Tracking Error	<p>“Tracking Error” means the extent to which the NAV of the fund moves in a manner inconsistent with the movements of the underlying Index on any given day or over any given period of time from any cause or reason whatsoever including but not limited to differences in the weightage of the investments in the securities and the weightage to such securities in the CNX NIFTY Index, time lags in deployment or realization of funds under the Scheme as compared to the movement of or within the said Index, expenditure incurred by the scheme, corporate actions such as debenture or warrant conversions, rights, mergers, etc, change in constituents of Index, rounding of quantity of shares underlying the index, dividend payouts, whole cash not invested at all times as it may keep a portion of funds in cash to meet redemption etc.</p> <p>UTI AMC will endeavour to keep the tracking error at 2% on an annualized basis in the scheme as against the returns of the underlying Index.</p>
Risk Profile of the Scheme	<p>Mutual Fund investments are subject to market risks. Please read the SID carefully for details on risk factors before investment. Past performance of the Sponsors / AMC / Mutual Fund does not guarantee future performance of the scheme. Safety net or guarantee provided – The Scheme does not provide any guarantee or assured return.</p> <p>Scheme Specific Risk Factors:</p> <p>UTI Nifty ETF will be a passively managed scheme by providing exposure to CNX NIFTY Index and tracking its performance and yield, before expenses, as closely as possible. The scheme performance may be affected by a general decline in the Indian markets relating to its underlying Index. The scheme invests in the underlying Index regardless of its investment merit.</p> <p>Although the units are proposed to be listed on the NSE/ any other Stock Exchange, the Trustee/AMC will not be liable for any delay in listing of units of the Scheme on the stock exchange(s)/ or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.</p> <p>The securities in which the Scheme invests may underperform the various general securities markets or different asset classes. Different type of securities tend to go through cycles of outperformance and under-performance in comparison to the general securities markets.</p> <p>The scheme may not fully replicate the performance of the CNX NIFTY due to temporary unavailability of certain Index Securities in the secondary market or due to other extraordinary circumstances.</p> <p>Performance of the CNX NIFTY Index will have a direct bearing on the performance of the Scheme. In the event the CNX NIFTY is dissolved or is withdrawn by IISL, the Trustee reserves the right to modify the Scheme so as to track a different and suitable index and the procedure stipulated in the Regulations shall be complied with.</p> <p>The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information.</p> <p>Redemption by the unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund their directors or their employees shall not be liable for any tax consequences that may arise.</p> <p>UTI-Nifty ETF would be investing in equities and money market instruments (such as CBLO or as defined by SEBI regulations, term/notice money market, repos, reverse repos and any alternative to the call money market as may be directed by the RBI). The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the Trustees have the right in their sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.</p> <p>The Mutual Fund is not assuring any dividend nor is it assuring that it will make any dividend distributions. All dividend distributions are subject to the availability of distributable surplus and would depend on the performance of the scheme.</p> <p>Portfolio concentration risk</p> <p>ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager's decisions.</p> <p>Risks pertaining to transaction in units through Stock Exchange</p> <ol style="list-style-type: none"> 1. Although the Scheme's Units will be listed on NSE / any other stock exchange, there can be no assurance that an active secondary market will develop or be maintained. Hence there would be times when trading in the Units of the Scheme would be infrequent/less liquid. 2. Trading in the Units of the Scheme on NSE / any other stock exchange may be halted because of market conditions or for reasons that in view of NSE or SEBI, trading in the Units of the Scheme is not advisable. In addition, trading of the Units of the Scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE / any other stock exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of NSE / any other stock exchange necessary to maintain the listing of the Units of the Scheme will continue to be met or will remain unchanged. 3. The Scheme may not be able to immediately sell certain types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists. 4. The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the holdings of the Scheme. The trading prices of the Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme. Any changes in the trading regulations by the Stock Exchanges(s) or SEBI or other applicable regulations may affect the ability of market participants to arbitrage resulting it to wider premium/discount to NAV. However, it is expected that large discounts or premiums to the NAV of Units of the Scheme may not sustain for long due to market participants' actions on arbitrage opportunity available under such circumstances. 5. Impact cost risk: The scheme may have to bear the impact cost arising from sale and purchase of underlying securities either when it accepts/gives cash or cash equivalents in lieu of one or more Index securities, cash component on issue and repurchase of units or while undertaking rebalancing of the scheme portfolio as a consequence of change in the composition or change in relative weightages of the securities underlying CNX Nifty Index. 6. Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the Securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. 7. Risk of Substantial Redemptions: In the event of receipt of inordinately large number of redemption requests or of a restructuring of the Scheme's portfolio, there may be delays in the redemption of units. Substantial Redemptions of Units within a limited period of time could require the Scheme to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the Units being Redeemed and that of the outstanding Units of the Scheme. The Trustee, in the general interest of the Unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be Redeemed on any Business Day depending on the total “Saleable Underlying Stock” available with the Fund. <p>Investments under the scheme may also be subject to the following risks:</p> <p>I. Investment in Equities:</p> <ol style="list-style-type: none"> a. Equities are volatile in nature and are subject to price fluctuations on daily basis. The volatility in the value of the equity instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme. b. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the scheme portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the scheme portfolio. c. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. d. As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for redemption of units may be significant in the event of an inordinately large number of redemption requests or a restructuring of the Scheme. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.

	<p>Market trading risks</p> <p>As the scheme proposes to invest not less than 95% of the net assets in securities comprising of CNX Nifty Index, any deletion of stocks from or addition to in CNX Nifty Index may require sudden and immediate liquidation or acquisition of such stocks at the prevailing market prices irrespective of whether valuation of stocks is attractive enough. This may not always be in the interest of unitholders.</p> <p>II Risk associated with investing in Money Market Instruments</p> <p>The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks), Treasury Bills (issued by RBI) and the CBLO (collateralized lending and borrowing facility).</p> <p>Money market instruments are subject to price volatility due to factors such as changes in interest rates general levels of market liquidity, market perception of credit worthiness of the issuer of such instruments and risks associated with settlement of transactions and reinvestment of intermediate cash flows. The NAV of a scheme's Units, to the extent that such Scheme is invested in money market instruments, will consequently be affected by the aforesaid factors.</p> <p>Government securities are largely traded on a Negotiated Order Matching system (NDS OM) apart from the OTC market. The settlement of trades both in the Gsec markets and the overnight repo and CBLO are guaranteed and done by a central counterparty, the Clearing corporation of India (CCIL). Money market deals involving CD's and CP's are traded and settled on an OTC basis. The clearing and settlement of corporate bond deals are now routed through a central counterparty established by the exchanges BSE (ICCL) and NSE (NSCCL) which settles deals on a DVP (Delivery versus payment) non guaranteed basis.</p>
