HIGHLIGHTS / SUMMARY OF THE SCHEME

Investment objective	The objective of the Scheme is to generate income by investing in fixed income securities maturing on or before the date of the maturity of the Scheme and to generate capital appreciation by investing in equity and equity related instruments. However, there can be no assurance that the investment objective of the Scheme will be realized.
Tenure of the Scheme	<p>51 months from the date of allotment of the Scheme (including the date of allotment). If the maturity date falls on a non business day, the maturity date shall be the next business day.</p> <p>The Scheme will be fully wound up at the end of the tenure of the Scheme.</p> <p>Units of the Scheme will be redeemed only on the Maturity Date (or immediately succeeding Business Day if that day is not a Business Day.)</p>
Liquidity	No redemption/ repurchase of units shall be allowed prior to the maturity of the Scheme. However, Unit holders who wish to exit from the Scheme before maturity may do so through the Stock Exchange route, since the Scheme will be listed on a Stock Exchange. The Scheme shall be listed on the National Stock Exchange of India Limited (NSE). Unit holders, who wish to trade in Units of the Scheme before maturity, may do so through the stock exchange route at the listed price, which will be available on the NSE. Only the Units held in dematerialized form can be traded on the NSE.
Benchmark	CRISIL MIP Blended Fund Index
Transparency / NAV Disclosure	<p>The AMC will calculate and disclose the first NAV not later than 5 business days from the date of allotment. Subsequently, the NAV will be calculated and disclosed at the close of every Business Day which shall be published in at least two daily newspapers having nationwide circulation and also uploaded on the AMFI site www.amfiindia.com and DHFL Pramerica Mutual Fund site i.e. www.dhflpramericamf.com. If the NAVs are not available before commencement of business hours on the following business day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.</p> <p>The AMC shall disclose details of the portfolio of the Scheme on a monthly basis on its website on or before the tenth day of the succeeding month in the prescribed format. Further, as prescribed under the SEBI (Mutual Funds) Regulations, a complete statement of the Scheme portfolio would be published by the Mutual Fund as an advertisement in one English daily Newspaper circulating in the whole of India and in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated within one month from the close of each half year (i.e. March 31 & September 30) or mailed to the Unit holders.</p>

<p>Loads</p>	<p>Entry Load: Not Applicable (Note:- The upfront commission on investment made by the investor, if any, shall be paid to the distributor (AMFI registered distributor/ARN Holder) directly by the investor, based on the investor's assessment of various factors including service rendered by the distributor.)</p> <p>Exit Load:- Nil</p> <p>Being a closed ended scheme, Units under the Scheme cannot be redeemed directly with the Fund until the Maturity Date. The Units of Scheme will be listed on the Stock Exchange(s). Investors shall note that the brokerage on sales of the units of the Scheme on the stock exchanges shall be borne by the investors.</p>

I. INTRODUCTION

A. RISK FACTORS

i. STANDARD RISK FACTORS:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal;
- As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down;
- Past performance of the Sponsors/AMC/Mutual Fund does not guarantee future performance of the Scheme;
- The name of the Scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns;
- Save as otherwise provided in the Regulations, the Sponsors is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.100,000/- made by it towards setting up the Fund;
- The present Scheme is not guaranteed or assured return schemes.

ii. SCHEME SPECIFIC RISK FACTORS

Some of the Scheme specific risk factors include, but not limited, to the following:-

1. Risks associated with investments in Equities

- Equity and equity related securities may be volatile and hence are prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law / policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the Schemes having equity exposure unless they can afford to take the risk of losing their investment.
- **Liquidity Risk on account of unlisted securities:** Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to investors, including put options. The AMC may choose to invest in unlisted securities within the regulatory limit. The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected negatively if they have to be sold prior to their target date of divestment. The value of unlisted security may go down before the divestment date and selling these securities before the divestment date may lead to losses in the portfolio.

2. Risk associated with investing in Fixed Income Securities

- **Interest Rate Risk:** Market value of fixed income securities is generally inversely related to interest rate movement. Accordingly, value of portfolio of the scheme may fall if the market interest rate rise and may appreciate when the market interest rate comes down.
- **Credit Risk:** - This is risk associated with default on interest and /or principal amounts by issuers of fixed income securities. In case of a default, scheme may not fully receive the due amounts and NAV of the scheme may fall to the extent of default.
- **Spread Risk:** - Credit spreads on corporate bonds may change with varying market conditions. Market value of debt securities in portfolio may depreciate if the credit spreads widen and vice –versa. Similarly, in case of floating rate securities, if the spreads over the benchmark security / index widen, then the value of such securities may depreciate.
- **Liquidity Risk:** - Liquidity condition in market varies from time to time. In an environment of tight liquidity, necessity to sell securities may have higher than usual impact cost. Further, liquidity of any particular security in portfolio may lessen depending on market condition, requiring higher discount at the time of selling.
- **Counterparty Risk:** - This is the risk of failure of counterparty to a transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of a counterparty default.
- **Re-investment Risk:** - Investment in fixed income securities carries re-investment risk. Interest rates prevailing on the coupon payment or maturity date may differ from the purchase yield of the security. This may result in final realized yield to be lower than that expected at the time of purchase.
- **Risk associated with Exposure to Repos:** - Although repos are collateralized transactions, they are still exposed to Counterparty Risk and the Credit Risk (explained above) associated with the collateral. As far as the counterparty risk is concerned, the investor should be able to liquidate the securities received as collateral, thus largely offsetting any loss. Against this the seller /lender of bonds will hold cash or other securities as protection against non return of the lent securities. In both the cases it is to be ensured that the realisable value equals or exceeds the exposure. There is also the concentration risk resulting from illiquid issues which are used as collateral in the transaction.
- **Risks associated with unrated instruments:** - Investments in unrated instruments are subject to the risk associated with investments in any other fixed income securities, as referred above. However, investments in unrated instruments are considered to be subject to greater risk of loss of principal and interest than rated instruments.

3. Risks associated with the Listing:-

- Listing of the units of the Scheme does not necessarily guarantee their liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained. Consequently, the Scheme may quote below its face value/NAV.

- Trading in Units of the Scheme on the Exchange may be halted because of market conditions or for reasons that in view of Exchange Authorities or SEBI, trading in Units of the Scheme is not advisable. In addition, trading in Units of the Scheme is subject to trading halts caused by extraordinary market volatility and pursuant to Exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of Exchange necessary to maintain the listing of Units of the Scheme will continue to be met or will remain unchanged. Any changes in trading regulations by the Stock Exchange(s) or SEBI may inter-alia result in wider premium/ discount to NAV. The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the Scheme's holdings. The trading prices of Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme. The Units will be issued in Demat form through depositories. The records of the depository are final with respect to the number of Units available to the credit of Unit holder. Settlement of trades, repurchase of Units by the Mutual Fund on the maturity date will depend upon the confirmations to be received from depository(ies) on which the Mutual Fund has no control.
- The market price of the Units of the Scheme, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the Unit (or NAV), and (2) demand and supply of Units in the market. Sizeable demand or supply of the Units in the Exchange may lead to market price of the Units to quote at premium or discount to NAV. As the Units allotted under the Scheme will be listed on the Exchange, the Mutual Fund shall not provide for redemption / repurchase of Units prior to maturity date of the Scheme.

4. Risk associated with investments in Derivatives

- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities as well as to manage risks arising thereby. Identification and execution of the strategies to be pursued by the Scheme involve uncertainty and investment decisions may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. Derivative investments carry certain risks and issues arising out of such dealings. The risks associated with the use of derivatives are different from, and possibly greater than, the risks associated with investing directly in securities and other traditional investments. Certain other risks, one or more, that may arise consequent to use of derivatives are: risk of mis-pricing or improper valuation of derivatives, credit risk arising out of counterparty failing to honour its commitment, liquidity risk where the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices, and price risk where the market price may move in adverse fashion. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the possible failure of the counterparty to comply with the terms of the derivative contract.
- To the extent that Derivatives are utilised to seek to achieve the investment objectives of the Scheme, and for purposes other than hedging, the overall risk of loss to the Scheme may be increased. To the extent that Derivatives are utilised for hedging purposes, the risk of loss to the Scheme may be increased where the value of the Derivative instrument and the value of the Security or position which it is hedging are insufficiently correlated.

- Investments in index futures face the same risk as investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying Securities.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.

5. Risk associated with Investing in Securitized Debt:-

The Scheme may be exposed to risks associated with investing in securitized debt. The underlying assets in the case of investment in securitized debt could be mortgages, being Mortgage Backed Securities (MBS) or Asset Backed Securities (ABS) other assets like credit card receivables, automobile / vehicle, consumer durables, personal, commercial or corporate loans and any other receivables, loans or debt etc. Securitised debt carry credit risk of the obligors and are dependent on the servicing of the PTC / Contributions, etc. Though these are off-set suitably by appropriate pool selection as well as credit enhancements specified by Credit Rating Agencies, the credit enhancement stipulated in a securitization transaction represents a limited loss cover only. Delinquencies and credit losses may cause depletion of the amount available under the cash collateral account and thereby the scheduled payouts of the investors may get affected if the amount available in the cash collateral account is not enough to cover the shortfall. In cases where the underlying facilities are linked to benchmark rates, the securitized debt papers may be adversely impacted by adverse movements in benchmark rates. However, this risk is mitigated to an extent by appropriate credit enhancement specified by Credit Rating Agencies. Securitised debt papers also carry the risks of pre-payment by the obligors. In case of pre-payments, it may result in reduced actual duration as compared to the expected duration of the paper at the time of purchase, which may adversely impact the portfolio yield. These securities also carry risk associated with the collection agent who is responsible for collection of receivables and depositing them.

