of the scheme.

In the last six months of this Scheme's tenure, the exposure to non micro-cap stocks may go up to 100 per cent in order to facilitate smooth completion of maturity

Investment Strategy

The focus of this Scheme is to provide investors a reasonably diversified portfolio of micro-cap stocks. As there is no fixed thumb rule as to what constitutes a micro-cap stock, the fund is fixing the universe using the threshold of stocks with a market cap equal to or lower than that of the 301st stock by market cap on the NSE. These stocks are generally more volatile than the large-cap or mid-cap stock and as such potentially can offer higher returns, too.

The Investment Manager, may, in consultation with the Trustee, at its discretion, redefine the micro-cap category if required by changes in the market-cap profile. Stocks in the portfolio will be verified against this criterion on the last working day of every calendar quarter. If the stock fails to fulfil the criterion, the fund manager will take steps to liquidate the holdings in a phased manner or if the stock needs to held, take permission from the Internal Investment Committee.

Several of the mid- and large-cap stocks had started as micro-caps and rewarded the shareholders for the higher risk taken by them in taking exposure to such stocks. This does not, however, indicate the future performance of the Scheme. If the stocks are more volatile, downside risk is also higher. Lower liquidity is also a factor.

The Investment Manager shall pursue a strategy where it tries to capture emerging stocks through its study of industry and management. Towards this end, it will follow a bottom-up approach in constructing the portfolio and managing it on an ongoing basis.

Emphasis will be on investing in companies with quality management, unique business strengths, sustainable long-term growth prospects and reasonable valuations.

The Investment Manager has a research set up that works to identify opportunities through continuous research on sectors and companies. Analysis focuses on the past performance and future prospects of the company and business prospects, financial health, competitive edge, managerial quality and practices, minority shareholder interests and transparency. Companies that adequately satisfy the prescribed criteria may be included in the portfolio.

In selecting particular companies for investment, emphasis will be laid on the growth potential for the company as well as the sector to which the company belongs. Value investing will also be done, if the equity markets and industrial activity necessitate such a decision as long as stocks in this category do not appear to be a value trap.

Investment in micro-cap stocks may call for longer holding periods and may also offer varying levels of liquidity in different market conditions. The fund will also pursue opportunities in public offerings popularly termed as IPOs.

The fund manager may invest across sectors, take cash calls, change allocation between the equity and fixed-income asset classes in a dynamic manner within the permitted limits and use derivatives for trading, hedging and portfolio balancing. In talking such decisions, the Investment Manager will keep in mind the Investment Objective of the Scheme and the applicable Regulations.

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Statement of Additional Information and Scheme Information Document carefully for details on risk factors before investment.

Risk Mitigation

The risk of concentration in the portfolio shall be mitigated by having internal fund management guidelines that provide for single-stock – subject to the SEBI prescribed limit of 10% - and sector exposure limits. The adherence shall be monitored by the Risk Management team that reports to the Managing Director of Sundaram Asset Management. Deviation if any, from the limit will have to approved by the Managing Director subject to rustication by the fund manager and will also, if required, be brought to the notice of the Risk Management Committee at the board level.

An independent risk management team is in place to oversee and monitor portfolio risk on a day-to-day basis. Internal risk control guidelines are in place and the portfolio contours are tracked on a daily basis to ensure adherence. Any deviation is brought to the notice of the Managing Director and the fund manager for corrective action. Follow up actions are made to ensure that the deviation is corrected within the time period prescribed in internal risk control guidelines. Adherence to limits from SEBI Regulations as well as stipulations in the Scheme Information Document is monitored by the compliance team.

Committee monitoring Risk Management: The Board of Sundaram Asset Management has constituted a Committee comprising Managing Director & Two Independent Directors to monitor risk management. The Heads of Equity and Fixed Income, the Risk Analyst and the CEO will be the permanent invitees to the Committee. The Committee of Committee will review the risk guidelines with respect to equity and fixed income funds, check deviations from set limits of investments, set/modify the limits of counter party exposure, review exceptions and overrides and suggest improvements to the framework/formats.

Role of the Committee: Committee will approve the:

- Guidelines in the Universe of securities
- Global Issuer limits (including limit per maturity)
- Counterparty limits
- Revised existing issuer and counterparty limits
- Limits applicable to each fund such as Credit Diversification ratio, Duration Limit, WAM Limit, Maximum Maturity Limit, Liquidity Risk Limits, Valuation Risk Limits, Risk Grade Limits etc.

