**RISK MITIGATION FACTORS / RISK CONTROL**

It is AMC's belief that the investment in ADRs/GDRs/overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme invests in ADRs/GDRs/overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee.

The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attributed to international investing.

Investments made, and investment income earned from the US will also be subject to US tax laws. They may also entail additional disclosure / reporting obligations under the US Foreign Account Tax Compliance Act (FATCA)

**RISK PROFILE OF THE SCHEME::** Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Scheme specific Risk: The scheme carries risk associated with investing in foreign equities, fixed income, and derivatives. Trading volumes and settlement periods may restrict liquidity in equity and debt investments. Investment in Debt is subject to price, credit, and interest rate risk. The scheme has risks associated with currency movements, taxation, market, ADR/GDR, reinvestment etc. The NAV of the Scheme may be affected, inter alia, by changes in currency, market conditions, interest rates, trading volumes, settlement periods and transfer procedures. The NAV may also be subjected to risk associated with investment in derivatives and foreign securities as may be permissible by the Scheme Information Document. Please refer to the Scheme Information Document for details.

**Scheme Specific Risk Factors****1. Currency movements:**

Since these investments will be made and held in a different currency (the US Dollar), their value will be dependent on currency movements of the USD vis-à-vis the INR, which in turn may be determined or influenced by a host of factors like inflow and outflow of foreign investments to and from India, the relative strength of the USD vis-a-vis other currencies, relative current and future interest rates, domestic economic and political developments and government actions both in the United States (US) and in India, and given that the USD is a currency used in international trade, by factors not relating directly to either country (like international prices of commodities like oil and gold, trade flows and conflicts in other regions), among other things. These currency movements may reduce or even wipe out gains made on the market in the US as investments would be denominated in USD whereas Net Asset Values would be denominated in INR and purchases and redemptions of units would also take place in INR. Generally, a strengthening of the INR vis-à-vis the USD (i.e. less INR per USD) would lead to reduction in NAV in INR terms, other things remaining the same.

To manage risks associated with the portfolio, foreign currency and interest rate exposure, the Fund may use / invest in derivatives for efficient portfolio management including hedging and in accordance with the conditions as may be stipulated by SEBI / RBI. The Fund also hereby avers that offshore investments shall be made subject to any / all approvals, as well as the conditions thereof as may be stipulated by SEBI / RBI and provided such investments do not result in expenses to the fund in excess of the ceiling, if any, on the expenses prescribed by SEBI. However, no assurance can be given that the hedging objectives will be achieved. The hedging strategy may also substantially limit Unit holders from benefiting if the currencies move in the opposite direction. Additionally, Unit holders may be exposed to fluctuations in the NAV caused by fluctuations in the mark-to-market value of derivative instruments, in the rare event where such instruments do not move in tandem to underlying USD-INR rates (known as 'basis' risk).

The Fund may, where necessary, appoint other intermediaries of repute such as advisors, sub-managers, sub-custodian etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fee, custody fees and costs, fees of appointed overseas advisors and sub-managers, transaction costs, and overseas regulatory costs.

**2. Risks related to Taxation**

Since these investments will be made in the US, they will be subject to taxation laws of the US and changes therein. Hence, the taxation rules that apply at the time of making the investment may change when investments are exited and the scheme may be subject to a higher level of taxes than originally anticipated. The continuance of assessments may also impact the AMC's ability to repatriate funds relating to the scheme from the US to India.

**POSSIBLE DIRECT TAX BENEFITS / IMPLICATIONS FOR A MUTUAL FUND (INVESTING MAINLY IN US EQUITY SHARES) AND UNIT HOLDERS****I. INCOME-TAX IMPLICATIONS FOR THE MUTUAL FUND****1. General US Taxation Rules with Respect to Foreign Persons**

In general, foreign persons can be subject to US taxation either on a gross basis or on a net basis. Foreign persons who are not engaged in a trade or business in the US are subject to US gross withholding tax on items of US source income which are fixed determinable annual or periodical (so-called FDAP income). A foreign person that is engaged in a US trade or business will be subject to US taxation on effectively connected taxable income (ECTI). In addition to the income tax imposed on ECTI, the US also imposes a secondary branch profits tax on foreign corporations on deemed remittances of after-tax effectively connected earnings and profits. A branch-level interest tax may also be imposed on interest allocable to effectively connected income. These taxes may be eligible for reduction or exemption under a U.S. income tax treaty. The discussion below is predicated on the understanding that the Scheme would be treated as a corporation for US tax

purposes. Thus, as long as the Scheme is treated as a corporation for US tax purposes, the investors in the Scheme should not directly be subject to US tax. For purposes of this discussion, a foreign person is a person who is not a US citizen or US resident for tax purposes and includes a foreign entity that is classified as a corporation for US tax purposes.