6. Risks associated with close ended schemes

- A close ended scheme endeavors to achieve the desired returns only at the scheduled maturity of the scheme. Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode, if they have opted to hold Units in demat form, by mentioning their demat details on the NFO application form. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the desired returns. Although the securities in the portfolio will have sufficient market liquidity, there is a possibility that market liquidity could get impacted on account of company/sector/general market related events and there could be a price impact at maturity while liquidating the portfolio.
- A close ended scheme comes to the end at the scheduled maturity and on the maturity date, investors of the Scheme carry the risk that the value of underlying portfolio securities could get impacted due to unfavourable market conditions and/or company specific events, which could lead to lower than desired returns

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME:

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme shall be wound up in accordance with Regulation

39(2)(c) of SEBI (Mutual Funds) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 5 business days from the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS

- Prospective investors should study this Scheme Information Document ('SID) and Statement of Additional Information ('SAI') carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming units, before making a decision to invest / redeem / hold Units.
- Neither this SID or SAI nor the Mutual Fund has been registered in any jurisdiction outside India. The distribution of this SID in certain jurisdictions may be restricted or totally prohibited and accordingly, persons who come into possession of this SID are required to inform themselves about, and to observe, any such restrictions and or legal compliance requirements. No persons receiving a copy of this SID or Key Information Memorandum and any accompanying application form in such jurisdiction may treat this SID or such application form as constituting an invitation to them to subscribe for Units, nor should they in any event use any such application form, unless such an invitation could lawfully be made to them in the relevant jurisdiction and such application form could lawfully be used without compliance of any registration or other legal requirements.
- This is not an offer for sale, or a solicitation of an offer to buy, in the United States or to any "US Person" of any Units of the Scheme. *"US Person" includes a natural person, residing in the United States or any entity organized or incorporated under the laws of the United States.* US Citizens living abroad may also be deemed "US Persons" under certain rules. The Scheme offered hereunder has not been and will not be registered under the United States Securities Act of 1933 as amended (the "Securities Act"), for offer or sale as part of its distribution and the Fund or the AMC have not been and will not be registered under the United States Investment Company Act of 1940. This does not constitute, and should not be construed as, "general solicitation or general advertising" as defined under Regulation D of the Securities Act, or "directed selling efforts" under Regulation S of the Securities Act.
- The AMC may have certain reporting obligations under U.S. tax laws in respect of investments by and payments to US based clients of the India operation. The AMC may also be obligated to withhold US tax under US tax laws, if the AMC makes any payment / distributions to US clients who do not have or who have not provided their US taxpayer ID, and also report all such payments to US clients in a (US) Form 1099. Thus, notwithstanding what is stated in the foregoing paragraph, if any US based NRI or PIO invests in any schemes of the Mutual Fund, such investor may be required to fill in and sign the prescribed Form W-9 (including US taxpayer ID/Social Security Number), if he/she is a US citizen or US resident to avoid U.S. tax withholding, if required, at the time of any payments; and if such an investor is a not a US citizen or resident, he/she may be required fill in and sign the prescribed Form W-8. The respective forms are available at <http://www.irs.gov/pub/irs-pdf/fw9.pdf> and <http://www.irs.gov/pub/irs-pdf/iw8ben.pdf>
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this SID or the SAI or as is provided by the AMC in connection with this offering. Prospective investors are advised not to rely upon any

information or representation not incorporated in the SID or SAI or provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee. Any subscription, purchase or sale made by any person on the basis of statements or representations which are not contained in this SID or which are inconsistent with the information contained herein shall be solely at the risk of the investor.

- Investment decisions made by the Investment Manager may not always be profitable.
- Pursuant to the provisions of Prevention of Money Laundering Act, 2002 and U.S. Office of Foreign Assets Control (OFAC) laws and regulations, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering or violating any provisions of the OFAC laws and regulations, on failure to provide required documentation, information, etc. by the investor, the AMC shall have absolute discretion to report such suspicious transactions to Financial Intelligence Unit – India (FIU-IND and/or Prudential Financial Inc or its affiliates for reporting under OFAC laws and regulations and/or to freeze the Units under folios of the investor(s), reject any application(s) / allotment of Units.
- The Mutual Fund may disclose details of the investor’s account and transactions there under to those intermediaries whose stamp appears on the application form. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.
- The tax benefits described in this Scheme Information Document and Statement of Additional Information are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this Scheme Information Document and the Unit holders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unit holder is advised to consult his / her own professional tax advisor.

Investors are urged to study the terms of the offer carefully before investing in the Scheme, and to retain this SID and the SAI for future reference.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

DHFL Pramerica Dual Advantage Fund - Series 1 is a Closed Ended Debt Scheme.

Tenure of the Scheme: - 51 months from the date of allotment of the Scheme (including the date of allotment). If the maturity date falls on a non business day, the maturity date shall be the next business day.

The Scheme will be fully wound up at the end of the tenure of the Scheme.

Units of the Scheme will be redeemed only on the Maturity Date (or immediately succeeding Business Day if that day is not a Business Day.)

B. INVESTMENT OBJECTIVE OF THE SCHEME

The objective of the Scheme is to generate income by investing in fixed income securities maturing on or before the date of the maturity of the Scheme and to generate capital appreciation by investing in equity and equity related instruments. However, there can be no assurance that the investment objective of the Scheme will be realized.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation in the Scheme under normal circumstances will be as follows:

Asset Class	Indicative Allocations (% of Total Assets)		Risk Profile**
	Minimum	Maximum	
Debt and debt related instruments*#	65%	95 %	Low to Medium
Money market instruments ^s	0%	10%	Low
Equity and equity related instruments including derivatives ^{#@}	5%	25%	High

*Includes securitized debt up to 20% of the net assets of the Scheme.

@Equity related instruments include all derivative instruments that have equity / equity indexes as the underlying as well as securities such as convertible bonds and debentures and warrants carrying the right to obtain equity shares.

\$As per Regulation 2(o) of SEBI (MF) Regulations, 1996, “money market instruments” includes commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time.

The Maximum exposure to derivatives shall not exceed 50% of net assets of the scheme. The Scheme may take derivatives position based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under SEBI (Mutual Funds) Regulations from time to time. In terms of SEBI Circular no Cir/ IMD/ DF/ 11/ 2010 dated August 18, 2010, the cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the scheme.

As per the SEBI Regulations, investments shall be made only in such debt and money markets securities which mature on or before the date of the maturity of the Scheme.

The Scheme does not intend to invest in overseas/foreign securities including ADR/GDR / foreign securitized debt /equity linked debentures. Also, the scheme does not intend to engage in stock lending/short selling or repo transactions in corporate debt securities. The Scheme shall also not participate in Credit Default Swaps.

Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as amended from time to time.

Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only. In case of deviation, the portfolio would be rebalanced within 30 days from the date of deviation. In case the same is not aligned to the above asset allocation pattern within 30 days, justification shall be provided to the Investment Committee and reasons for the same shall be recorded in writing. The Investment committee shall then decide on the course of action.

D. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in Equity & Equity Related Instruments (Including Equity Derivatives), Debt Instruments (Including Debt Derivatives), securitized debt instruments, Money Market Instruments and other permitted securities which will include but not limited to:

i. Equity and Equity Related Instruments:

- Equity Share: - Equity Share is a security that represents ownership interest in a company;
- Equity Related Instruments: - Equity Related Instruments are securities which give the holder of the security right to receive Equity Shares on pre agreed terms. It includes convertible bonds, convertible debentures, equity warrants, convertible preference shares, etc.
- Equity Derivatives: - Equity Derivatives are financial instruments, generally traded on an exchange, the price of which is directly dependent upon (i.e., “derived from”) the value of equity shares or equity indices. Derivatives involve the trading of rights or obligations based on the underlying, but do not directly transfer property. The equity derivatives may take the following forms:-

Futures: Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

Options: Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or upto a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types viz:

- **Call Option** - The option that gives the buyer the right but not the obligation to buy specified quantity of the underlying asset at the strike price is a call option.
- **Put Option** – The option that gives the buyer the right but not the obligation to sell is called put option.

ii. **Debt & Money Market Instruments:-**

- **Money Market Instruments:-** Money Market Instruments include commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, CBLOs (Collateralized Borrowing and Lending Obligation), certificate of deposit and any other like instruments as specified by the Reserve Bank of India from time to time.

Commercial Paper (CP) - CP is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all -India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity;

Certificate of Deposit (CD) - CD is a negotiable money market instrument issued by scheduled commercial banks and select All India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is one year to 3 years from the date of issue.

Treasury Bill (T-Bill) - T-Bills are issued by the Government of India to meet their short term borrowing requirements. T - Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days.

Collateralized Borrowing and Lending Obligations (CBLO) - CBLO is a money market instrument that enables entities to borrow and lend against sovereign collateral security. The maturity ranges from 1 day to 90 days and can also be made available upto 1 year. Central Government securities including T-bills are eligible securities that can be used as collateral for borrowing through CBLO.

Repo - Repo is a money market instrument, which enables collateralised short term borrowing and lending through sale/purchase operations in debt instruments. Repo or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase back or sell back the same security at a mutually decided future date and price. The difference between the sale and repurchase price of the securities is the implicit interest rate for the borrowing/lending.

- **Government Securities**:- Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.
- **Non convertible debentures and bonds** - Non convertible debentures and bonds are securities issued by companies/ institutions promoted/ owned by the Central or State Governments and statutory bodies which may or may not carry a Central/ State Government guarantee, Public and private sector banks, all India Financial Institutions and private sector companies. These instruments may be secured or unsecured against the assets of the company and generally issued to meet the short term and long term fund requirements. The Scheme may also invest in the non convertible part of convertible debt securities.
- **Floating rate debt instruments**: - Floating rate debt instruments are instruments where the coupon rate is reset periodically with reference to a pre-defined benchmark rate.
- **'When, as and if issued' security**: - 'When, as and if issued' security (commonly known as "when-issued" (WI)) security refers to a security that has been authorized for issuance but not yet actually issued. WI trading takes place between the time a new issue is announced and the time it is actually issued. All "when issued" transactions are on an "if" basis, to be settled if and when the actual security is issued. SEBI has on April 16, 2008, allowed Mutual Funds to undertake 'When Issued (WI)' transactions in Central Government securities, at par with other market participants.
- **Debt derivative instruments**:

Interest Rate Swap - An Interest Rate Swap (IRS) is a financial contract between two parties exchanging or swapping a stream of interest payments for a "notional principal" amount on multiple occasions during a specified period. Such contracts generally involve exchange of a "fixed to floating" or "floating to fixed rate" of interest. Accordingly, on each payment date that occurs during the swap period, cash payments based on fixed/ floating and floating rates are made by the parties to one another.

Forward Rate Agreement - A Forward Rate Agreement (FRA) is a financial contract between two parties to exchange interest payments for a 'notional principal' amount on settlement date, for a specified period from start date to maturity date. Accordingly, on the settlement date, cash payments based on contract (fixed) and the settlement rate, are made by the parties to one another. The settlement rate is the agreed bench-mark/ reference rate prevailing on the settlement date.

Interest Rate Futures: A futures contract is a standardized, legally binding agreement to buy or sell a commodity or a financial instrument in a designated future month at a market determined price (the futures price) by the buyer and seller. The contracts are traded on a futures exchange. An Interest Rate Future is a futures contract with an interest bearing instrument as the underlying asset.

