INVESTMENT STRATEGY:

ICICI Prudential Long Term Wealth Enhancement Fund is a diversified equity scheme. The Scheme will invest into equity stock of companies listed in India. The investment strategy is split into three parts;

1. Asset Allocation:

The Scheme will invest a portion of its assets into large caps, midcaps and small caps. The proportion of the exposure to each capitalisation will depend on the following factors:

- Liquidity of stocks under each capitalisation range (e.g. Large caps are more liquid than midcaps and midcaps are more liquid than small caps)
- Trading volumes
- Market scenario - It is observed in the past that, in falling markets, large caps fall lesser (in % terms) than midcaps & small caps. It is also observed that, in rising markets, midcaps outperform (in % terms) large caps.

2. Top down approach:

The top down approach helps identifying sectors where the portfolio should take exposure. The portion of exposure to each sector (vis-a-vis benchmark) depends on the following parameters:

- Macroeconomic view
- Policy changes
- Global trends
- Relative valuation of each sectors vis-a-vis other sector
- Risk premium (Risk-reward ratio)

3. Bottom-up approach:

The bottom-up approach helps identifying stocks where the portfolio should take exposure. The portion of exposure to each stock (vis-a-vis benchmark and within the sector) depends on the following parameters:

- Relative valuation of each stock vis-a-vis other stock within the sector or broader market
- Management quality
- Business fundamentals
- Risks associated with business
- Ratios (PE, PB etc)

Since ICICI Prudential Long Term Wealth Enhancement Fund follows a long term equity strategy, the portfolio would be constructed using combination of all the above segments (Asset allocation, Top-Down approach and Bottom-Up approach).

The Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds, provided it is in conformity with the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

As per Equity Linked Savings Scheme, 2005 notification no. 226/2005 dated November 03, 2005, the investments of the Scheme will be made as under:

- a) The funds collected under a plan shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months.
- b) It shall be ensured that funds of a plan shall remain invested to the extent of at least eighty per cent in securities specified in clause (a). The Unit Trust and Mutual Fund shall strive to invest their funds in the manner stated above within a period of six months from the date of closure of the plan in every year. In exceptional circumstances, this requirement may be dispensed with by the Unit Trust or the Fund, in order that the interests of the assessee are protected.
- c) Pending investment of funds of a plan in the required manner, the Unit Trust and Mutual Fund may invest the funds in short-term money market instruments or other liquid instruments or both. After three years of the date of allotment of the units, the Unit Trust or Mutual Fund may hold up to twenty per cent of net assets of the plan in short-term money market instruments and other liquid instruments to enable them to redeem investment of those unit holders who would seek to tender the units for repurchase.

RISK PROFILE OF THE SCHEME:

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme Specific Risk Factors summarized below.

Scheme Specific Risk Factors and Risk Management Strategies:

Risks associated with investing in Equity linked savings schemes (ELSS):

- a. The Trustees, AMC, the Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the Scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information.
- b. Redemption by the unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund their directors or their employees shall not be liable for any tax consequences that may arise.
- c. The tax benefits described in the SAI & SID are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor / Unit holder is advised to consult his/her/its own professional tax advisor.
- d. **Investment in ELSS is subject to lock-in period of three years.** During this period investors will not be able to redeem their units. To this extent the liquidity for the investor is restricted and this may restrict exit at opportune moments.
- e. ICICI Prudential Long Term Wealth Enhancement Fund would be investing in Equities & equity related instruments, debt and money market instruments as permitted by SEBI and RBI from time to time. The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests after completion of the lock in period, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the Trustees have the right in their sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.
- f. As per ELSS guidelines, a plan operated by Mutual Fund would be terminated at the close of the 10th year from the year in which the allotment of units is made under the Plan.
- If ninety percent or more of the units under any plan are repurchased before completion of ten year, the Unit Trust and Mutual Fund may at their discretion, terminate that plan even before the stipulated period of ten years; and redeem the outstanding units at the final repurchase price to be fixed by them.

In general, investment in the scheme may be affected by risks associated with equities and fixed income securities.

Risk associated with close ended Schemes:

A close ended Scheme endeavors to achieve the desired returns only at the scheduled maturity of the Scheme. Although the securities in the portfolio will have high market liquidity, there is a possibility that market liquidity could get impacted on account of company/sector/general market related events and there could be a price impact at maturity while liquidating the portfolio. Hence, Unit Holders may not get the desired returns.