## **2. US Taxation on Disposition of Shares of US Companies**

Subject to the discussion below concerning the taxation of ECTI, generally income from the sale of personal property by a foreign person is not US source income and should not be subject to US taxation. Thus, capital gains received by the Scheme on the disposition of US listed and unlisted shares, ADR/ GDR units, interests in mutual funds and exchange traded funds (ETF), should not be subject to taxation in the US.

However, there is an exception for gains derived by a foreign person from the disposition of a US Real Property Interest (USRPI) under the Foreign Investment in Real Property Tax Act (FIRPTA). A USRPI includes an interest in a US Real Property Holding Company (USRPHC) which generally is defined as a US company whose assets, measured by fair market value, consist of 50% or more of USRPIs at any time during a five-year period. Such income is considered to be ECTI with the conduct of a U.S. trade of business and is subject to US taxation. A foreign person who disposes of a USRPI will be subject to a 10% withholding tax on the gross proceeds received and will be required to file a US federal income tax return. The final taxation generally will be 35% of the gain recognized with respect to the disposition of the USRPI, with the 10% withholding tax on gross proceeds functioning as a prepayment of the tax at the time of disposition. There is an exception that applies to FIRPTA for publicly traded shares of a corporation. The exception provides that if the stock of a corporation is regularly traded on an established securities market (e.g., the NYSE), the stock will be treated as a USRPI only in the case of a more than 5% holder (over the course of a 5 year look-back period). Such exception also applies to the disposition of an interest in a publicly traded partnership (PTP). Thus, capital gains derived by the Scheme from the sale of regularly traded listed US equities should not be subject to tax in the US provided the Scheme holds an interest of 5% or less of any class of stock. In cases where the Scheme has held, at any time within the 5-year period ending on the date of disposition, more than 5% of the shares of a publicly-traded company that is also a USRPHC, gain from disposition of such interest is subject to US federal corporate income tax generally at the rate of 35%.

Special rules apply for investment in Real Estate Investment Trust (REITs). In general, the rules discussed above for US taxation of dispositions of USRPIs apply to REITs, however, domestically controlled REITs generally are not subject to US tax under the FIRPTA rules. In addition, a REIT must withhold on distributions of USRPIs to foreign persons at the rate of 35%. Generally, any distribution from a REIT attributable to gain from the sale or exchange of a USRPI is treated as such gain by the foreign person receiving the distribution. Any distribution by a REIT on shares regularly traded on an established securities market in the United States is not treated as gain from the sale or exchange of a USRPI if the shareholder did not own more than 5% of that stock at any time during the REIT's tax year. These distributions are included in the shareholder's gross income as a dividend from the REIT, not as long-term capital gain.

## **3. US Gross Basis Taxation (i.e., FDAP Income)**

### **A. Dividend income**

US source non-effectively connected dividend income (including income distributed by US funds) received by a foreign person is subject to a 30% withholding tax. Thus US source dividends received by the Scheme from investments in US listed and non-listed equities and units of a mutual fund should be subject to withholding tax of 30%. Such dividend withholding tax can be reduced pursuant to a double tax treaty as discussed further below. US withholding tax should not apply with respect to distributions from Indian companies which issue ADRs/ GDRs in the US.

### **B. Interest income**

US source non-effectively connected interest income received by a foreign person is subject to a 30% withholding tax. There are certain exceptions under US internal law, for interest on bank deposits, and short-term obligations (with terms to maturity of 183 days or less). There are also exceptions for certain longer term debt under the portfolio interest exception which applies to interest income on certain registered obligations as long as the recipient is not a 10% or greater shareholder of the issuer. In addition, interest generated from US Treasury Securities should not be subject to US withholding tax. If income is characterized as interest, for instance income from a repurchase agreement with a term that exceeds 183 days, such income could be subject to a 30% withholding tax unless the repurchase agreement is with respect to qualifying registered portfolio interest indebtedness (e.g. U.S. Treasury securities). Certain contingent indebtedness does not qualify for the portfolio interest exception and is subject to 30% withholding tax on all U.S. source non-ECI contingent interest paid.