- **Securitized Assets:**

Securitization is a structured finance process which involves pooling and repackaging of cash flow producing financial assets into securities that are then sold to investors. They are termed as Asset Backed Securities (ABS) or Mortgage Backed Securities (MBS). ABS are backed by other assets such as credit card, automobile or consumer loan receivables, retail installment loans or participations in pools of leases. Credit support for these securities may be based on the underlying assets and/or provided through credit enhancements by a third party. MBS is an asset backed security whose cash flows are backed by the principal and interest payments of a set of mortgage loans. Such Mortgage could be either residential or commercial properties. ABS/MBS instrument reflect the undivided interest in the underlying assets and do not represent the obligation of the issuer of ABS/MBS or the originator of underlying receivables. Securitization often utilizes the services of SPV.

Pass through Certificate (PTC):- PTC represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans.

The following are certain additional disclosures w.r.t. investment in securitized debt:

- 1. How the risk profile of securitized debt fits into the risk appetite of the scheme?**

Securitized debt is a form of conversion of normally non-tradable loans to transferable securities. This is done by assigning the loans to a special purpose vehicle (a trust), which in turn issues Pass-Through-Certificates (PTCs). These PTCs are transferable securities with fixed income characteristics. The risk of investing in securitized debt is similar to investing in debt securities. However it differs in two respects. Typically the liquidity of securitized debt is less than similar debt securities. For certain types of securitized debt (backed by mortgages, personal loans, credit card debt, etc.), there is an additional pre-payment risk. Pre-payment risk refers to the possibility that loans are repaid before they are due, which may reduce returns if the re-investment rates are lower than initially envisaged. Because of these additional risks, securitized debt typically offers higher yields than debt securities of similar credit rating and maturity. If the fund manager judges that the additional risks are suitably compensated by the higher returns, he may invest in securitized debt up to the limits specified in the asset allocation table above.

- 2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc**

The originator is the person who has initially given the loan. The originator is also usually responsible for servicing the loan (i.e. collecting the interest and principal payments). An analysis of the originator is especially important in case of retail loans as this affects the credit quality and servicing of the PTC. The key risk is that of the underlying assets and not of the originator. For example, losses or performance of earlier issuances does not indicate quality of current series. However, such past performance may be used as a guide to evaluate the loan standards, servicing capability and performance of the originator. Originators may be: Banks, Non Banking Finance Companies, Housing Finance Companies, etc.

The fund manager / credit analyst evaluates originators based on the following parameters:-

- Track record;
- Willingness to pay, through credit enhancement facilities etc;
- Ability to pay;
- Business risk assessment, wherein following factors are considered:
 - Outlook for the economy (domestic and global)
 - Outlook for the industry
 - Company specific factors

In addition a detailed review and assessment of rating rationale is done including interactions with the originator as well as the credit rating agency.

The following additional evaluation parameters are used as applicable for the originator / underlying issuer for pool loan and single loan securitization transactions:

- Default track record/ frequent alteration of redemption conditions / covenants;
- High leverage ratios of the ultimate borrower (for single-sell downs) – both on a standalone basis as well on a consolidated level/ group level;
- Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be;
- Higher proportion of overdue assets of the pool or the underlying loan, as the case may be;
- Poor reputation in market;
- Insufficient track record of servicing of the pool or the loan, as the case may be.

3. Risk mitigation strategies for investments with each kind of originator

An analysis of the originator is especially important in case of retail loans as the size and reach affects the credit quality and servicing of the PTC. In addition, the quality of the collection process, infrastructure and follow-up mechanism; quality of MIS; and credit enhancement mechanism are key risk mitigants for the better originators / servicers. In case of securitization involving single loans or a small pool of loans, the credit risk of the underlying borrower is analyzed. In case of diversified pools of loans, the overall characteristic of the loans is analyzed to determine the credit risk. The credit analyst looks at ageing (i.e. how long the loan has been with the originator before securitization) as one way of evaluating the performance potential of the PTC. Securitization transactions may include some risk mitigants (to reduce credit risk). These may include interest subvention (difference in interest rates on the underlying loans and the PTC serving as margin against defaults), overcollateralization (issue of PTCs of lesser value than the underlying loans, thus even if some loans default, the PTC continues to remain protected), presence of an equity / subordinate tranche (issue of PTCs of differing seniority when it comes to repayment - the senior tranches get paid before the junior tranche) and / or guarantees.

4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments

In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. In case of diversified pools of loans, the overall characteristic of the loans is analyzed to determine the credit risk. The credit analyst looks at ageing (i.e. how long the loan has been with the originator before securitization) as one way of judging the performance potential of the PTC. Additional risk mitigants may include interest subvention, over collateralization, presence of an equity / subordinate tranche and / or guarantees. The credit analyst also uses analyses by credit rating agencies on the risk profile of the securitized debt.

Currently, the following parameters are used while evaluating investment decision relating to a pool securitization transaction. The Investment Committee may revise the parameters from time to time.

Characteristics/ Type of Pool	Mortg age Loan	Comme rcial Vehicle and Constru ction Equipm ent	CAR	2 wheelers	Micro Finance Pools	Personal Loans	Single Sell Downs	Others
Approximate Average maturity (in Months)	Up to 10 years	Up to 3 years	Up to 3 years	Up to 3 years	Up to 3 years	Up to 3 years	Refer Note 1	Refer Note 2
Collateral margin (including cash ,guarantees, excess interest spread , subordinate tranche)	>10%	>10%	>10%	>10%	>10%	>10%	Refer Note 1	Refer Note 2
Average Loan to Value Ratio	<90%	<80%	<80%	<80%	<80%	<80%	Refer Note 1	Refer Note 2
Average seasoning of the Pool	>3 months	>3 months	>3 months	>3 months	>3 months	>3 months	Refer Note 1	Refer Note 2
Maximum single exposure range	<1%	<1%	<1%	<1%	<1%	<1%	Refer Note 1	Refer Note 2
Average single exposure range %	<1%	<1%	<1%	<1%	<1%	<1%	Refer Note 1	Refer Note 2

Note 1: In case of securitization involving single loans or a small pool of loans, the credit risk of the borrower is analyzed. The investment limits applicable to the underlying borrower are applied to the single loan sell-down.

Note 2: Other investments will be decided on a case-to-case basis.

The credit analyst may consider the following risk mitigating measures in his analysis of the securitized debt:

- Size of the loan
- Average original maturity of the pool
- Loan to Value Ratio
- Average seasoning of the pool
- Default rate distribution
- Geographical Distribution
- Credit enhancement facility
- Liquid facility
- Structure of the pool

5. Minimum retention period of the debt by originator prior to securitization

The Fund will invest in securitized debt which is compliant with the laws and regulations. Issuance of securitized debt is governed by the Reserve Bank of India ('RBI'). RBI norms cover the "true sale" criteria including credit enhancement and liquidity enhancements. In addition, RBI has proposed minimum holding period of between nine and twelve months for assets before they can be securitized. The minimum holding period depends on the tenor of the securitization transaction.

6. Minimum retention percentage by originator of debts to be securitized

The Fund will invest in securitized debt which is compliant with the laws and regulations. Issuance of securitized debt is governed by the RBI. RBI norms cover the "true sale" criteria including credit enhancement and liquidity enhancements, including maximum exposure by the originator in the PTCs. In addition, RBI has proposed minimum retention requirement of between five and ten percent of the book value of the loans by the originator. The minimum retention requirement depends on the tenor and structure of the securitization transaction.

7. The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund

The key risk is securitized debt relates to the underlying borrowers and not the originator. In a securitization transaction, the originator is the seller of the debt(s) and the fund is the buyer. However, the originator is also usually responsible for servicing the loan (i.e. collecting the interest and principal payments). As the originators may also invest in the scheme, the fund manager shall ensure that the investment decision is based on parameters as set by the Investment Committee (IC) of the AMC and IC shall review the same at regular interval.

8. The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt

The fund management team has the experience to analyze securitized debt. In addition, credit research agencies provide analysis of individual instruments and pools. On an on-going basis (typically monthly) the servicer provides reports regarding the performance of the pool. These reports would form the base for ongoing evaluation where applicable. In addition, rating reports indicating rating changes would be monitored for changes in rating agency opinion of the credit risk.

Investment in Short-Term Deposits

Pending deployment of the funds as per the investment objective of the Scheme, the Funds may be parked in short term deposits of the Schedule Commercial Bank, subject to guidelines and limits specified by SEBI.

Investment in unrated debt instruments shall be subject to complying with the provisions of Regulations and within the limit as specified in Schedule VII to the Regulations. Pursuant to SEBI Circular No. MFD/CIR/9/120/2000 dated November 24, 2000 the AMC may constitute committee(s) to approve proposals for investments in unrated debt instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. However, in

case any unrated debt security does not fall under the parameters, the prior approval of Board of AMC and Trustee shall be sought.

The securities/ instruments mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated in line with the investment objective and asset allocation of the Scheme. The securities may be acquired through initial public offering (IPOs), secondary market, private placement, rights offers, negotiated deals. The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

For applicable regulatory investment limits please refer to the section “Investment Restrictions”.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme endeavors to preserve capital by investing in fixed income securities; and generate capital appreciation by investing in equity and equity related instruments. 5% to 25% of net assets would be invested in equity and equity linked instruments and the balance net assets would be invested into debt securities and money market instruments.

EQUITY STRATEGY:

A top down and bottom up approach will be used to invest in equity and equity related instruments. Investments will be pursued in selected sectors based on the Investment team's analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting scrips will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers. The Scheme may invest in unlisted and / or privately placed securities subject to the regulatory limits.

EQUITY DERIVATIVE STRATEGY:

The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective and strategy of the Scheme and the internal limits if any, as laid down from time to time. These include but are not limited to futures (both stock and index) and options (stock and index). Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument such as interest rates, exchange rates, commodities and equities. There are several advantages in using derivatives in the portfolio. The use of derivatives provides flexibility to the Scheme to hedge whole or part of the portfolio.

The equity derivatives strategy would endeavor to provide exposure to equities through mainly derivatives, i.e exchange traded options and futures. The equity derivatives strategy shall endeavor to provide the portfolio with participation in the underlying equity index. The participation rate would depend on the prevailing prices of the options. The total exposure related to option premium paid will not exceed 20% of the net assets of the Scheme at the time of investment. If due to market movements, the value of options appreciates/ depreciates resulting in breach of the limit of 20%, the fund manager may or may not rebalance the portfolio. However, if the fund manager sells the option before expiry of the contract, the reinvestment, if any, would be subject to the maximum 20% limit on options premium.