Risk management strategies: The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity and debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.

The Fund has identified following risks of investing in equity and debt Securities designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & Description	Risk mitigants / management strategy
Risks associated with Equity investment	
Market Risk: The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme.	Market risk is a risk which is inherent to an equity scheme. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the Scheme, due to various market related factors like changes in the general market conditions, factors and forces, affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures. The Scheme will undertake active portfolio management as per the investment objective to reduce the market risk.
Liquidity Risk: The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests.	The liquidity of stocks that the Scheme invests into could be relatively low. The Scheme is a Close Ended Scheme and as such daily liquidity requirements are inherently not present. The fund will try to maintain a proper asset-liability match to ensure redemption / maturity payments are made on time and not affected by illiquidity of the underlying stocks.

Concentration Risk: Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The Scheme will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
Risks associated with Debt investments	
Market Risk/ Interest Rate Risk: As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The scheme will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the scheme will increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.
Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The Scheme will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.
Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.
Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.

TRANSACTION CHARGES

Pursuant to SEBI Circular No. Cir/ IMD/ DF/13/ 2011 dated August 22, 2011 transaction charge per subscription of Rs.10,000/- and above may be charged in the following manner:

- The existing investors may be charged Rs.100/- as transaction charge per subscription of Rs.10,000/- and above;
- A first time investor may be charged Rs.150/- as transaction charge per subscription of Rs.10,000/- and above.

There shall be no transaction charge on subscription below Rs. 10,000/- and on transactions other than purchases/ subscriptions relating to new inflows.

However, the option to charge "transaction charges" is at the discretion of the distributors. Investors may note that distributors can opt to receive transaction charges based on 'type of the Scheme'. Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.

Transaction charges shall also be deducted on purchases/subscriptions received through non-demat mode from the investors investing through a valid ARN holder i.e. AMFI Registered Distributor (provided the distributor has opted-in to receive the transaction charges) in respect of transactions routed through Stock Exchange(s) platform viz. NSE Mutual Fund Platform ("NMF-II") and BSE Mutual Fund Platform ("BSE STAR MF").

The aforesaid transaction charge shall be deducted by the Asset Management Company from the subscription amount and paid to the distributor, as the case may be and the balance amount shall be invested in the relevant scheme opted by the investor.

However, upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by such distributor.

Transaction Charges shall not be deducted if:

- Purchase/Subscription made directly with the fund through any mode (i.e. not through any distributor/agent).
- Purchase/ subscription made in demat mode through stock Exchange, irrespective of investment amount.

CAS/ Statement of account shall state the net investment (i.e. gross subscription less transaction charge) and the number of units allotted against the net investment.

CONSOLIDATED ACCOUNT STATEMENT (CAS):

- The Consolidated Account Statement (CAS) for each calendar month will be issued on or before tenth day of succeeding month to the investors who have provided valid Permanent Account Number (PAN). Further, CAS will be sent via email where any of the folios consolidated has an email id or to the email id of the first unit holder as per KYC records.
- For folios not included in the Consolidated Account Statement (CAS), the AMC shall henceforth issue account statement to the investors on a monthly basis, pursuant to any financial transaction in such folios on or before tenth day of succeeding month.

In case of a New Fund Offer Period (NFO), the AMC shall send confirmation specifying the number of units allotted to the applicant by way of a physical account statement or an email and/or SMS's to the investor's registered address and/or mobile number not later than five business days from the date of closure of the NFO.

- In case of a specific request received from the unit holder, the AMC shall provide the account statement to the investors within 5 business days from the receipt of such request.
- In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS.

Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before tenth day of succeeding month, unless a specific request is made to receive the same in physical form.

Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.

Further, CAS issued for the half-year (September/ March) shall also provide:

- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services Tax

(wherever applicable, as per existing rates), operating expenses, etc.

- The scheme's average Total Expense Ratio (in percentage terms) for the half-year period for each scheme's applicable plan, where the concerned investor has actually invested in.

Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

In case of the units are held in dematerialized (demat) form, the statement of holding of the beneficiary account holder will be sent by the respective Depository Participant periodically.

The AMC reserve the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).

CAS for investors having Demat account:

- Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account Statement (CAS) from the Depository.
- Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis.
- If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within ten days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis.
- In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository.

The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.

However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).