### **C. Income from Notional Principal Contracts**

In general, income generated from notional principal contracts is characterized as foreign source income to a nonresident owner and not subject to US withholding tax. Special rules apply to certain so-called dividend equivalent payments which may be subject to 30% US withholding tax.

## **4. US Net Basis Taxation (i.e., ECTI)**

If the Scheme is engaged in a US trade or business, it will be subject to US taxation on its ECTI generally at the rate of 35%. In addition, US branch profits tax of 30% will apply to any profits deemed to be distributed by the US trade or business to the Scheme. An analysis will need to be undertaken to determine the income that is considered to be effectively connected with the US trade or business. In general, US source non-FDAP ordinary income automatically will be effectively connected with a US trade or business under a so-called force of attraction rule. Capital gains are generally residence based sourced unless ECI to a U.S. trade or business under an asset use or business activities test. FDAP income is not automatically considered to be effectively connected with a US trade or business, but generally must be analyzed also under an asset use or business activity test to determine if it is effectively connected income. Foreign source FDAP income may also be ECI if attributable to a U.S. office or fixed place of business. The U.S. rules treat ECI FDAP income as wholly ECI and with limited exception applicable to securities dealers, do not apportion such income under transfer pricing principles among multiple locations where material functions may be performed.

In general, there is a trading safe harbor for foreign persons who are trading in shares, securities, commodities or derivatives for their own account, such that the foreign person should not be considered engaged in a US trade or business as long as that person is not considered a dealer or such proprietary trading is effected only through an independent agent. U.S. proposed regulations prohibit foreign dealers from safe-harbor trading in derivatives. In addition, certain investments and activities do not qualify for the trading safe harbor. If a foreign person invests in a partnership, US or foreign, that is engaged in a US trade or business, then the foreign person will be considered to be engaged in a US trade or business. Examples of partnership investments include US master limited partnerships and PTPs that are classified as partnerships for US tax purposes. Thus, if the Scheme invests in a partnership that is engaged in a US trade or business, the Scheme will be considered to be engaged in a US trade or business and will need to evaluate all of its income to determine the income that is ECTI. In general, gain on the disposition of a partnership interest is treated by the IRS as ECTI to the extent that the partnership has assets which generate ECTI.

## **5. Treaty Benefits to the Mutual Fund**

It is likely that the Scheme should be considered as a Person under Indian tax laws and so a tax resident of India and so is likely to be eligible to claim the Double Taxation Avoidance Agreement ('the DTAA' or 'the Treaty') benefits between India and the US on the income earned and tax, if any, payable in the US subject to completion of necessary documentations and the Scheme obtaining a tax residence certificate from the Indian tax authorities. As long as the Scheme is treated as a corporation for US tax purposes, the investors in the Scheme should not directly be subject to US tax. The main benefit of the DTAA is that it reduces the US withholding tax amount with respect to certain U.S. source FDAP payments and may exempt ECTI if it is not attributable to a U.S. permanent establishment. As per the Treaty:

- (i) The Business income earned by the Scheme in the US should not be taxable in the US if the Fund does not have a permanent establishment in the US; If the Scheme has a permanent establishment in the US, then it will be subject to US tax on profits that are attributable to that permanent establishment. The United States attributes business profits to U.S. permanent establishments of Indian resident corporations

under the same ECTI rules applicable to non-treaty residents with respect to the assets and activities conducted in the permanent establishment. A more limited force of attraction rule is also applicable.; The Scheme could be considered to have a permanent establishment in the US if it invests in a partnership that is engaged in a trade or business in the US;

- (ii) Capital gains arising on transfer of securities in the US should be taxable in the US as per the US tax laws; There is no exception in the DTAA for US taxation of disposition of USRPIs under the FIRPTA rules;
- (iii) In general, dividend income beneficially earned by the Scheme in the US should be taxable at the rate of 25% for portfolio ownership interests below 10%;
- (iv) Interest income beneficially earned by the Scheme in the US should be taxable at the rate of 15% (to the extent not otherwise exempt under US internal rules such as the portfolio interest exception discussed above); and
- (v) Any other income should be taxable in the US as per US tax laws.