An Illustration of calculation of Equity Participation:

ASSUMPTIONS:

Nifty Option Contract	S&P CNX Nifty Call option expiring on 27 June 2019
Amount available for investment in options	20% of portfolio
Current level of S&P CNX Nifty	8765
Strike Price of the Call Option	8800

Scenario 1

If the Premium to be paid for June 2019 Call Option with a strike Price of 8800 is	2112
Then, the premium expressed as a % of strike price is (Premium/Strike price)	24%
Amount Available for investment in options	20% of portfolio
Therefore, Rate of Participation is amount invested in options / premium	83.33%

Scenario 2

If the Premium to be paid for June 2019 Call Option with a strike Price of 8800 is	1760
Then, the premium expressed as a % of strike price is (Premium/Strike price)	20%
Amount Available for investment in options	20% of portfolio
Therefore, Rate of Participation is amount invested in options / premium	100%

Scenario 3

If the Premium to be paid for June 2019 Call Option with a strike Price of 8800 is	1672
Then, the premium expressed as a % of strike price is (Premium/Strike price)	19%
Amount Available for investment in options	20% of portfolio
Therefore, Rate of Participation is amount invested in options / premium	105.26%

The above is just an illustration and should not be assumed as a promise, guarantee or forecast on minimum returns and safeguard of capital.

The risks associated with derivatives are similar to those associated with underlying investments. The additional risks of using derivative strategies could be on account of:

- Illiquidity;
- Potential mispricing of the Futures/Options;
- Lack of opportunity;
- Inability of derivatives to correlate perfectly with the underlying (Indices, Assets, Exchange Rates);
- Cost of hedge can be higher than adverse impact of market movements;
- An exposure to derivatives in excess of the hedging requirements can lead to losses;
- An exposure to derivatives can also limit the profits from a genuine investment transaction.
- The prices which are seen on the screen need not be the same at which execution will take place.

For detailed risks associated with use of derivatives, please refer paragraph “Scheme Specific Risk Factors”

The following section describes the concepts and examples of derivatives that may be used by the fund manager:-

Futures:-

A futures contract is a standardized contract between two parties where one of the parties commits to sell, and the other to buy, a stipulated quantity of a security at an agreed price on or before a given date in the future. Currently, futures contracts have a maximum expiration cycle of 3-months. Three contracts are available for trading, with 1 month, 2 months and 3 months expiry respectively. A new contract is introduced on the next trading day following the expiry of the relevant monthly contract. Futures contracts typically expire on the last Thursday of the month.

Basic Structure of an Index Future:- The Index futures are instruments designed to give exposure to the equity markets indices. The BSE Limited (‘BSE’) and the National Stock Exchange of India Limited (‘NSE’) have trading in index futures of 1, 2 and 3 month maturities. The pricing of an index future is the function of the underlying index and short term interest rates. Index futures are cash settled; there is no delivery of the underlying stocks.

Example using hypothetical figures:

1 month S & P CNX NIFTY Future

Say, the Mutual Fund buys 1,000 futures contracts; each contract value is 100 times futures index price

Spot Index	:	4200.00
Future Price on day 1	:	4210.00
Say, Margin	:	10%

On the date of Settlement:

Future Price = Closing Spot Price = 4225

Profits for the Fund = $(4225-4210) \times 1000 \times 100 = \text{Rs. } 1,500,000$

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. The net impact for the Scheme will be in terms of the difference of the closing price of the index and cost price. Thus, it is clear from the example that the profit or loss for the Scheme will be the difference of the closing price (which can be higher or lower than the purchase price) and the purchase price. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mispricing of the futures.

Basic Structure of a Stock Future:- A futures contract on a stock gives its owner the right and obligation to buy or sell the stocks. The single stock futures traded on NSE are cash settled; there is no delivery of the underlying stocks on the expiration date. A purchase or sale of futures on a security gives the trader essentially the same price exposure as a purchase or sale of the security itself. In this regard, trading in stock futures is no different from trading the security itself.

Example using hypothetical figures:

The Mutual Fund holds shares of XYZ Ltd., the current price of which is Rs. 500 per share. The Mutual Fund sells one month futures on the shares of XYZ Ltd. at the rate of Rs. 540. If

the price of the stock falls, the Mutual Fund will suffer losses on the stock position held. However, in such a scenario, there will be a profit on the short futures position.

At the end of the period, the price of the stock falls to Rs. 450 and this fall in the price of the stock results in a fall in the price of futures to Rs. 470. There will be a loss of Rs. 50 per share (Rs. 500– Rs. 450) on the holding of the stock, which will be offset by the profits of Rs. 70 (Rs. 540 – Rs. 470) made on the short futures position.

Please note that the above example is given for illustration purposes only. Some assumptions have been made for the sake of simplicity. Certain factors like margins and other related costs have been ignored. The risks associated with stock futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mispricing of the futures.

Options:-

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he/she/it pays a fee (premium) and the seller accepts an obligation for which he/she/it receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

An option contract may be of two kinds:

- a. Call option: - An option that provides the buyer the right to buy is a call option. The buyer of the call option can call upon the seller of the option and buy from him the underlying asset at the agreed price. The seller of the option has to fulfill the obligation upon exercise of the option.
- b. Put option: - The right to sell is called a put option. Here, the buyer of the option can exercise his right to sell the underlying asset to the seller of the option at the agreed price.

Option contracts are classified into two styles:

- i. European Style: In a European option, the holder of the option can only exercise his right on the date of expiration only.
- ii. American Style: In an American option, the holder can exercise his right anytime between the purchase date and the expiration date.

Index/Stock Options: - Index options/Stock options are termed to be an efficient way of buying/selling an index/stock compared to buying / selling a portfolio of physical shares representing an index for ease of execution and settlement. The participation can be done by buying / selling either Index futures or by buying a call/put option. The risk are also different when index /stock futures are bought/sold visa- a- vis index/stocks options as in case of an index future there is a mark to market variation and the risk is much higher as compared to buying an option, where the risk is limited to the extent of premium paid.

Basic Structure of an Equity Option:- In India, option contracts on indices are European style and cash settled whereas, option contracts on individual securities are American style and cash settled.

The illustration below explains how one can gain using Index call / put option. These same principles of profit/loss in an Index option apply for stock option as well.

Call Option:-

Suppose an investor buys a Call option on 1 lot of Nifty (Lot Size: 50 units)

- Nifty index (European option).
- Nifty 1 Lot Size: 50 units
- Spot Price (S): 3500
- Strike Price (x): 3550 (Out-of-Money Call Option)
- Premium: 100

Total Amount paid by the investor as premium $[50 \times 100] = 5000$

There are two possibilities i.e. either the index moves up over the strike price or remains below the strike price.

Case 1- The index goes up

- An investor sells the Nifty Option described above before expiry: Suppose the Nifty index moves up to 3600 in the spot market and the premium has moved to Rs 200 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Nifty call option as the option now is In the Money.

His gains are as follows:

- Nifty Spot: 3600
- Current Premium: Rs.200
- Premium paid: Rs.100
- Net Gain: $\text{Rs.}200 - \text{Rs.}100 = \text{Rs.}100$ per unit
- Total gain on 1 lot of Nifty (50 units) = $\text{Rs.}5000$ (50×100)

In this case the premium of Rs.200 has an intrinsic value of Rs.50 per unit and the remaining Rs.150 is the time value of the option.

- An investor exercises the Nifty Option at expiry

Suppose the Nifty index moves up to 3700 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Nifty call option as the option now is in the Money.

His gains are as follows:

- Nifty Spot: 3700
- Premium paid: Rs.100
- Exercise Price: 3550
- Receivable on exercise: $3700 - 3550 = 150$
- Total Gain: $\text{Rs.}2500$ $\{(150 - 100) \times 50\}$

In this case the realised gain is only the intrinsic value, which is Rs.50, and there is no time value.

Case 2 - The Nifty index moves to any level below 3550

Then the investor does not gain anything but on the other hand his loss is limited to the premium paid:

Net Loss is Rs.5000 (Loss is capped to the extent of Premium Paid)

(Rs 100 Premium paid*Lot Size: 50 units).

Put Option:-

Suppose an investor buys a Put option on 1 lot of Nifty.

- Nifty 1 Lot Size: 50 units
- Spot Price (S): 3500
- Strike Price (x): 3450 (Out-of-Money Put Option)
- Premium: 30
- Total Amount paid by the investor as premium $[50*30] = 1500$

There are two possibilities i.e. either the index moves over the strike price or moves below the strike price.

Let us analyze these scenarios.

Case 1 - The index goes down

- **An investor sells the Nifty Option before expiry:**

Suppose the Nifty index moves down to 3400 in the spot market and the premium has moved to Rs. 80 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Nifty Put Option as the option now is In The Money. His gains are as follows:

- Nifty Spot: 3400
- Premium paid: Rs.30
- Net Gain: $Rs.80 - Rs.30 = Rs.50$ per unit
- Total gain on 1 lot of Nifty (50 units) = $Rs.2500 (50*50)$

In this case the premium of Rs.80 has an intrinsic value of Rs.50 per unit and the remaining Rs.30 is the time value of the option.

- **An investor exercises the Nifty Option at expiry (It is an European Option)**

Suppose the Nifty index moves down to 3400 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Nifty Put Option as the option now is in the Money. His gains are as follows:

- Nifty Spot: 3400
- Premium paid: Rs.30
- Exercise Price: 3450
- Gain on exercise: $3450-3400 = 50$
- Total Gain: $Rs.1000 \{(50-30)*50\}$

In this case the realised amount is only the intrinsic value, which is Rs.50, and there is no time value in this case.

Case 2 - If the Nifty index stays over the strike price which is 3450, in the spot market then the investor does not gain anything but on the other hand his loss is limited to the premium paid.

- Nifty Spot: >3450
- Net Loss Rs.1500 (Loss is capped to the extent of Premium Paid)
(Rs 30 Premium paid*Lot Size: 50 units).

(a) Portfolio Hedging:

Portfolio Hedging will be adopted –

- (i) If in an already invested portfolio of a Scheme, the Investment Manager is expecting a market correction, the Investment Manager may sell Index Futures to insulate the portfolio from the market related risks.
- (ii) If there are significant inflows to the Scheme and the market expectations are bullish, the Investment Manager may buy Index Futures to continue participation in the equity markets.

(b) Alpha Strategy:

The Scheme will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index. For example, one can seek to generate positive alpha by buying a bank stock and selling Bank Nifty future.

Execution of these strategies depends upon the ability of the fund manager to identify and execute based on such opportunities. These involve significant uncertainties and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

FIXED INCOME STRATEGY:

The fixed income portfolio will consist of

- A pool of investment grade rated fixed income securities maturing in line with the tenure of the fund
- This portfolio would comprise mostly Hold to Maturity (HTM) securities.

The fund management team endeavors to meet the investment objective whilst maintaining a balance between safety and return on investments. The Scheme shall be actively managed and the fund management team may endeavor to generate returns whilst moderating credit and interest rate risk. The fund manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. The Investment Manager may try to leverage its international resource base to understand the global economic and interest rate environment.