Risk Guidelines: Sundaram Asset Management has internal investment norms and risk guidelines for equity and debt investments. Also fund specific guidelines are in place.

Risk Control: Risk control is customized by product according to the level of risk the fund can expose investors to, as specified in the investment mandate.

General Risk Factors

Mutual Fund Investments are subject to market risks. Please read the Scheme Information Document carefully before investing. Copy of the Scheme Information Document, key information memorandum and application form may be obtained from the offices / investor service centres of Sundaram Asset Management, its distributors and online at www.sundarammutual.com. All mutual funds and securities investments are subject to market risks, and there can be no assurance or guarantee that fund's objectives will be achieved. NAV may go up or down, depending on the factors and forces affecting the securities market. Main types are market risk, liquidity risk, credit risk and systemic risks. At times, liquidity of investments may be impaired. There is uncertainty of dividend distribution and risk of capital loss. Past performance of the Sponsor/Asset Management Company/Fund does not indicate the future performance. Investors in the Scheme are not being offered any guaranteed or indicated returns. Sundaram Select Micro Cap-Series VIII is only the name of the scheme and it does not in any manner indicate either quality of the scheme, its future prospects or returns.

Risk Factors - Equity Markets: Stock Market Volatility, Equity Price Risk, Dependency Risk, Temporary Investment Risk and Non-Diversification Risk and Concentration Risk, to name a few.

Risks from Derivative Exposures: Counter Party Risk, Market risk, Illiquidity risk and Basis Risk, to name a few.

Risks from Debt Exposures: Credit Risk, Interest Rate Risk, Price Risk, Market Risk, Liquidity Risk, Investment Pattern Risk, Duration Risk and Non-Diversification Risk, to name a few.

Scheme-Specific Risk Factors

. Micro-cap stocks are generally illiquid in terms of trading volumes; investors should assume that illiquidity risks are higher in this Scheme than in a normally diversified fund. • This may result in higher impact costs. Impact costs are those costs that are incurred for acquiring and disposing off stocks. These are different from brokerage and custodian charges. The Scheme does not guarantee that impact cost will be minimized or eliminated. • The Scheme may invest up to 10 per cent of net assets in unlisted equity and equity-related instruments, which could affect the liquidity of the Scheme. • While micro cap companies may offer substantial opportunities for capital appreciation, they also at least commensurate risks. Historically, these companies have been more volatile in price than larger company securities, especially over the short term. Among the reasons for the greater price volatility are the less certain growth prospects of smaller companies, the lower degree of liquidity in the markets for such securities, lack of transparency and the greater sensitivity of smaller companies to changing economic conditions. • In addition, micro-cap companies may lack depth of management, be unable to generate funds necessary for growth or development, or be developing or marketing new products or services for which markets are not vet established and may never become established. They could also suffer from disadvantages such as outdated technology, lack of bargaining power with suppliers, low entry barriers and inadequate management depth. Transparency/liquidity levels may not be on par with established, large companies. Corporate governance may be an issue with some companies. They may not be resilient enough to withstand shocks of business/economic cycles. • There are also risks specific to closed-end schemes and listed securities. • The Units will not be redeemed prior to maturity and liquidity will be only by selling the units in demat form on the National Stock Exchange. Trading on the Stock Exchanges in which the Units of the Scheme are listed may be closed/ suspended by the Stock Exchange authorities under special circumstances (due to market volatility/circuit filter rules/breakdown of communication/network systems/SEBI Directive, to name a few). • Though the Units will be listed, there can be no assurance that there will be an active secondary market in the Units of the Scheme. • The Scheme may use derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations. Usage of derivatives will expose the scheme to certain risks inherent to such derivatives. Change in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors.

Applications Supported by Blocked Amount

1. Applications Supported by Blocked Amount or ASBA facility: An application containing an authorization given by the Investor to block the application money in his/her specified bank account towards the subscription of Units offered during the NFO(New Fund Offer) of a Scheme. If an investor is applying through ASBA facility, the application money towards the subscription of Units shall be debited from his specified bank account only if his/her application is selected for allotment of Units.