#### **6. FATCA Tax**

The Foreign Account Tax Compliance Act (FATCA) is a new chapter included in Chapter 4 of the Code. It refers to provisions included in the Hiring Incentives to Restore Employment Act signed into law on March 18, 2010.

Under FATCA, Foreign Financial Institutions (FFIs) like Reliance Capital Asset Management have to register with the US Internal Revenue Service (IRS) and would have certain reporting obligations with relation to US Reportable Accounts which would be made either directly or through their respective government agency, as per the terms of the Inter Governmental Agreement (IGA) signed between that government and the United States. Non-compliance may lead to a withholding tax imposed at the rate of 30% on all US sourced income (i.e., dividends, interest and the gross proceeds from the sale of shares of US equities).

At the time of issue of this document, the Government of India has stated its intent to sign the IGA (but it has not signed it as yet), as stated in the website of the US Department of Treasury. Detailed guidelines are also awaited on identification and reporting rules in relation to US Reportable Accounts from the Central Board of Direct Taxes (Government of India).

## **II. INCOME-TAX IMPLICATIONS FOR THE UNIT HOLDERS**

### **US Internal Revenue Code**

As long as the Scheme is treated as a corporation for US tax purposes, the unit holders in the Scheme should not be liable to income-tax in the US on the income earned by the Fund in the US.

### **Risks associated with investment in ADR/GDR**

Investments in ADRs/GDRs/overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. They may not reflect the market / intrinsic value of their underlying shares and may become illiquid because of restrictions on conversion to the underlying shares (fungibility).

### **Regulatory Restriction:**

The ceiling for investment in overseas ETFs that invest in securities is US\$ 50 million per mutual fund. The investments shall be made in line with the said limits or any modified limits as specified by SEBI from time to time. If these limits are exhausted, then further subscriptions will not be accepted into this Scheme.

However, basis the permission received from SEBI, RMF's limit to invest in foreign securities is US\$600 mn and the ceiling for investments in overseas ETF is US\$ 100 mn. The said limit is subject to modifications from time to time.

