks of using derivatives for hedging and optimising the investment portfolio. Swaps have its own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Valuation of Derivative Products

The traded derivatives shall be valued at the closing price provided by the respective stock exchanges.

The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 as amended from time to time.

Exposure to Derivatives

Losses may arise as a result of using derivatives, but these are likely to be compensated by the gains on the underlying cash instruments held by the Scheme.

Risk associated with Derivatives trading:

The risk associated with index futures is similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the futures at the time of purchase. As and when the Scheme trades in the derivatives markets, there are risk factors and issues concerning the use of derivatives. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks. The use of a derivative requires understanding of the underlying instrument as well as that of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess risk that a derivative adds to the portfolio and the ability to forecast price movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks associated with trading in derivatives include the risks of mispricing or improper valuation of derivatives and inability of derivatives to correlate perfectly with underlying assets, indices.

The net impact for the Scheme will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, profit or loss for the Scheme will be the difference between the closing price (which can be higher or lower than the purchase price) and the purchase price.

The Scheme will comply with provisions specified in Circular dated August 18, 2010 related to overall exposure limits applicable for derivative transactions as stated below:

- a. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
- b. Mutual Funds shall not write options or purchase instruments with embedded written options.
- c. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- d. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- e. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following
 - i. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - ii. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - iii. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - iv. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- f. Mutual Funds may enter into interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- g. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point

F. FUNDAMENTAL ATTRIBUTES

The Fundamental attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a scheme

Canara Robeco India Opportunities is a Close ended Equity Scheme.

(ii) What is the investment objective of the scheme (s)?

To generate capital appreciation by investing predominantly in equity and equity related instruments of mid cap companies.

However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.

Investment Pattern:

The Asset Allocation pattern of the Scheme under normal circumstances would be as under:

Instruments	Indicative Allocation		Risk Profile
	Minimum	Maximum	
Mid- and Small Cap Equity and Equity Related Instruments	65%	90%	High
Large Cap Equity and Equity Related Instruments	10%	35%	High
Micro Cap Equity and Equity Related Instruments	0%	5%	High
Debt and Money Market Instruments	0%	25%	Low

For the purpose of this fund:

- Large cap companies are the top 150 Companies appearing in BSE 200 index or those companies whose market capitalisation is within the range of market capitalisation of top company and the 150th company of BSE 200.
- Midcap companies are the companies which are appearing in CNX Midcap Index or those companies whose market capitalisation is within the range of market capitalisation of top company and the last company of CNX Midcap Index;
- Small cap companies are the Companies which are appearing in CNX small cap Index or those companies whose market capitalisation is within the range of market capitalisation of top company and the last company of CNX small cap Index.

In case of a overlapping of Companies, viz. the Companies that can be considered both as Large cap & Midcap, based on the above definitions, the allocation will be considered for allocation towards the Large cap. Similarly companies that can be considered both as midcap and small cap based on the above definitions the allocation will be considered for allocation towards Midcap.

The ranking will be reviewed periodically.

In the last six months of the tenure of the scheme, the exposure to Large Cap stocks may go up to 100 per cent, if considered in the best interest of investors, in order to facilitate smooth completion of maturity of the scheme.

Subject to guidelines specified by SEBI (MF) Regulations as may be amended from time to time, exposure by the Scheme in derivative instruments for the purpose of hedging and portfolio rebalancing shall not exceed 30% of the Net Assets of Scheme at the time of investment. Exposure by the scheme in derivative shall be in

accordance with Circular No. Cir/IMD/DF/ 11/2010 dated August 18, 2010 as may be amended from time to time.

The Scheme shall not invest in ADRs/GDRs. The Scheme shall not invest in foreign securities.

The Scheme shall not invest in securitized debt.

The scheme does not intend to invest in unrated debt instruments. The Scheme does not intend to enter Repo/ Reverse repo transactions in corporate debt securities

Subject to the SEBI (MF) Regulations and in accordance with Securities Lending Scheme, 1997, SEBI Circular No MFD/CIR/01/ 047/99 dated February 10, 1999, SEBI Circular no. SEBI / IMD / CIR No 14 / 187175/ 2009 dated December 15, 2009 and framework for short selling and borrowing and lending of securities notified by SEBI vide circular No MRD/DoP/SE/Dep/Cir- 14/2007 dated December 20, 2007, as may be amended from time to time, the Scheme seeks to engage in Stock Lending.