It is an additional payment option that the investor can use in addition to the existing modes (Cheque/Demand Draft etc) for buying Units during NFO. It is available only to individuals .It is not available for subscribing to Units on an ongoing basis after the NFO. For availing this option the bank, where the investor has an account, should be a Self Certified Syndicate Bank (SCSB)

- 2. "Controlling Branches (CBs) of the Self Certified Syndicate Banks (SCSB): Controlling Branches (CBs) are the branches of the SCSBs acting as coordinating branches for the Registrar and Transfer Agent of Sundaram Mutual Fund schemes, the AMC and the Stock Exchange(s) for the ASBA facility offered during the NFO period.
- 3. "Designated Branches (DBs) of the SCSBs: Designated Branches (DBs) are the branches of the SCSBs which shall collect the ASBA Application Forms duly filled by the Investors towards the subscription to the Units of the Scheme offered during the NFO. The list of these Designated Branches is available at http://www.sebi.gov.in/pmd/scsb.pdf and www.sundarammutual.com
- 4. "Self Certified Syndicate Bank" or SCSB: Self Certified Syndicate Bank/ SCSB means a bank registered with SEBI to offer the facility of applying through the ASBA process. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs as displayed by SEBI on its website at www.sebi.gov.in.
- 5. The ASBA facility during NFO: In respect of New Fund Offer (NFO) of Schemes/Plan(s) launched on or after October 1, 2010, an investor (being an Individual)can subscribe to the NFO through Applications Supported by Blocked Amount (ASBA) facility by applying for the Units offered in the ASBA Application Form and following the procedure as prescribed in the form. For details please refer to the Section" Applications Supported by Blocked Amount (ASBA) facility, below and also the Application Form/KIM of the Scheme

Applications Supported by Blocked Amount (ASBA) facility: Pursuant to SEBI Circular dated SEBI/IMD/CIR No 18 /198647 /2010 March 15, 2010, an investor can subscribe to the New Fund Offer (NFO) launched on or after October 1,2010 through ASBA facility by applying for the Units in the ASBA Application Form and following the procedure as prescribed in the form.

ASBA is an application containing an authorization given to the Bank by the Investor to block the application money in his/her specified bank account towards the subscription of Units offered during the NFO of the Scheme of Sundaram Mutual Fund. Thus, for an investor who applies through ASBA facility, the application money towards the subscription of Units shall be debited from his specified bank account only if his/her application is selected for allotment of Units. The blocked amount cannot be withdrawn and will earn interest as per account terms applicable. It may be noted that since ASBA Facility is pursuant to an arrangement between the Investor and his /her Bank, Sundaram Mutual Fund. or t its Trustee/AMC/ its Employees/Directors will not be responsible for any delay, error or omission/commission, or deficiency if any, on the part of the Investor's Bank.

Benefits of Applying through ASBA facility

- (i) Writing cheques / demand drafts and sending them for collection etc are not required, as investor needs to submit ASBA application Form accompanying an authorization to block the account to the extent of application money towards subscription of Units. The balance money, if any, in the account can be used for other purposes by the investors.
- (ii) Release/Unblocking of blocked funds after allotments done instantaneously.
- (iii) Unlike other modes of payment, ASBA facility prevents the loss of interest income on the application money towards subscription of Units as it remains in the bank account of the investor till the allotment is made.
- (iv) Refunds of money to the investors do not arise as the application money towards subscription of Units gets transferred only to the extent of amount payable for the actual allotment
- (v) The investor deals with the known intermediary i.e.his/her own bank.
- (vi) The application form is simpler as the application form for ASBA will be different from the NFO application form.

ASBA Procedure:

(a) An Investor intending to subscribe to the Units of the NFO through ASBA, shall submit a

- duly completed ASBA Application Form to a Self Certified Syndicate Bank (SCSB), with whom he/she has a Bank Account.
- (b) The ASBA Application Form towards the subscription of Units can be submitted through one of the following modes.
 - Submit the form physically with the Designated Branches (DBs) of the SCSB ("Physical ASBA"); or
 - Submit the form electronically through the internet banking facility offered by the SCSB ("Electronic ASBA").
- (c) An acknowledgement will be given by the SCSB in the form of the counter foil or specifying the application number for reference. (Note: Such acknowledgement does not guarantee, in any manner that the investors will be allotted the Units applied for.: Further, if the bank account specified in the ASBA Application Form does not have sufficient credit balance to meet the application money towards the subscription of Units, the Bank shall reject the ASBA Application form.)