Investment views/decisions inter alia may be taken on the basis of the following parameters:

- Returns offered relative to alternative investment opportunities.
- Prevailing interest rate scenario
- Quality of the security/instrument (including the financial health of the issuer)
- Maturity profile of the instrument
- Any other factors considered relevant in the opinion of the fund management team.

The Scheme may also use derivatives to reduce the volatility of the portfolio and/or to enhance the portfolio returns. The Scheme may try to identify securities that yield relative value over others for similar risk and liquidity level. Various analytical tools like yield curve analysis, spreads between asset classes, horizon returns, forward implied interest rates, may be deployed to evaluate various investment options.

Credit Evaluation Policy:-

The AMC has structured an internal credit risk management process. The process comprise of detailed analysis of both quantitative and qualitative factors, including financial statement analysis, business outlook, future expansion/ capex plans, capital market data, management reputation, corporate governance, capital raising pattern, equity market inputs, etc and other relevant factors as deemed appropriate. Ratings assigned by the recognised external rating agencies are also taken into account. Based on the analysis an internal grade is assigned to each issuer. Taking the internal grading of the issuers into account, the credit portfolio is constructed judiciously to attain scheme objectives while balancing the credit risk profile of the Scheme.

List of Sectors the Scheme would not be investing:-

The Scheme do not intend to invest in Companies falling within Airlines, Gems & Jewellery Sector.

Floors and ceilings within a range of 5% of the intended allocation (in %) against each sub asset class/rating:-

The Scheme will invest in various instruments as mentioned in the matrix below with the ratings mentioned against the type of instrument. As per SEBI circular no Cir/IMD/DF/12/2011 dated August 1, 2011 the Scheme is allowed to invest within a range of 5% of the intended debt allocation (floor and cap) against each sub asset class/credit rating.

The Scheme will invest in various instruments as mentioned in the matrix below with the ratings mentioned against the type of instrument. As per SEBI circular no Cir/IMD/DF/12/2011 dated August 1, 2011 the Scheme is allowed to invest within a range of 5% of the intended debt allocation (floor and cap) against each sub asset class/credit rating.

1. Floor and Cap (within a range of 5%) of the intended debt allocation against each sub asset class/credit rating will be as follows:

Instruments	Credit Rating						Not Applicable
	AAA	A1+	AA	A1	A	BB	
Certificate of Deposits (CD)	-	-	-	-	-	-	-
Commercial Papers (CP)	-	-	-	-	-	-	-
Non Convertible Debentures (NCD)	-	-	-	-	75% to 80%	-	-
Securitized Debt	-	-	-	-	-	-	-
G-Secs	-	-	-	-	-	-	-
<ul style="list-style-type: none">• CBLO• T-Bills• Repos on Government Securities	-	-	-	-	-	-	0% to 5%

2. Securities with rating A & AA shall include A+ & A- and AA+ & AA- respectively. Similarly, securities with A1 rating shall include A1+.

3. In case of non availability of and taking into account the risk reward analysis of CP, NCD and Securitised Debt, the scheme may invest in CD having the highest credit ratings (i.e. A1+)/ TBills/ CBLO. Such deviation may exist till such suitable NCD/ Securitised Debt /CP of desired quality are not available in the market.
4. Positive variation in investments towards higher credit rating in same instruments shall be allowed;
5. All investments shall be made based on the rating prevalent at the time of investment. If more than one rating is prevailing for any particular instrument in which investment is being made, the Scheme would consider the most conservative publically available rating for the said instrument, for the purpose of intended allocation range.
6. The Scheme may have higher allocation towards cash or cash equivalents immediately post NFO closure or towards the maturity of the Scheme.
7. Further, the above allocation may vary during the duration of the Scheme. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event etc. In case of such deviations, the Scheme may invest in Bank CDs having highest ratings (i.e. A1+ or equivalent) / CBLOs / T-Bills. Deviation, if any, due to such instances, may continue till maturity, if suitable NCDs / CPs of desired credit quality are not available.
8. In the event of any deviation from the floor and ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of the said deviation. In case the same is not aligned to the above asset allocation pattern within 30 days, justification shall be provided to the Investment Committee and reasons for the same shall be recorded in writing. The Investment committee shall then decide on the course of action.
9. There shall be no deviation between the intended allocation and actual allocation post the New Fund Offer period, except for the situation stated in (3), (4), (6) and (7) above.

Position of Debt Market in India

The debt market in India is estimated at about Rs. 4,000,000 Crores as of now. A bulk of the debt market consists of Government Securities. Other instruments available currently include Corporate Debentures, Bonds issued by Financial Institutions, Commercial Paper, Certificates of Deposits and Securitised Debt. Securities in the Debt market typically vary based on their tenure and rating. Government Securities have tenures from one year to thirty years whereas the maturity period of the Corporate Debt varies from one year to fifteen years. Recently some banks have also issued perpetual bonds. Securities may be both listed and unlisted and increasingly most securities of maturities of over one year are being listed by issuers. While in the corporate bond market, deals are conducted over telephone and are entered on principal-to-principal basis, due to the introduction of the Reserve Bank of India's NDS- Order Matching system a significant proportion of the government securities market is trading on the new system. The yields and liquidity on various securities as of February 20, 2017, are as under:

Issuer	Instrument	Maturity	Yields (%)	Liquidity
GOI	Treasury Bill	91 days	6.19%	High
GOI	Treasury Bill	364 days	6.22%	High
GOI	Short Dated	1-3 Years	6.40%-6.60%*	High
GOI	Medium Dated	3-5 Years	6.60%-6.80%*	High
GOI	Long Dated	5-10 Years	6.80%-6.90%*	High

Corporate	Taxable Bonds (AAA)	1-3 Years	6.85%-7.15%	Medium
Corporate	Taxable Bonds (AAA)	3-5 Years	7.15%-7.40%	Low to medium
Corporate	CPs (A1+)	3 months	7%***	Medium to High
Corporate	CPs (A1+)	1 Yr	7.2%***	Medium

DEBT DERIVATIVE STRATEGY:

The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective and strategy of the Scheme and the internal limits if any, as laid down from time to time. Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument such as interest rates, exchange rates, commodities and equities. There are several advantages in using derivatives in the portfolio. The use of derivatives provides flexibility to the Scheme to hedge whole or part of the portfolio.

The risks associated with derivatives are similar to those associated with underlying investments. The additional risks of using derivative strategies could be on account of:

- Illiquidity;
- Potential mispricing of the Futures/Options;
- Lack of opportunity;
- Inability of derivatives to correlate perfectly with the underlying (Indices, Assets, Exchange Rates);
- Cost of hedge can be higher than adverse impact of market movements;
- An exposure to derivatives in excess of the hedging requirements can lead to losses;
- An exposure to derivatives can also limit the profits from a genuine investment transaction.
- The prices which are seen on the screen need not be the same at which execution will take place.

For detailed risks associated with use of derivatives, please refer paragraph “Scheme Specific Risk Factors”

The Scheme may use Derivative instruments like interest rate swaps like overnight indexed swaps (OIS), forward rate agreements, interest rate futures(as and when permitted) or such other Derivative instruments as may be permitted under the applicable regulations.

Derivatives will be used for the purpose of hedging, and portfolio balancing or such other purpose as may be permitted under the regulations and Guidelines from time to time.

As per the guidelines issued by RBI permitting participation by Mutual Funds in interest rate swaps and forward rate agreements, the Fund will use Derivative instruments for the purpose of hedging and portfolio balancing. The Fund may also use derivatives for such purposes as maybe permitted from time to time. Further, the guidelines issued by RBI from time to time for forward rate agreements and interest rate swaps and other derivative products would be adhered to by the Mutual Fund. IRS and FRAs do also have inherent credit and settlement risks. However, these risks are substantially reduced as they are limited to the interest streams and not the notional principal amounts.

Investments in Derivatives will be in accordance with the extant SEBI regulations / guidelines. The circumstances under which such transactions would be entered into would be when, for

example using the IRS route it is possible to generate better returns / meet the objective of the Scheme at a lower cost. e.g. if buying a 2 Yr Mibor based instrument and receiving the 2 Yr swap rate yields better return than the 2 Yr AAA corporate, the Scheme would endeavor to do that. Alternatively, the Scheme would also look to hedge existing fixed rate positions if the view on interest rates is that it would likely rise in the future.

The following information provides a basic idea as to the nature of the Derivative instruments proposed to be used by the Fund and the benefits and risks attached therewith. Please note that the examples have been given for illustration purposes only.

Using Overnight Indexed Swaps

In a rising interest rate scenario, the Scheme may enhance returns by hedging the risk on its fixed interest paying assets by entering into an OIS contract where the Scheme agrees to pay a fixed interest rate on a specified notional amount, for a pre determined tenor and receives floating interest rate payments on the same notional amount. The fixed returns from the Scheme assets and the fixed interest payments to be made by the Scheme on account of the OIS transaction offset each other and the Scheme benefits on the floating interest payments that it receives. The Scheme may enter into an opposite position in case of a falling interest rate scenario, i.e. to hedge the floating rate assets in its portfolio the Scheme enters into an OIS transaction wherein it receives a fixed interest rate on a specified notional amount for a specified time period and pays a floating interest rate on the same notional amount. The floating interest payments that the Scheme receives on its floating rate securities and the floating interest payments that the Scheme has to pay on account of the OIS transaction offset each other and the Scheme benefits on the fixed interest payments that it receives in such a scenario.

Swap

Assume that the Scheme has a Rs. 20 Crore floating rate investment linked to MIBOR (Mumbai Inter Bank Offered Rate). Hence, the Scheme is currently running an interest rate risk and stands to lose if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap. Through this swap, the Scheme will receive a fixed predetermined rate (assume 12%) and pays the “benchmark rate” (MIBOR), which is fixed by the NSE or any other agency. This swap would effectively lock-in the rate of 12% for the next 6 months, eliminating the daily interest rate risk. This transaction is usually routed through an intermediary who runs a book and matches deals between various counterparties. The steps will be as follows:

Assuming the swap is for Rs. 20 Crores for June 1, 2012 to December 1, 2012. The Scheme is a fixed rate receiver at 12% and the counterparty is a floating rate receiver at the overnight rate on a compounded basis (say NSE MIBOR).

On June 1, 2012 the Scheme and the counterparty will exchange only a contract of having entered this swap. This documentation would be as per International Swap Dealers Association (ISDA) norms.

On a daily basis, the benchmark rate fixed by NSE will be tracked by them. On December 1, 2012 they will calculate the following:

- The Scheme is entitled to receive interest on Rs. 20 Crores at 12% for 184 days i.e. Rs. 1.21 Crores, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate;
- The counterparty is entitled to receive daily compounded call rate for 184 days & pay 12% fixed.