The AMC shall adhere to the following limits should it engage in Stock Lending:

1. Not more than 15% of the net assets of the Scheme can generally be deployed in Stock Lending.
2. Not more than 5% of the net assets of the Scheme can generally be deployed in Stock Lending to any single approved intermediary. Total of investments in Equity, debt securities, money market instruments and gross notional exposure in derivatives shall not exceed 100% of the net assets of the scheme

Pending deployment of the funds in securities pursuant to the investment objectives of the Fund, such funds may be invested in short term deposits of scheduled commercial banks as permitted under the Regulations. The investments in these deposits shall be in accordance with SEBI Circular Nos. SEBI/IMD/CIR No. 9/20306/03, SEBI/IMD/CIR No. 1/91171/07, SEBI/IMD/CIR No. 8/107311/07, SEBI/IMD/CIR No. 7/129592/08 dated 12 November 2003, 16 April 2007, 26 October 2007 and 23 June 2008 respective and any other applicable guidelines as amended or updated from time to time

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations inter alia due to market changes. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

(iii) Terms of Issue

Listing/Redemption/Repurchase of Units:

Listing: The units may be listed on NSE and/or other stock exchange(s) as may be deemed appropriate by the AMC, accordingly then reference herein to NSE shall be deemed to mean and include NSE and/or such other Stock Exchange(s).

(iv) Aggregate fees and expenses

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. These expenses will be borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

As per the SEBI Regulations, the following fees and expenses can be charged to the Scheme. Where the total sum of the investment management fee and advisory fee, and recurring expenses charged to the Scheme shall not exceed 2.50% of the daily average net assets of the Scheme per annum.

The AMC has estimated that the following percentage of the daily average net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund www.canararobeco.com. Any expenses beyond the limits shall be borne by the AMC.

Expense Head	% of daily Net Assets
Investment Management and Advisory Fees	Upto 2.50%
Trustee fee	
Audit fees	
Custodian fees	
RTA Fees	
Marketing & Selling expense incl. agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and dividend redemption cheques and warrants	
Costs of statutory Advertisements	
Cost towards investor education & awareness (at least 2 bps)	
Brokerage & transaction cost over and above 12 bps for cash market trades and 5bps for derivatives transactions	
Service tax on expenses other than investment and advisory fees	
Service tax on brokerage and transaction cost	
Other Expenses	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (c) (i) and (6) (a)	Upto 2.50%
Additional expenses under regulation 52 (6A) (c)	Upto 0.20%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

The Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan. At least 10% of the TER is charged towards distribution expenses / commission in the Regular Plan. The TER of the Direct Plan will be lower to the extent of the abovementioned distribution expenses / commission (at least 10%) which is charged in the Regular Plan.

Fungibility of expenses: The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. - Service tax on investment and advisory fees shall be charged to the Scheme in addition to the maximum limit on TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
- Service tax on other than investment and advisory fees, if any, shall be borne by the Scheme within the maximum limit on TER as prescribed in Regulation 52 (6) of the SEBI(MF) Regulations.
- Service tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of service tax, if any, shall be credited to the Scheme.
- Service tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI (MF) Regulations.

Investor Education and Awareness initiatives

As per SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC shall annually set apart at least 2 basis points p.a. (i.e. 0.02% p.a.) on daily net assets of the Scheme within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken by the Fund.

The total expenses of the Scheme including the Investment Management and Advisory Fee shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations. Any expenditure in excess of the SEBI regulatory limits shall be borne by the AMC or by the Trustee or the Sponsor.

The current expense ratios will be updated on the Mutual Fund website on www.canararobeco.com within two working days mentioning the effective date of the change.

