## I INTRODUCTION

### A. RISK FACTORS

#### Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the scheme can go up or down depending on various factors and forces affecting capital markets and money markets.
- Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee the future performance of the Scheme.
- The Scheme does not in any manner indicate its quality or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.1.00 Lac made by it towards setting up the Mirae Asset Mutual Fund.
- The present scheme is not a guaranteed or assured return scheme. In addition, the scheme does not guarantee or assure any dividend and also does not guarantee or assure that it will make any dividend distribution, though it has every intention to make the same in the dividend option. All dividend distributions will be subjected to the investment performance of the Scheme.

#### Scheme Specific Risk Factors

##### Risks Associated with Debt & Money Market Instruments

- **Price-Risk or Interest-Rate Risk:**

From the perspective of coupon rates, debt securities can be classified in two categories, i.e., Fixed coupon bearing securities and Floating coupon bearing securities. In Fixed coupon bearing

securities, the coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the floating coupon bearing securities, on the other hand, the coupon rate changes –‘floats’ – with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury bill.

Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system and liquidity. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

- **Credit Risk:**

- **Default Risk**

Securities carry a risk of repayment of principal or interest by the borrower. This is called as default risk. The default risk depends on micro economic factors such as financial soundness and ability of the borrower and macro-economic factors such as industry performance, competition, trade barriers etc.

- **Downgrade Risk**

It is the risk that credit rating agency downgrades the rating of an issuer based on earnings and cash flows generating capacity. The credit rating migration of issuance leads to increase in the credit spread and thus reduces the price of corporate bond.

- **Spread Risk**

Though the sovereign yield curve might remain constant, investments in corporate bonds are exposed to the risk of spread widening between corporate bonds and gilts. Typically, if this spread widens, the prices of the corporate bonds tend to fall and so could the NAV of the Debt Schemes. Similar risk prevails for the investments in the floating rate bonds, where the benchmark might remain unchanged, but the spread over the benchmark might vary. In such an event, if the spread widens, the price and the NAV could fall.

- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event it has to meet an inordinately large number of redemption or of restructuring of the Scheme’s investment portfolio. The inability of the Portfolio to make purchases in intended securities due to settlement problems could cause the Portfolio to miss certain investment opportunities.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

- **Regulatory Risk:** The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation, and other developments in the laws and regulations.
- **Concentration Risk:** The Scheme portfolio may have higher exposure to a single sector, subject to regulatory limit, depending upon availability of issuances in the market at the time of investment, resulting in higher concentration risk. Any change in government policy / business environment relevant to the sector may have an adverse impact on the portfolio.
- Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

#### **Risk associated with Unlisted Securities:**

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted domestic securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

### **B. RISK MITIGATION MEASURES**

#### **Concentration Risk**

The AMC will mitigate this risk by investing in sufficiently large number of issuers spread across the sectors so as to maintain optimum diversification and keep issuer/sector specific concentration risk relatively low.

#### **Liquidity Risk**

The Schemes will invest in debt instruments and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The Schemes will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.

#### **Risk of investing in unlisted securities**

As per SEBI guidelines, not more than 10% of the portfolio can be invested in unlisted securities. Rigorous due diligence is undertaken before any investments are made by the portfolio in unlisted securities, if any.

#### **Risks Associated with Debt & Money Market Instruments**

**Credit Risk** - The fund has a rigorous credit research process. There is a regulatory and internal cap on exposure to each issuer. This ensures a diversified portfolio and reduced credit risk in the portfolio.

### **C. REQUIREMENT OF MINIMUM NUMBER OF INVESTORS AND MINIMUM HOLDING BY SINGLE INVESTOR**

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated

period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

**Overview of Debt Markets in India**

Indian fixed income market, one of the largest and most developed in South Asia, is well integrated with the global financial markets. Screen based order matching system developed by the Reserve Bank of India (RBI) for trading in government securities, straight through settlement system for the same,

settlements guaranteed by the Clearing Corporation of India and innovative instruments like CBLO have contributed in reducing the settlement risk and increasing the confidence level of the market participants.

The RBI reviews the monetary policy six times a year giving the guidance to the market on direction of interest rate movement, liquidity and credit expansion. The central bank has been operating as an independent authority, formulating the policies to maintain price stability and adequate liquidity. Bonds are traded in dematerialized form. Credit rating agencies have been playing an important role in the market and are an important source of information to manage the credit risk.

Government (Central and State) is the largest issuer of debt in the market. Public sector enterprises, quasi government bodies and private sector companies are other issuers. Insurance companies, provident funds, banks, mutual funds, financial institutions, corporates and FPIs are major investors in the market. Government loans are available up to 30 years maturity. Variety of instruments available for investments including plain vanilla bonds, floating rate bonds, money market instruments, structured obligations and interest rate derivatives make it possible to manage the interest rate risk effectively.