- On December 1, 2012, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 1.21 Crores, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference.
- Effectively the Scheme earns interest at the rate of 12% p.a. for six months without lending money for 6 months fixed, while the counterparty pays interest @ 12% p.a. for 6 months on Rs. 20 Crores, without borrowing for 6 months fixed.

The above example illustrates the use of Derivatives for hedging and optimizing the investment portfolio. Swaps have their own drawbacks like credit risk, settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Forward Rate Agreement

Assume that on June 30, 2012, the 30 day commercial paper (CP) rate is 8% and the Scheme has an investment in a CP of face value Rs. 50 Crores, which is going to mature on July 31, 2012. If the interest rates are likely to remain stable or decline after July 31, 2012, and if the fund manager, who wants to re-deploy the maturity proceeds for 1 more month does not want to take the risk of interest rates going down, he can then enter into a following Forward Rate Agreement (FRA) say as on June 30, 2012:

He can receive 1 × 2 FRA on June 30, 2009 at 8.00% (FRA rate for 1 months lending in 1 months time) on the notional amount of Rs. 50 Crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement date i.e. July 30, 2012 falls to 7.75%, then the Scheme receives the difference 8.00 – 7.75 i.e. 25 basis points on the notional amount Rs. 50 Crores.

Interest Rate Futures

Assume that the Scheme holds an Indian ten year benchmark and the fund manager has a view that the yields will go up in the near future leading to decrease in value of the investment and subsequent decrease in NAV of the Scheme. The fund manager decides to use Interest Rate Futures to mitigate the risk of decline of NAV of the Scheme.

20th October 2012

- The benchmark 10 year paper 6.88% 2012 is trading at INR 98.00 at a yield of 7.19%.
- December 2012 futures contract on the 10 year notional 7% coupon bearing Government paper is trading at a yield of 7.29% at a price of INR 98.50.
- The mutual fund decides to hedge the exposure by taking a short position in December 2012 interest rate futures contract.

25th November 2012

- As expected by the fund manager the yield of the benchmark ten year paper has increased to 8% and the price has decreased to 92.70.
- The December 2012 futures contract is trading at a price of INR 93.17 indicating a yield of 8.05%
- The mutual fund unwinds the short position by buying the December 2012 futures contract. The transaction results in profit from the futures position, against the corresponding loss from the Government of India security position.

For details of risk factors relating to use of Derivatives, the investors are advised to refer to Scheme Specific Risk Factors.

Portfolio Turnover

The scheme is a close-ended scheme and no redemption / repurchase of units shall be allowed prior to the maturity of the Scheme. It is anticipated that the turnover would be lower than an open-ended scheme. However, the scheme does not have a target for portfolio turnover. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure accuracy, the likely turnover in the portfolio of the Scheme.

Investments by the AMC in the Scheme

The AMC may invest in the Scheme, subject to the Regulations and to the extent permitted by its Board from time to time. As per the existing Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the Scheme.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Scheme(s), in terms of Regulation 18 (15A) of the SEBI (Mutual Funds) Regulations:

- i. Type of scheme - **A Close Ended Debt Scheme**
- ii. Investment Objective and Asset Allocation – **Refer Section II, Point B & C**
- iii. Terms of Issue:-

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

- The Scheme shall not invest more than 10% of its NAV in the equity shares or equity related instruments of any company;
- The Scheme shall not invest more than 10% of its net assets in unlisted equity shares or equity related instruments;
- The Mutual Fund under all its Schemes shall not own more than 10% of any company's paid up capital carrying voting rights;
- The Scheme shall not invest more than 10% of its net assets in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act. Such investment limit may be extended to 12% of the net assets of the Scheme with the prior approval of the Trustees and the Board of the AMC. Such limit shall not be applicable for investments in government securities, treasury bills and collateralized borrowings and lending

obligations. Provided further that investment within such limit can be made in mortgaged backed securitised debts which are rated not below investment grade by a credit rating agency registered with SEBI.

- The Scheme shall not invest more than 10% of its net assets in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the net assets of the Scheme. All such investments shall be made with the prior approval of the Trustees and the Board of the AMC
- The Scheme may invest in another scheme of the Mutual Fund or any other mutual fund. The aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the net asset value of the Fund. No investment management fees shall be charged by the Scheme for investing in other schemes of the Mutual Fund or in the schemes of any other mutual fund.
- The Scheme shall not make any investment in:
 - a. Any unlisted Security of an associate or group company of the Sponsors; or
 - b. Any Security issued by way of private placement by an associate or group company of the Sponsors; or
 - c. the listed Securities of group companies of the Sponsors which is in excess of 25% of the net assets of the Scheme of the Mutual Fund.
- Transfer of investments from one scheme to another scheme in the Mutual Fund is permitted provided –
 - a) such transfers are done at the prevailing market price for quoted instruments on Spot Basis (Spot Basis shall have the same meaning as specified by a stock exchange for spot transactions); and
 - b) the Securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
- The Mutual Fund shall get the Securities purchased or transferred in the name of the Fund on account of the Scheme, wherever investments are intended to be of a long-term nature.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases take delivery of the relevant securities and in all cases of sale, deliver the securities. The sale of government securities already contracted for purchase shall be permitted in accordance with the guidelines issued by the RBI in this regard.
- The Scheme shall not invest in a fund of funds scheme.
- The Scheme will comply with the following restrictions for trading in exchange traded derivatives, as specified by SEBI vide its circular DNPd/Cir-29/2005 dated September 14, 2005, Circular DNPd/Cir-30/2006 dated January 20, 2006 and Circular DNPd/Cir-31/2006 dated September 22, 2006:
 - i. Position limit for the Mutual Fund in equity index options contracts:
 - a. The Mutual Fund position limit in all equity index options contracts on a particular underlying index shall be Rs. 500 Crores or 15% of the total open interest of the market in equity index option contracts, whichever is higher, per Stock Exchange.

- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.
- ii. Position limit for the Mutual Fund in equity index futures contracts:
- a. The Mutual Fund position limit in all equity index futures contracts on a particular underlying index shall be Rs. 500 Crores or 15% of the total open interest in the market in equity index futures contracts, whichever is higher, per Stock Exchange.
 - b. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging:

In addition to the position limits at point (i) and (ii) above, Mutual Fund may take exposure in equity index derivatives subject to the following limits:

- a. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
- b. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for the Mutual Fund for stock based derivative contracts:

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts:

- a. For stocks having applicable market-wise position limit (MWPL) of Rs. 500 Crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or v 300 Crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 Crores, whichever is lower.
- b. For stocks having applicable MWPL less than Rs. 500 Crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs. 50 Crores whichever is lower.

v. Position limit for the Scheme:

The position limits for the Scheme and disclosure requirements are as follows–

- a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of:

1% of the free float market capitalisation (in terms of number of shares)

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

- b. This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange
- c. For index based contracts, the Mutual Fund shall disclose the total open interest held by the Scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Further, SEBI, vide its circular no. Cir/IMD/DF/11/2010 dated August 18, 2010 has prescribed the following investment restrictions with respect to investment in derivatives:

- a) The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- b) Mutual Fund shall not write options or purchase instruments with embedded written options.
- c) The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- d) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:-
 - (i) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains;
 - (ii) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point (a) above.
 - (iii) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - (iv) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- vi. Mutual Fund may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- vii. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in Point (a) above.
- Pending deployment of funds of a Scheme in terms of the investment objectives of the Scheme, the AMC may invest the funds of the Scheme in short term deposits of scheduled commercial banks in accordance with the guidelines set out by SEBI under the

Regulations. The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits, as per SEBI Circular No. SEBI/IMD/CIR No.1/91171/07 dated April 16, 2007 and SEBI/IMD/CIR No.7/129592/08 dated June 23, 2008:-

- a. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- b. Such short-term deposits shall be held in the name of the Scheme.
- c. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with the approval of the Trustee.
- d. Parking of funds in short term deposits of associate and sponsors scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- e. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- f. The Scheme shall not park funds in short-term deposit of a bank which has invested in the said Scheme.
- g. The AMC shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

However, the above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.

- Save as otherwise expressly provided under SEBI (Mutual Funds) Regulations, 1996, the Scheme shall not advance any loans.
- The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase/redemption of Units or payment of interest and/or dividend to the Unit holders. Provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 month.
- Scheme shall not have total exposure exceeding 25% of its net assets in a particular sector (excluding investments in Bank Certificate of Deposits, Short Term Deposits with scheduled commercial banks, CBLO, Government of India Securities, Treasury Bills and AAA rated Securities issued by Public Financial Institutions and Public Sector Banks). Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 10% of the net assets of the Scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank and the total investment/exposure in HFCs shall not exceed 25% of the net assets of the Scheme.
- Total exposure of the Scheme in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the Scheme. Such investment limit may be extended to 25% of the net assets of the Scheme with the prior approval of the Board of Trustees. For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

All investment restrictions shall be applicable at the time of making investment. The AMC/Trustee may alter these above stated restrictions from time to time to the extent the

Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

Where can you submit the filled up applications.	<p>Please refer the back cover page of the Scheme Information Document.</p> <p>For existing investors' convenience, the Mutual Fund will endeavor to offer Online Transaction facility on its Website viz. www.dhflpramericamf.com for transacting in the Units of DHFL Pramerica Mutual Fund.</p>
How to Apply	<p>Please refer to the SAI and Application form for the instructions.</p>
Listing	<p>The AMC/Mutual Fund will list the Units of the Scheme on National Stock Exchange of India Limited (NSE) within 5 Business Days from the date of allotment. Investors holding the units by way of an account statement (physical form) will not be able to trade their units till they are dematerialized. The Units of the Scheme are available for trading and transfer only in demat mode via the stock exchanges. An investor can buy/sell Units on the exchange during the trading hours like any other publicly traded stock.</p> <p>The trading facility on the NSE would be available from the date of listing till the date of issue of notice by the AMC for fixing the record</p>

	<p>date for determining the eligibility of Unitholders (being the list of Beneficial owners as per the Depositories Records (NSDL/CDSL)) for the purpose of maturity pay out.</p> <p>The trading of Units on the NSE will automatically get suspended from the date of issue of the above notice and also no off-market trades shall be permitted by the Depositories. The AMC may at its sole discretion list the Units on any other recognized exchange(s) at a later date during the tenure of the Scheme. The AMC may also decide to delist the Units from a particular exchange, provided that the Units are listed on at least one exchange.</p> <p>The price of the Units in the market on Exchange will depend on demand and supply and market factors and forces. There is no minimum investment amount for investment through Exchange, although Units dealt in minimum in lots of 1.</p>
<p>Special Products available</p>	<p>Switch option:-</p> <p>During the NFO period (Switch request will be accepted upto 3.00 p.m. on the last day of the NFO), the Unit holders will be able to invest in the NFO of the Scheme by switching part or all of their Unit holdings held in the existing scheme(s) of the DHFL Pramerica Mutual Fund.</p> <p>This Switch option is useful to investors who wish to alter the allocation of their investment among the schemes of the Mutual Fund in order to meet their changed investment needs. Switch transaction will be effected by way of a Redemption of Units from the Source Scheme (Switch-Out) at applicable NAV, subject to Exit Load, if any, and investment of the Redemption proceeds into the Target (Switch-In) Scheme (only during NFO) opted by the investor at the allotment NAV and accordingly, Switch transaction must comply with the Redemption rules of 'Switch Out scheme' and the Subscription rules of the 'Switch In scheme'.</p>
<p>The policy regarding reissue of repurchased units (including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.</p>	<p>Units once redeemed will be extinguished and will not be reissued.</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>Pledge of Units:-</p> <p>The Units under the Scheme may be offered as security by way of a pledge / charge in favour of scheduled banks, financial institutions, non-banking finance companies (NBFC's), or any other body. The AMC/RTA will note and record such Pledged Units. A standard form for this purpose is available on request at all ISCs and the Mutual Fund website (www.dhflpramericamf.com). The AMC shall mark a lien on the specified units only upon receiving the duly completed form and documents as it may require. Disbursement of such loans will be at the entire discretion of the bank / financial institution / NBFC or any other body concerned and the Mutual Fund assumes no</p>

responsibility thereof.