Any safety net or guarantee provided:

The Scheme does not provide any safety net or guarantee nor does it provide any assurance regarding the realization of the investment objective of the scheme or in respect of declaration of dividend.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unit Holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unit holders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark Index: CNX Midcap

As approved by the Board of Trustees, CNX Midcap is the Benchmark selected for the Scheme. However The Trustees reserve the right to change the benchmark due to a change in market conditions, a different index appears to be providing a more appropriate basis for comparison of the Scheme performance or if the indicated benchmark ceases to exist or undergoes a substantial change that renders it an ineffective base for performance comparison and analysis. Any change in the Benchmark Index for the Scheme would be actuated only post approval from Board of Trustees.

H. WHO MANAGES THE SCHEME?

Mr. Ravi Gopalakrishnan is the fund manager for the Scheme. He will also manage the debt portion of the Scheme.

Such investment limit may be extended to 20% of the NAV of the Scheme with the prior approval of the Board of Trustees and the Board of Asset Management Company, provided that such limit shall not be applicable for investments in Government Securities.
7. The Scheme shall not advance any loan for any purpose.
8. The Mutual Fund under all its Scheme(s) will not own more than ten percent of any Company's paid up capital carrying voting rights.
9. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, the Mutual Fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board. The investments in these deposits shall be in accordance with SEBI Circular Nos. SEBI/IMD/CIR No. 9/20306/03, SEBI/IMD/CIR No. 1/91171/07, SEBI/IMD/CIR No. 8/107311/07, SEBI/IMD/CIR No. 7/129592/08 dated 12 November 2003, 16 April 2007, 26 October 2007 and 23 June 2008 respective and any other applicable guidelines as amended or updated from time to time. The Scheme(s) shall abide by the following guidelines for parking of funds in short term deposits:
 - i. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
 - ii. Such short-term deposits shall be held in the name of the Scheme.
 - iii. The Scheme(s) shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
 - iv. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - v. The Scheme(s) shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
 - vi. The Scheme(s) shall not park funds in short-term deposit of a bank, which has invested in the Scheme.
10. No mutual fund scheme shall invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company
11. Investment in other Schemes : The investment by this Scheme in other Mutual Fund Schemes will be in accordance with Regulation 44(1) read with Clause 4 of the VII Schedule to the SEBI (Mutual Funds) Regulations, 1996 according to which :
 - The Scheme/s may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all the

Schemes under the same management or in schemes under the management of any other AMC shall not exceed 5% of NAV of the mutual fund.

12. The Scheme/s shall not make any investment in:
 - Any unlisted security of an associate or group company of the sponsor; or
 - Any security issued by way of private placement by an associate or group company of the sponsor; or

The total exposure, in a particular sector (excluding investments in Bank CDs, Short term deposits of schedule commercial Bank, CBLO, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 30% of the net assets of the Scheme. For the purposes of sector exposure limits, AMFI sector classification of issuers would be considered.

Provided that the Scheme may have an additional exposure to financial services sector (over and above the sector limit of 30%) not exceeding 10% of the net assets of the Scheme by way of increase in exposure to Housing Finance Companies (HFCs). Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 30% of the net assets of the Scheme.
16. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if,
 - Such transfers are done at the prevailing market price for quoted instruments on spot basis. [Explanation - "spot basis" shall have same meaning as specified by stock exchange for spot transactions.]
 - The securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
17. The scheme shall invest only in such permissible debt securities which will mature on or before the date of the maturity of the scheme
18. All investment restrictions stated above shall be applicable at the time of making investment.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/ Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

The Trustees of the Mutual Fund may alter these limitations / objectives from time to time to the extent the SEBI Regulations change so as to permit the Scheme/s to make its investments in the full spectrum of

permitted investments for the mutual fund in order to achieve its investment objectives. All investments of the Scheme will be made in accordance with the SEBI Regulations, including Seventh Schedule thereof.

AMC's investments in the Scheme: The AMC may invest in the scheme, such amount, as they deem appropriate. But the AMC shall not be entitled to charge any management fees on this investment in the scheme. Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI (MF) Regulations, 1996 which states that:

“The asset management company shall not invest in any of its schemes unless full disclosure of its intention to invest has been made in the offer document, provided that the asset management company shall not be entitled to charge any fees on its investment in the scheme.”

Underwriting by the Scheme

The scheme will not accept underwriting and sub underwriting obligations.

