#### **Tracking Error/Tracking Difference**

Tracking error/ difference means the extent to which the NAV of the fund moves in a manner inconsistent with the movements of the benchmark index on any given day or over any given period of time due to any cause or reason whatsoever including but not limited to expenditure incurred by the scheme, if any, whole cash not invested at all times as it may keep a portion of funds in cash to meet

Tracking error/ difference could be the result of a variety of factors including but not limited to:

- Delay in the purchase or sale of securities within the benchmark due to
  - Illiquidity in the securities, circuit filters on the stocks
- ii. Delay in realisation of sale proceeds, b. The scheme may buy or sell the securities comprising the index at different points of time during the trading session at the then prevailing prices which may not correspond to its closing prices.
- Index providers may either exclude or include new scrips in their periodic review of the stocks that constitute the underlying index. In such situations the scheme will endeavour to rebalance the portfolio in line with the index. But may not able to mirror the index immediately due the available investment/reinvestment opportunity.
- The potential for trades to fail, which may result in the Scheme not having acquired the securities at a price necessary to track the benchmark price.
- The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, etc.
- Execution of large buy / sell orders
- Transaction cost and recurring expenses
- Delay in Realisation of Unit holders' funds
- Levy of margins by exchanges

AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, such tracking errors based on past one year rolling over data are not expected to exceed 2% per annum. However, this may vary due to the reasons mentioned above or any other reasons that may arise and particularly when 2% per animum. However, this may vary due to the reasons mentioned above or any other reasons that may arise and particular level of the markets are very volatile. However, there can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying benchmark. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. Tracking difference is the difference of return between the scheme and benchmark annualized over 1 year, 3 year, 5 years, 10 years and since inception period.

#### Portfolio Rebalancing:

Pursuant to SEBI circular no. SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/39 dated May 23, 2022 and circulars issued thereunder, in case of change in constituents of the index due to periodic review, the portfolio of the scheme will be rebalanced within 7 calendar days.

#### Short term defensive consideration:

Subject to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021 and circulars issued thereunder, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

#### **Investment Strategy**

To achieve the investment objective, the scheme will follow passive investment strategy with investments in stocks in the same proportion as in Nifty200 Momentum 30 Index. The investment strategy would revolve around reducing the tracking error to the least possible through rebalancing of the portfolio, taking into account the change in weights of stocks in the index as well as the incremental collections/redemptions from the Scheme.

Index Scheme being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions.

A small portion of the net assets will be held as cash or will be invested in debt and money market instruments (as mentioned under asset allocation section) permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme

The Scheme may take an exposure to equity derivatives of constituents or index derivatives of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted by SEBI from time to time

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

#### Portfolio Turnover:

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being a passively managed open-ended index scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in the Index. The Scheme has no specific target relating to portfolio turnover.

Portfolio Turnover Ratio: Not Applicable (Since the scheme is a new fund to be launched, the said ratio is Not Applicable)

#### **Scheme Specific Risk Factors**

Tracking errors are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the Nifty200 Momentum 30 Index or one or more securities covered by / included in the Nifty 200 Momentum 30 Index and may arise from a variety of factors. Delayed realisations, circuit filter on securities, cash for redemptions can result into tracking error, including transactions costs of investments etc.

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV trading price, yield,

- total return and/or its ability to meet its objectives.

  1) The NAV of the units is closely related to the value of stocks that form a part of the benchmark index. The value of this will react to stock market movements and may result in changes in the NAV of units under the scheme. There could also be movements in the scheme's NAV due to changes in interest rates, macro-economic and political developments and over longer periods during market downturns; Tracking error may have an impact on the performance of the scheme. However, KMAMC will endeavour to keep the tracking error as low

Investors are requested to consult their tax / legal consultants before investing in the scheme. The scheme will attract provisions of take over regulations, if KMMF invests in more than 10% of the paid up capital of a company and therefore may result into tracking errors and / or may not be able to accept further subscription in the Scheme. The Index reflects the prices of securities at a point in time, which is the price at close of business day on the stock exchange. The Scheme, however, may at times trade these securities at different points in time during the trading session and therefore the prices at which the Plan trade may not be identical to the closing price of each scrip on that day on the BSE / NSE. For detailed Risk Factors, please refer the Scheme Information Document of the Scheme.

#### **Risk Control/ Mitigation** measures:

Risk mitigation measures for portfolio volatility and portfolio concentration:
Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme

**Risk mitigation measures for managing liquidity:**As per data from NSE more than half of market liquidity remains in the index. Therefore, the scheme does not envisage liquidity issues. The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely

| Debt and Money Market instruments              | Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.   |
|  | Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.   |

All derivatives trade will be done only on the exchange with guaranteed settlement. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent. |
|   | Segregated Portfolio  | In such an eventuality it will be AMC's endeavor to realise the segregated holding in the best interest of the investor at the earliest.  |
|   | Tracking Errors   | Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.  |

The IDCW Option will be available under two sub-options – the Payout Option and the Reinvestment Option

Payout of IDCW Option: Unitholders will have the option to receive payout of their IDCW by way of IDCW payments or any other means which can be enchased or by way of direct credit into their account.