The Pledgor will not be able to redeem Units that are pledged until the entity to which the Units are pledged provides a written authorisation to the Mutual Fund that the pledge / lien/ charge may be removed. As long as Units are pledged, the Pledgee will have complete authority to redeem such Units but not before the maturity of the Scheme. Dividends declared on Units under lien will be paid to the Unit Holder and not the lien holder unless specified otherwise in the lien letter.

For units of the Scheme held in electronic (Demat) form, the rules of Depository applicable for pledge will be applicable for Pledge/Assignment of units of the Scheme. Pledgor and Pledgee must have a beneficial account with the Depository. These accounts can be with the same DP or with different DPs.

Transferability of Units:-

The Units of the Scheme are not transferable except for Units held in dematerialized form. In view of the same, additions / deletions of names will not be allowed under any folio of the Scheme. However, the said provisions will not be applicable in case a person (i.e. a transferee) becomes a holder of the Units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production of such satisfactory evidence and submission of such documents, proceed to effect the transfer, if the intended transferee is otherwise eligible to hold the Units of the Scheme. The said provisions in respect of deletion of names will not be applicable in case of death of a Unit holder (in respect of joint holdings) as this is treated as transmission of Units and not transfer.

As the Units of the Scheme will also be issued in dematerialized form, the Units will be transferable through the Stock Exchange(s) on which the said Units are listed. The delivery instructions for transfer of Units will have to be lodged with the DP in the requisite form as may be required from time to time and transfer will be effected in accordance with such rules/regulations as may be in force governing transfer of securities in dematerialized form.

Suspension of Sale / Redemption of the Units:-

The Sale / Redemption of the Units may be temporarily suspended, on the stock exchange(s) on which the Units of the Scheme are listed, under the following conditions:

- During the period of Book Closure.
- During the period from the date of issue of the notice for fixing the record date for determining the Unit holders whose name(s) appear on the list of beneficial owners as per the Depositories (NSDL/CDSL) records for the purpose of redemption of Units on Maturity / Final Redemption date.
- In the event of any unforeseen situation that affects the normal functioning of the stock exchange(s).
- If so directed by SEBI.

	The above list is not exhaustive and may also include other factors.

CAS shall contain details relating to all the transactions carried out by the investors across all schemes of all mutual funds during the month and holding at the end of the month including transaction charges paid to the distributor. • The following shall be applicable with respect to CAS, for unit holders having a Demat Account:- <ul style="list-style-type: none"> - Investors having mutual funds investments and holding securities in Demat account shall receive a CAS from the Depository; - CAS shall be issued on the basis of PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis. - If there is any transaction in any of the Demat accounts or in any of the mutual fund folios of the investor, depositories shall send the CAS within ten days from the month end. In case there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis. - Investors will have an option not to receive CAS through the Depository. Investors who do not wish to receive CAS through the Depository can indicate their negative consent to the Depository and such Investors will receive CAS from AMC / the Fund. • Unit holders who do not have Demat account shall be issued the CAS for each calendar month on or before 10th of the immediately succeeding month in whose folio(s) transaction(s) has/have taken place during the month by physical form or email (wherever the investors have provided the email address). For the purpose of sending CAS, common investors across mutual funds shall be identified by their PAN; • As the CAS will be issued on the basis of PAN, the Unit holders

	<p>who have not provided their PAN will not receive CAS.</p> <ul style="list-style-type: none"> • Further, the CAS detailing holding across all schemes of all mutual funds at the end of every six months ended September 30 or March 31, shall be sent in physical form/email on or before tenth day of succeeding month to all such unit holders in whose folios transactions have not taken place during that period. The half-yearly CAS will be sent by email to the Unitholders whose email is available, unless a specific request is made to receive in physical. • In case of a specific request received from the Unitholders, the AMC will provide the account statement to the Unitholder within 5 Business Days from the receipt of such request. • If a Unitholder so requests, a non-transferable Unit certificate will be issued within 5 working days of the receipt of such request.
<p>Dividend</p>	<p>The Dividend warrants/cheque/demand draft shall be dispatched to the Unit holders within 30 days of the date of declaration of the Dividend. The Dividend proceeds will be paid by way of ECS / EFT / NEFT / RTGS / Direct credits/ any other electronic manner if sufficient banking account details are available with Mutual Fund for Investor.</p> <p>In case of specific request for Dividend by warrants/cheques/demand drafts or unavailability of sufficient details with the Mutual Fund, the Dividend will be paid by warrant/cheques/demand drafts and payments will be made in favour of the Unit holder (registered holder of the Units or, if there are more than one registered holder, only to the first registered holder) with bank account number furnished to the Mutual Fund.</p> <p>The dividend warrants/cheques/demand drafts will be sent by courier or (if the addressee city is not serviced by the courier) by registered post / UCP to the registered address of the sole / first holder as per the records of the Registrars. For the purpose of delivery of the dividend instrument, the dispatch through the courier / Postal Department, as the case may be, shall be treated as delivery to the investor. The AMC / Registrar are not responsible for any delayed delivery or non-delivery or any consequences thereof, if the dispatch has been made correctly as stated above.</p>
<p>Redemption</p>	<p>As the Scheme is closed ended scheme, investors will not be able to redeem their units during the tenor of the Scheme. Units under the Scheme will be compulsorily and without any further act by the Unit holder(s) redeemed on the Maturity Date of the Scheme. The redemption proceeds shall be dispatched to the unit holders within 10 working days from the Maturity Date of the Scheme.</p> <p>In case of investors holding units in dematerialised form, the maturity proceeds would be payable to investors as per the bank details provided in beneficiary position details received from depositories.</p>

Procedure for payment of maturity proceeds:

1. Resident Investors:-

Maturity proceeds will be paid to the investor through RTGS, NEFT, Direct Credit, Cheque or Demand Draft, as follows:-

- a) If investor has provided IFSC code in the application form, by default maturity proceeds shall be credited to Investor's bank account through RTGS / NEFT.
- b) If the Investor has not provided IFSC code but has a bank account with a bank with whom the Fund has an arrangement for Direct Credit, the proceeds will be paid through direct credit.
- c) If the Investor's bank account does not fall under a) and b) above the maturity proceeds will be paid by cheque or demand draft, marked "Account Payee only" and drawn in the name of the sole holder / first-named holder (as determined by the records of the Registrar). The bank name and bank account number of the sole/first holder as specified in the Registrar's records will be mentioned in the cheque / demand draft. The cheque / demand draft will be payable at the city, as per the bank mandate of the investor. The maturity proceeds will be sent by courier or (if the addressee city is not serviced by the courier) by registered post / UCP to the registered address of the sole / first holder as per the records of the Registrars. For the purpose of delivery of the maturity proceeds instrument, the dispatch through the courier / Postal Department, as the case may be, shall be treated as delivery to the investor. The AMC / Registrar are not responsible for any delayed delivery or non-delivery or any consequences thereof, if the dispatch has been made correctly as stated above.

The AMC reserves the right to change the sequence of payment from (a) to (c) without any prior notice.

2. Non-Resident Investors:-

For NRIs, Redemption proceeds will be remitted depending upon the source of investment as follows:

- (i) Repatriation basis: Where Units have been purchased through direct remittance from abroad or by cheque/ draft issued from proceeds of the Unit Holder's FCNR deposit or from funds held in the Unit Holder's Non Resident (External) account maintained in India the proceeds will be remitted to the Unitholder's bankers in India for crediting his/her NRE/FCNR bank account.
- (ii) Non-Repatriation basis: When Units have been purchased from funds held in the Unit Holder's non-resident (Ordinary)

	<p>account, the proceeds will be sent to the Unit Holder's Indian address / bankers for crediting to the Unit Holder's non-resident (Ordinary) account.</p> <p>For FIIs, the designated branch of the authorized dealer may allow remittance of net sale / maturity proceeds (after payment of taxes) or credit the amount to the Foreign Currency account or Non-resident Rupee account of the FII maintained in accordance with the approval granted to it by the RBI.</p> <p>The Fund will not be liable for any delays or for any loss on account of any exchange fluctuations, while converting the rupee amount in foreign exchange in the case of transactions with NRIs/ FIIs. The Fund may make other arrangements for effecting payment of Redemption proceeds in future.</p>
Delay in payment of redemption / repurchase proceeds	<p>As the Scheme is closed ended scheme, investors will not be able to redeem their units during the tenor of the Scheme. Units under the Scheme will be compulsorily and without any further act by the Unit holder(s) redeemed on the Maturity Date of the Scheme, subject to availability of all relevant documents and details. The maturity proceeds shall be dispatched to the unitholders within 10 Business days from the date of maturity. The AMC shall be liable to pay interest to the Unit holders @ 15% p.a. or such other rate as may be prescribed by SEBI from time to time, in case the maturity proceeds are not dispatched within 10 Business days from the date of maturity.</p> <p>However, the AMC shall not be liable to pay any interest or compensation in case of any delay in processing the maturity beyond 10 Business Days if the AMC/RTA is required to obtain from the Investor/Unit holders any additional details for verification of identity or bank details or such additional information under applicable regulations or as may be requested by a Regulatory Agency or any government authority, which may result in delay in processing the maturity.</p>

C. PERIODIC DISCLOSURES

<p>Net Asset Value</p> <p>This is the value per unit of the scheme on a particular day. You can ascertain the value of your investments by multiplying the NAV with your unit balance.</p>	<p>The AMC will calculate and disclose the NAV of the Scheme on all the Business Days. The NAV of the Scheme shall be published at least in two daily newspapers on daily basis in accordance with the Regulations. Notes:

1. Income distribution by mutual fund other than equity oriented mutual funds shall attract distribution tax under Section 115R of the Income-tax Act, 1961 (IT Act) at:

- In case income is distributed to individuals and Hindu Undivided Family (HUF): 28.84% (inclusive of surcharge @ 12% and education cess @ 3%) and;
- In case income is distributed to persons other than Individual and HUF: 34.608% (inclusive of surcharge @ 12% and education cess @ 3%).