Policy for Inter-scheme Transfers

The Scheme may purchase / sell securities under the Scheme through the mode of Inter-Scheme Transfers, if such a security is under the buy / sell list of this Scheme and is on the sell / buy list of another Scheme under the Fund. Under such circumstances, the transactions will be effected based on the prevailing market price on spot basis and in conformity with Regulations. The valuation of untraded / unquoted securities and debt instruments shall be done in accordance with the general valuation policies of the Fund.

J. HOW HAS THE SCHEME PERFORMED?

This scheme is a new scheme and does not have any performance track record.

III. UNITS AND OFFER

This section provides details you need to know for investing in the scheme.

A. NEW FUND OFFER (NFO)

New Fund Offer Period	NFO opens on: 14 th November, 2014 NFO closes on: 28 th November, 2014 <i>(The Trustee reserves the right to extend the closing date, subject to the condition that the New Fund Offer shall not be kept open for more than 15 days. Any such extension shall be announced by way of a notice in one national newspaper).</i>
New Fund Offer Price This is the price per unit that the investors have to pay to invest during the NFO.	Face Value of Rs. 10.00 per unit.
Minimum Amount for Application in the NFO	Minimum amount: Rs. 5,000.00 and multiples of Rs.10.00 thereafter. In case of investors opting to switch into the Scheme from the existing scheme(s) of Canara Robeco Mutual Fund (subject to completion of Lock-in Period, if any) during the NFO Period, the minimum amount is Rs.5,000/- per application and in multiples of Rs. 10/- thereafter
Minimum Target amount	Rs.10 Crore. (This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return. However, if AMC fails to refund the amount within 5 business days from the date of closure of NFO, interest as specified by SEBI (currently 15% p.a.) will be paid to the investors from the expiry 5 business days from the date of closure of the subscription period.
Maximum Amount to be raised (if any) This is the maximum amount which can be collected during the NFO period, as decided by the AMC.	There is no Maximum Amount.
Options	Regular Plan: Growth Option and Dividend Payout Option Direct Plan: Growth Option and Dividend Payout Option Regular Plan: Regular Plan is for investors who purchase /subscribe Units in the scheme through a Distributor. Direct Plan: Direct Plan is only for investors who purchase /subscribe Units in the Scheme directly with Canara Robeco Mutual Fund and is not available for investors who route their investments through a Distributor (AMFI registered distributor / ARN Holder). Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan. Canara Robeco Mutual Fund shall have separate "Application Forms" for investors

	<p>subscribing under Regular Plan & Direct Plan. Investors applying under Direct Plan can also fill the Regular Plan form, but should clearly indicate “Direct” in the ARN column of the application form. Also, where application is received for Regular Plan without Distributor code or “Direct” mentioned in the ARN Column, the application will be processed under Direct Plan.</p> <p>In case Distributor code is mentioned in the application form, but “Direct Plan” is indicated against the Scheme name, the Distributor code will be ignored and the application will be processed under Direct Plan.</p> <p>Growth Option Under this option, no dividends will be declared. The income attributable to units under this option will continue to remain invested and will be reflected in the NAV of the units under this option.</p> <p>Dividend Payout Option Dividends, if declared, will be paid (subject to deduction of tax at source, if any) to those Unit holders whose names appear in the Register of Unit holders on the notified record date. The Trustee / AMC reserves the right to change the record date from time to time. However, it must be distinctly understood that the actual declaration of dividend and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI (MF) Regulations. The decision of the Trustee in this regard shall be final. There is no assurance or guarantee to Unit holders as to the rate of dividend distribution nor will that dividends be paid regularly. In order to be a Unit holder, an investor has to be allotted Unit against receipt of clear funds by the Scheme/s. On payment of dividends, the NAV will stand reduced by the amount of dividend and dividend tax (if applicable) paid.</p> <p>Default Option: In case of valid applications received without indicating any choice of options, it will be considered as Growth Option and processed accordingly.</p>
Dividend Policy	<p>The Scheme may distribute, surplus if any, by way of dividend, as may be decided by the Trustees from time to time. If there is no distributable surplus or surplus amount is too small for distribution, in the opinion of the Trustees, the Dividend declaration may not take place.</p> <p>The Scheme is not assuring or guaranteeing any dividend or returns.</p> <p>Income Distribution, if declared, warrants will be issued within 30 days from the date of declaration of Income Distribution. The Income Distribution will be paid out of the Net surplus of the Scheme, to those unit holders whose names appear in the register of unit holders on the date to be notified for the purpose.</p> <p>Pursuant to payment of dividend, the NAV of the dividend option of the scheme would fall to the extent of payout and statutory levy (if applicable). If AMC fails to pay the amount within 30 days, interest as specified by SEBI (currently 15% p.a.) will be paid to the investors from the expiry of 30 days till the date of dispatch of the dividend.</p> <p>Dividend Distribution Procedure In accordance with SEBI Circular no. SEBI/ IMD/ Cir No. 1/ 64057/06 dated April 4, 2006, the procedure for Dividend Distribution would be as under: 1. Quantum of dividend and the record date will be fixed by the Trustee. Dividend so</p>