Reinvestment of IDCW Option: Under the reinvestment option, IDCW amounts will be reinvested in the Reinvestment of IDCW Option at the Applicable NAV announced immediately following the record date.

The Trustees reserve the right to introduce new options and/or alter the payout of IDCW intervals, frequency, including the day of payout.

When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investor's capital (Equalization Reserve), which is part of sale price that represents realized gains.

# **ASBA FORM**

#### APPLICATION SUPPORTED BY BLOCKED AMOUNT

#### IMPORTANT INFORMATION INSTRUCTIONS FOR ASBA MUTUAL FUND INVESTORS

Background: In its continuing endeavour to make the existing public issue process more efficient SEBI introduced a supplementary process of applying in public issues, viz: the "Applications Supported by Blocked Amount (ASBA)" process. Accordingly, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended have been amended for ASBA process. The salient features of circular no. SEBI/CFD/DIL/ASBA/1/2009/30/12 dated December 30, 2009 available on SEBI website for "Additional mode of payment through Applications Supported by Blocked Amount (hereinafter referred to as "ASBA") are mentioned below for understanding the ASBA process:

- 1. Meaning of ASBA: ASBA is an application for subscribing to a New Fund Offer (NFO), containing an authorisation to block the application money in a bank account.
- 2. Self Certified Syndicate Bank (SCSB): SCSB is a banker to an issue registered with the SEBI which offers the facility of applying through the ASBA process. The list of SCSBs will be displayed by SEBI on its website at www.sebi.gov.in from time to time. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs displayed on SEBI"s website. As on April 15, 2010, 27 Banks have been recognised as SCSBs. Investors maintaining their accounts in of any of these Banks may approach one of the designated branches of these SCSBs for availing this facility. Further it may be noted that from time to time new banks register themselves as SCSBs who become eligible to provide these services and also the existing SCSBs designate additional branches that also provide this facility. An updated list of all the registered SCSBs, their controlling branches, contact details and details of their contact persons, a list of their designated branches which are providing such services is available on the website of SEBI at the address http://www.sebi.gov.in. Further these details are also available on the websites of the Stock Exchanges at http://www.bseindia.com and http://www.nseindia.com. Alternatively, investors may also contact the AMC, R&TA for information about the SCSBs or the ASBA process. These SCSBs are deemed to have entered into an agreement with the Issuer and shall be required to offer the ASBA facility to all its account holders for all issues to which ASBA process is applicable. A SCSB shall identify its Designated Branches (DBs) at which an ASBA bidder shall submit ASBA and shall also identify the Controlling Branch (CB), which shall act as a coordinating branch for the Registrar to the Issue, Stock Exchanges and Merchant Bankers. The SCSB, its DBs and CB shall continue to act as such, for all issues to which ASBA process is applicable. The SCSB may identify new DBs for the purpose of ASBA process and intimate details of the same to SEBI, after which SEBI will add the DB to the list of SCSBs maintain
- **3. Eligibility of Investors:** An Investor shall be eligible to apply through ASBA process, if he/she: (i) is a "Resident Retail Individual Investor, Non-Individual Investor, QIBs, Eligible NRIs applying on non-repatriation basis, Eligible NRIs applying on repatriation basis i.e. any investor, (ii) is applying through blocking of funds in a bank account with the SCSB; Such investors are hereinafter referred as "ASBA Investors".
- 4. ASBA Facility in Brief: Investor shall submit his Bid through an ASBA cum Application Form, either in physical or electronic mode, to the SCSB with whom the bank account of the ASBA Investor or bank account utilised by the ASBA Investor ("ASBA Account") is maintained. The SCSB shall block an amount equal to the NFO application Amount in the bank account specified in the ASBA cum Application Form, physical or electronic, on the basis of an authorisation to this effect given by the account holder at the time of submitting the Application. The Bid Amount shall remain blocked in the aforesaid ASBA Account until the Allotment in the New fund Offer and consequent transfer of the Application Amount against the allocated Units to the Issuer's account designated for this purpose, or until withdrawal/failure of the Offer or until withdrawal/rejection of the ASBA Application, as the case may be. The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchanges. Once the Allotment is finalised, the R&TA to the NFO shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable to the successful ASBA Bidders within one day from the day of receipt of such notification.
- **5. Obligations of the AMC:** AMC shall ensure that adequate arrangements are made by the R&TA for the NFO to obtain information about all ASBAs and to treat these applications similar to non-ASBA applications while allotment of Units, as per the procedure specified in the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009.