- (25) **Prevention of Money Laundering and Know Your Client (KYC)**  
In order to reduce hardship and help investors dealing with SEBI intermediaries, SEBI issued three circulars - MIRS/SE/Cir-21/2011 dated October 05, 2011, MIRS/SE/Cir-23/2011 dated December 02, 2011 and MIRS/SE/Cir-26/2011 dated December 23, 2011 informing SEBI registered intermediaries as mentioned therein to follow, with effect from January 01, 2012, a uniform KYC compliance procedure for all the investors dealing with them on or after that date. SEBI also issued KYC Registration Agency ("KRA") Regulations 2011 and the guidelines in pursuance of the said Regulations and for In-Person Verification ("IPV").  
All investors (individual and non- individual) are required for KYC compliance. However, applications should note that minors cannot apply for KYC compliance and any investment in the name of minors should be through a Guardian, who should be KYC compliant for the purpose of investing with a Mutual Fund. Also applicants/ unit holders intending, to apply for units currently holding units and operating their Mutual Fund folios through a Power of Attorney (PoA) must ensure that the issue of PoA and the holder of the PoA must mention their KYC compliance status at the time of investment. PoA holders are not permitted to apply for KYC compliance on behalf of the issuer of the PoA. Separate procedures are prescribed for change in name, address, and other KYC related details, should the applicant desire to change such information. POS will extend the services of effecting such changes.  
In line with the SEBI circular No. MIRS/SE/Cir-5/2012 dated April 13, 2012 and various other guidelines issued by SEBI on the procedural matters for KYC Compliances, the Investors are requested to note the following additional provisions shall be applicable for "KYC Compliances" with effect from December 1, 2012:
  - 1) In case of an existing investor of RMF and who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVLMF) then there will be no effect on subsequent Purchase/Additional Purchase (or ongoing SIPs/STPs etc) in the existing folios/accounts which are KYC compliant. Existing Folio holder can also open a new folio with Reliance Mutual Fund with the erstwhile centralized KYC
  - 2) In case of an existing investor of Reliance Mutual Fund and who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available in the website [www.cvkra.com](http://www.cvkra.com) along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase / new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission. This uniform KYC submission would be a one-time submission of documentation.
  - 3) Investors who have complied with KYC process before December 31, 2011 (KYC status with CVL-KRA as "MF - VERIFIED BY CVLMF") and not invested in the schemes of Reliance Mutual Fund i.e. not opened a folio earlier, and wishes to invest on or after December 01, 2012, such investors will be required to submit "missing/not available" KYC information and complete the IPV requirements.  
Update of "missing / not available" KYC information along with IPV is currently a one-time requirement and needs to be completed with any one of the mutual funds i.e. need not be done with all the mutual funds where investors have existing investments. Once the same is done then the KYC status at CVL-KRA will be changed to "Verified by CVL KRA" after due verification. In such a scenario, where the KYC status changes to "Verified by CVL KRA", investors need not submit the "missing/not available" KYC information to mutual funds again.  
Individual Investors are required to submit 'KYC Details Change Form' issued by CVL-KRA available on their website [www.cvkra.com](http://www.cvkra.com).  
In case of Non Individual investors, complied with KYC process before December 31, 2011, KYC needs to be done afresh due to significant and major changes in KYC requirements.  
Investors to provide the complete details in the KYC application form along with the required documents (for individual investors or non-individual investors as appropriate). In order to reduce hardship and help investors dealing with SEBI intermediaries, SEBI issued three circulars – MIRSD/SE/Cir-21/2011 dated October 05, 2011, MIRSD/Cir-23/2011 dated December 02, 2011 and MIRSD/Cir-26/2011 dated December 23, 2011 informing SEBI registered intermediaries as mentioned therein to follow, with effect from January 01, 2012, a uniform KYC compliance procedure for all the investors dealing with them on or after that date. SEBI also issued KYC Registration Agency ( "KRA") Regulations 2011 and the guidelines in pursuance of the said Regulations and for In-Person Verification ("IPV").  
All investors (individual and non-individual) are required for KYC compliance. However, applications should note that minors cannot apply for KYC compliance and any investment in the name of minors should be through a Guardian, who should be KYC compliant for the purpose of investing with a Mutual Fund. Also applicants/ unit holders intending, to apply for units currently holding units and operating their Mutual Fund folios through a Power of Attorney (PoA) must ensure that the issue of PoA and the holder of the PoA must mention their KYC compliance status at the time of investment. PoA holders are not permitted to apply for KYC compliance on behalf of the issuer of the PoA. Separate procedures are prescribed for change in name, address, and other KYC related details, should the applicant desire to change such information, POS will extend the services of effecting such changes.  
In line with the SEBI circular No. MIRSD/Cir-5/2012 dated April 13, 2012 and various other guidelines issued by SEBI on the procedural matters for KYC Compliances, the Investors are requested to note the following additional provisions shall be applicable for "KYC Compliances" with effect from December 1, 2012:
  - 1) In case of an existing investor of RMF and who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVLMF) then there will be no effect on subsequent Purchase/Additional Purchase (or ongoing SIPs/STPs,etc) in the existing folios/accounts which are KYC compliant. Existing Folio holder can also open a new folio with Reliance Mutual Fund with the erstwhile centralized KYC
  - 2) In case of an existing investor of Reliance Mutual Fund and who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available in the website [www.cvlkra.com](http://www.cvlkra.com) along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase / new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission. This uniform KYC submission would be a one-time submission of documentation.
  - 3) Investors who have complied with KYC process before December 31, 2011 (KYC status with CVL-KRA as "MF – VERIFIED BY CVLMF") and not invested in the schemes of Reliance Mutual Fund i.e not opened a folio earlier, and wishes to invest on or after December 01, 2012, such investors will be required to submit 'missing/not available' KYC information and complete the IPV requirements.Updation of 'missing / not available' KYC information along with IPV is currently a one-time requirement and needs to be completed with any one of the mutual funds i.e. need not be done with all the mutual funds where investors have existing investments. Once the same is done then the KYC status at CVL-KRA will change to 'Verified by CVL KRA' after due verification. In such a scenario, where the KYC status changes to 'Verified by CVL KRA', investors need not submit the 'missing/not available' KYC information to mutual funds again.  
Individual Investors are required to submit 'KYC Details Change Form' issued by CVL-KRA available on their website [www.cvlkra.com](http://www.cvlkra.com).