	<p>decided shall be paid, subject to availability of distributable surplus.</p> <p>2. Within one calendar day of decision by the Trustee, the AMC shall issue notice to the public communicating the decision about the dividend including the record date, in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated.</p> <p>3. Record date shall be the date, which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of unit holders for receiving dividends. The Record Date will be 5 calendar days from the issue of notice.</p> <p>4. The notice will, in font size 10, bold, categorically state that pursuant to payment of dividend, the NAV of the Scheme would fall to the extent of payout and statutory levy (if applicable).</p> <p>5. The NAV will be adjusted to the extent of dividend distribution and statutory levy, if any, at the close of business hours on record date.</p> <p>6. Before the issue of such notice, no communication indicating the probable date of dividend declaration in any manner whatsoever will be issued by Mutual Fund.</p>
Allotment	<p>Subject to the receipt of the specified minimum subscription amount, full allotment of Units applied for will be made within 5 business days from the date of closure of the NFO Period for all valid applications received during the NFO Period. Allotments made will be subject to realization of payment instrument and subject to the AMC having been reasonably satisfied of having received clear funds. Also, note that the allotment of units will not be made in decimals/fractions. The units will be converted to the nearest whole number at the time of allotment of units for NFO applicants to be in adherence to the tradable lot of one unit on the Stock Exchange. The balance amount represented by fractional units will be refunded to the investor.</p> <p>Where the Investor has chosen to receive the Units in electronic form, the AMC will credit Units to the Investor's Depository Account within 5 business days from the close of NFO as per the demat account details furnished by the investor in the Application Form.</p> <p>In case the Unit holder does not wish to get his/her Units allotted in electronic form, he should indicate so in his Application Form. In that case, or where the AMC is not able to credit the Units to the Depository Account of Unitholder for any reason whatsoever, the AMC shall issue Statement of Account specifying the Units allotted to the investor within 5 business days from the closure of NFO.</p> <p>Investors who do not provide the demat account details will be allotted units in Statement of Account (SOA) form.</p> <p>Allotment of Units and despatch of Account Statements to FII/FPI will be subject to RBI approval. Any addition/ deletion of name from the folio of the unitholder is deemed as transfer of units. But the Units of the Scheme are not transferable.</p> <p>In view of the same, additions/ deletion of names will not be allowed under any folio of the Scheme.</p> <p>The above provisions in respect of deletion of names will not be applicable in case of death of unitholder (in respect of joint holdings) as this is treated as transmission of units and not transfer.</p> <p>Unit Certificates: Normally no unit certificates will be issued under the Scheme. However, if the unitholder so desires, the AMC shall issue a unit certificate to the unitholder within 30 days of the receipt of request for the certificate. The cost of stamp duty paid for issuing the unit certificate will form part of the annual ongoing expenses and/or may be recovered from the Unitholder. However, such unit certificates are not tradable with the Stock Exchange.</p>