2. Since the scheme would not qualify as equity oriented mutual fund, no securities transaction tax is payable by unit holder on purchase, sale or redemption of units by mutual fund.

3. Capital gains arising on transfer or redemption of units other than units of equity oriented funds (as defined under section 115T of the Act), after 10 July 2014, would be regarded as long term capital gains only if the units are held for a period of more than 36 months. In case of resident individuals and HUFs, where the total income as reduced by long-term capital gains, is below the basic exemption limit, the long-term capital gains will be reduced to the extent of the shortfall and only the balance long-term capital gains will be subjected to the 20 per cent tax.

4. Assuming that the total income in case of individuals/HUF/Association of Persons (AOP)/ Body of Individual (BOI) exceeds the basic exemption limit [(Rs. 500,000/- (Rupees Five Lakhs only) in case of resident individual of an age 80 years or more, Rs. 300,000/- (Rupees Three Lakhs only) in case of resident individual of an age of sixty (60) years or more but less than eighty (80) years and Rs. 250,000/- (Rupees Two Lakh Fifty Thousand only) in case of resident in India below sixty (60) years of age (including HUF, AOP/BOI)]

*The tax rate would be increased by a surcharge of:

- a) 7 per cent - in case of domestic corporate Unit Holders, where the total income exceeds Rs 10,000,000/- (Rupees One Crore only) but does not exceed Rs 100,000,000/- (Ten Crore Rupees).
- b) 12 per cent – in case of domestic corporate Unit Holders, where the total income exceeds Rs 100,000,000/- (Ten Crore Rupees)
- c) 12 per cent – in case of firms, local authority and co-operative societies, where total income exceeds Rs 10,000,000/- (One Crore Rupees).

	<p>d) 15 per cent – in case of Individuals/ Hindu Undivided Family (HUF)/ Association of People (AOP)/ Body of Individuals (BOI), where total income exceeds Rs 10,000,000/- (One Crore Rupees).</p> <p>Further, an additional surcharge of 3 per cent by way of education cess would be charged on amount of tax inclusive of surcharge for all Unit Holders.</p> <p>Tax rebate up to Rs 5,000 per annum would be available for resident individuals having total income up to Rs 500,000 (Rupees Five Lakhs).</p> <p>FOR FURTHER DETAILS ON TAXATION PLEASE REFER TO THE CLAUSE ON TAXATION IN THE SAI.</p>

D. COMPUTATION OF NAV

NAV of Units under the Scheme may be calculated by either of the following methods shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under the Scheme}}$$

Or

$$\text{NAV (Rs.)} = \frac{\text{Unit Capital} + \text{Reserves and Surplus}}{\text{No. of Units outstanding under the Scheme}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan/Option. The AMC will calculate and disclose the NAV of the Scheme on all the Business Days.

E. MANDATORY INFORMATION

As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account details in their applications for purchase/redemption of units, without which, the application will be treated as incomplete and is liable to be rejected by the Registrar/AMC. In case the Investment cheque attached with the application form is different from the Bank Mandate mentioned therein then the Investor needs to provide a cancelled cheque of the Bank account mentioned in the application form. For the convenience of the investors, the AMC offers multiple bank accounts registration facility. The investors may register multiple Bank Mandates in a single folio using a prescribed form, namely, "Multiple Bank Accounts Registration form", available on the Mutual Fund's website and also at the ISCs. An investor may register upto 5 bank accounts in case the investor is an individual/ HUF and upto 10 bank accounts in case the investor is a non-individual. For more details on multiple bank accounts registration, please refer SAI.

It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to comply with the Know Your Customers (KYC) requirements under the AML Laws. Applications from investors who have not complied with such KYC requirement will be rejected. For more details on KYC requirements, please refer SAI.

It is mandatory for all investors (including guardians, joint holders, NRIs and power of attorney holders) to provide their Income Tax Permanent Account Number (PAN) and also submit a photo copy of the PAN card issued to them by the Income Tax Department at the time of purchase of Units in the Scheme. For more details on the PAN requirements and exceptions available from such requirements, please refer SAI.

All investments in DHFL Pramerica Mutual Fund need to comply with the PAN and KYC requirements as stated above, failing which the applications are liable to be rejected. It is clarified that all categories of investors seeking exemption from PAN still need to complete the KYC requirements stipulated from time to time, irrespective the amount of investment.

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees marketing and advertising, Registrar expenses, printing and stationary, bank charges etc. In accordance with the provisions of SEBI Circular No. SEBI / IMD / CIR No.1 / 64057/ 06 dated April 04, 2006 and SEBI / IMD / CIR No. 4 /168230 / 09 dated June 30, 2009, the NFO expenses of the Scheme shall be borne by the AMC/Sponsors.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include the Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' Fee, marketing and selling costs etc. as given below:

- a) The maximum annual recurring expenses that can be charged to the Scheme, excluding issue or redemption expenses, whether initially borne by the mutual fund or by the AMC, but including the investment management and advisory fee shall be as follows:
 - On the first Rs. 100 Crores of the daily net assets – 2.25%;
 - On the next Rs. 300 Crores of the daily net assets – 2.00%;
 - On the next Rs. 300 Crores of the daily net assets – 1.75%;
 - On the balance of the assets – 1.50%.
- b) In addition to the annual recurring expenses stated in (a) above, the following costs or expenses may be charged to the Scheme:-
 - i. Brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. The brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 0.12 per cent for cash market transactions and 0.05 per cent in case of derivatives transactions. Any payment towards brokerage and transaction cost, over and above the said 0.12 per cent for cash market transactions and 0.05 per cent in case of derivatives transactions may be charged to the scheme within the maximum limit of annual recurring expenses as prescribed under (a) above. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC or by the trustee.
 - ii. Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by the Board from time to time are at least (i) 30 per cent of gross new inflows in the scheme, or (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

The expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities. Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the

scheme in case the said inflows are redeemed within a period of one year from the date of investment.

iii. Service tax on investment and advisory fees.

Within such total recurring expenses charged to the Scheme as above, the investment management and advisory fee (charged as a percentage of daily net assets) would be as decided by the AMC from time to time, provided that the investment management and advisory fee shall not exceed the aggregate of expenses charged under clause (a) above.

*Service tax on other than investment and advisory fees, if any, and the service tax on brokerage and transaction cost paid for execution of trade shall be borne by the scheme within the maximum limit of annual recurring expenses stated in (a) above.

In terms of SEBI circular no. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC shall annually set apart at least 0.02% on daily net assets within the maximum limit of recurring expenses as per Regulation 52 for investor education and awareness initiatives.

The maximum annual recurring expenses of the Scheme including the investment management and advisory fee (together with additional management fee wherever applicable) shall not exceed the limit stated in Regulation 52 read with aforesaid SEBI circular dated September 13, 2012, as explained above. Any excess over these specified ceilings would be borne by the AMC.

The Direct Plan under the Scheme shall have a lower expense ratio as compared to the Regular Plan. Commission/ Distribution expenses will not be charged in case of Direct Plan. The total expense ratio of Direct Plan will be lower by at least 5% than that of the Regular Plan. The Direct Plan shall also have separate NAV.

The AMC has estimated the following maximum expenses for the first Rs. 100 Crores of the daily net assets of the Scheme. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

The above expenses (including Investment Management and Advisory Fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations.

Illustration of impact of expense ratio on scheme's returns

If the investor has invested Rs. 10,000 on April 30, 2015 under Regular Plan of the Scheme and value of his investment is Rs. 11,000 on April 30, 2016, his return on investment is 10% p.a. which is net of expense ratio @ 2.25% p.a. His return on investment before charging expense @ 2.25% p.a. would be Rs. 11,225 i.e. 12.25% p.a.

The present illustration is calculated pursuant to the requirements of SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016. The purpose of an illustration is to purely explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments. Actual returns on your investment may be more, or less. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/ commission. The NAVs published by the AMC are net of scheme expenses and they reflects return on investment to investors, provided investment is not subject to exit load. Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time.

The load structure of the Scheme is as follows:

Entry Load – Not Applicable (Note:- The upfront commission on investment made by the investor, if any, shall be paid to the distributor (AMFI registered distributor/ARN Holder) directly by the investor, based on the investor's assessment of various factors including service rendered by the distributor.)

Exit Load – Nil.

Being a closed ended scheme, Units under the Scheme cannot be redeemed directly with the Fund until the Maturity Date. Investors shall note that the brokerage on sales of the units of the Scheme on the stock exchanges shall be borne by the investors.

D. TRANSACTION CHARGES:-

In accordance with SEBI Circular No. IMD/ DF/13/ 2011 dated August 22, 2011, with effect from November 1, 2011, the AMC/ Fund shall deduct a Transaction Charge on per purchase / subscription of Rs. 10,000/- and above, as may be received from new investors (an investor who invests for the first time in any mutual fund schemes) and existing investors. Such deduction shall be as under (provided the distributor has opted in to receive the transaction charges). Please note that the distributor shall have the option to opt in or opt out based on the type of the product):-

- For the new investor a transaction charge of Rs. 150/- shall be levied for per purchase / subscription of Rs. 10,000/- and above; and
- For the existing investor a transaction charge of Rs. 100/- shall be levied for per purchase / subscription of Rs. 10,000/- and above.

The transaction charge shall be deducted from the subscription amount and paid to the distributor and the balance amount (net of transaction charges) shall be invested. The transaction charges and the net investment amount and the number of units allotted will be clearly mentioned the Account Statement issued by the Mutual Fund. Distributors may choose to opt out of charging the transaction charge.

However, the Transaction charges shall not be deducted if:

- (a) The amount per purchases /subscriptions is less than Rs. 10,000/-;
- (b) The transaction pertains to other than purchases/ subscriptions relating to new inflows such as Switch/STP/ DTP, etc.
- (c) Purchases/Subscriptions made directly with the Fund through any mode (i.e. not through any distributor/agent).
- (d) Subscription made through Exchange Platform irrespective of investment amount.

Upfront commission to distributors shall continue to be paid by the investor directly to the distributor by a separate cheque based on his assessment of various factors including the service rendered by the distributor.