	<p>Dematerialization / Rematerialization of Units:</p> <p>The Applicants intending to hold the Units in dematerialized mode will be required to have a beneficiary account with a Depository Participant of the NSDL/CDSL and will be required to mention in the application form DP's Name, DP ID No. and Beneficiary Account No. with the DP at the time of purchasing Units during the NFO of the respective Plan(s). The Units allotted will be credited to the DP account of the Unit holder as per the details provided in the application form. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective DPs periodically. It may be noted that trading and settlement in the Units of respective Plan(s) over the stock exchange(s) (where the Units are listed) will be permitted only in electronic form.</p> <p>If the Unit holder desires to hold the Units in a Dematerialized / Rematerialized form at a later date, the request for conversion of units held in Account Statement (non demat) form into Demat (electronic) form or vice versa should be submitted alongwith a Demat/Remat Request Form to their Depository Participants.</p> <p>However, the Trustee / AMC reserves the right to change the dematerialization / rematerialization process in accordance with the procedural requirements laid down by the Depositories, viz. NSDL/ CDSL and/or in accordance with the provisions laid under the Depositories Act, 1996.</p> <p>Default Option:</p> <p>In case of valid applications received without indicating any choice of options, it will be considered as option for Growth Option and processed accordingly.</p> <p>In case of incorrect furnishing of DP account details, the AMC shall issue Statement of Account specifying the units allotted to investor within 5 business days from the closure of the NFO.</p>
<p>Refund</p>	<p>If application is rejected, full amount will be refunded within 5 business days from the closure of NFO. If refunded later than 5 business days from the closure of NFO, interest @ 15% p.a. for delay period will be paid and charged to the AMC.</p> <p>In the event of Applications not being complete in all respects and the consequent non allotment, the Scheme will refund the Application Money to the applicant(s), by Post and by way of Cheque or Demand Draft marked 'A/c Payee'. All refund cheques will be mailed by registered post or as permitted by applicable regulations at the risk of the applicants.</p>

The Switch will be effected by way of a Redemption of Units from the Scheme / Plan and a reinvestment of the Redemption proceeds in an open-ended scheme / plan and accordingly, to be effective, the Switch must comply with the Redemption rules of the Scheme and the issue rules of the other scheme (for e.g. as to the minimum number of Units that may be redeemed or issued, Exit / Entry Load, lock-in period, etc). The price at which the Units will be Switched out of the respective Plans will be based on the Redemption Price, and the proceeds will be invested in the scheme at the Offer price for units in the scheme.</p>
<p>Foreign Account Tax Compliance</p>	<p>FATCA is an acronym for Foreign Account Tax Compliance Act ("FATCA"), a United States Federal law to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments. The Government of India and the United States of America (US) have reached an agreement in substance on the terms of an Inter- Governmental Agreement (IGA) and India is now treated as having an IGA in effect from April 11, 2014. The AMC/Fund are likely to be classified as a 'Foreign Financial Institution' (Investment Entity as per Annexure 1(i)) under the FATCA provisions. In accordance with FATCA provisions, the AMC/Mutual Fund will be required to undertake due diligence process and identify US reportable accounts and collect such information/documentary evidences of the US and/or non-US status of its investors/Unit holders and disclose such information (through its agents or service providers) as far as may be legally permitted about the holdings, investment returns and/or to US Internal Revenue Service (IRS) or the Indian Tax Authorities, as the case may be for the purpose of onward transmission to the IRS pursuant to the new reporting regime under FATCA.</p>

	<p>FATCA due diligence will be directed at each investor/Unit holder (including joint investor) and on being identified as a reportable person/specified US person, all the folios will be reported. In case of folios with joint holders, the entire account value of the investment portfolio will be attributable under each such reportable person. An investor/Unit holder will therefore be required to comply with the request of the AMC /Mutual Fund to furnish such information as and when sought by the AMC for the AMC/Mutual Fund to comply with the information reporting requirements stated in IGA and circulars issued by SEBI/AMFI from time to time in this regard. The information disclosed may include (but is not limited to) the identity of the investors and their direct or indirect beneficiaries, beneficial owners and controlling persons. Investors/ Unit holders should consult their own tax advisors regarding FATCA requirements with respect to their own situation.</p> <p>The Trustee/AMC reserves the right to change/modify the provisions mentioned above at a later date.</p>