Indicative levels of the instruments currently trading as on January 31, 2017 are as follows:

Instrument	Maturity	Tenure	Yield	Liquidity
CBLO / Repo	Short	Overnight	6.17	Very High
CP / CD / T Bills	Short	3 months CP	6.95	High

#### D. WHERE THE SCHEME WILL INVEST?

##### Debt & Money Market Instruments:

Debt securities and Money Market Instruments will include but will not be limited to:

- Securities created and issued by the Central and State Governments as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Debt securities of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
- Corporate debt (of both public and private sector undertakings).
- Term Deposits of banks (both public and private sector) and development financial institutions.
- Money market instruments permitted by SEBI/RBI or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.

- g. Certificate of Deposits (CDs).
- h. Commercial Paper (CPs). A part of the net assets may be invested in the Collateralized Borrowing & Lending Obligations (CBLO) or in an alternative investment as may be provided by RBI to meet the liquidity requirements.
- i. The non-convertible part of convertible securities.
- j. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
- k. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic SEBI registered credit rating agency authorized to carry out such activity, such as CRISIL, ICRA, CARE, FITCH, etc. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals.

The scheme may invest in repo/reverse repo in corporate bonds. The scheme shall not engage in short selling, credit default swaps and securities lending and borrowing. The scheme shall not invest in any unrated debt instruments and derivatives. The scheme will not advance any loans.

#### **Credit Evaluation Policy**

Credit risk management at MAMF is an independent function performed by the Risk Management (RM) team. The RM team sets up and monitors lending limits for each debt issuer. Issuer risk limits cover the quantum of exposure, maximum tenor and in some instances the type of instruments that can be purchased by the Investment Manager. An individual scheme's access to the issuer limit is dependent on its investment objectives, regulatory restrictions and assets under management. Risk limits for issuers are assigned and reviewed regularly at an internal investment Committee Meetings.

#### **Credit evaluation process:**

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The credit evaluation process includes analysis of the operating and financial strength of the issuer as well as management and industry risk evaluation. For structured obligations, in addition to the above, the evaluation also covers originator analysis, collateral analysis, structure analysis and embedded risk analysis. Each credit proposal is discussed by an internal Investment Committee and a limit is assigned, if the issuer/structure is suitable. The AMC will also be guided by the ratings of Rating Agencies approved by SEBI for this purpose.

#### **E. WHAT ARE THE INVESTMENT STRATEGIES?**

The Scheme will invest across debt securities and money market instruments.

The investment strategy of this scheme aims to optimize risk adjusted returns through an active management of the portfolio. The Scheme is a medium to long-term investment option that provides the flexibility to respond to continuously changing market scenario by actively managing its portfolio in line with the evolving interest rate scenario. During periods when interest rates are expected to decline, the duration of the portfolio may be increased and during periods when interest rates are expected to harden, duration of the portfolio may be decreased. Similarly, when spreads on corporate bonds are expected to contract, proportion of corporate bonds in portfolio may be increased and vice-versa. The objective of this active management is to thereby improve on returns as compared to a less active portfolio. The interest rate risk/duration risk of the scheme may change substantially depending upon the outlook on

interest rates and other factors like steepness of yield curve and bond spreads. Such outlook will be developed by assessment of various macro factors like economic growth, inflation, credit pick-up, liquidity and other such factors as considered relevant.

Credit portfolio management will be primarily guided by external credit ratings assigned by any of the recognized credit rating agency. The credit quality of the portfolio will be continuously monitored using in-house research capabilities as well as inputs from external sources including independent credit rating agencies.

The investment team will primarily use a top down approach for taking interest rate view, sector allocation along with a bottom up approach for security/instrument selection.

The bottom up approach will assess the quality of security/instrument (including the financial health of the issuer) as well as the liquidity of the security.

Investments in debt instruments carry various risks such as interest rate risk, reinvestment risk, credit risk and liquidity risk etc. Whilst such risks cannot be eliminated, they may be minimized through diversification.

Risk is an inherent part of the investment function. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objective of the Scheme and provisions of SEBI (MF) Regulations. AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. The risk control process involves identifying & measuring the risk through various Risk Measurement Tools like but not limited to calculating risk ratios, tracking error etc. The AMC has implemented Quantis as the Front Office and Settlement System (FOS). The system has incorporated all the investment restrictions as per SEBI guidelines and “soft” warning alerts at appropriate levels for preemptive monitoring. The system enables identifying & measuring the risk through various risk measurement tools like various risk ratios, average duration and analyzes the same so as to act in a preventive manner.

The risk control measures for managing the debt portion of the scheme are:

1. Monitoring risk adjusted returns performance of the fund with respect to its peers and its benchmark.
2. Tracking analysis of the fund on various risk parameters undertaken by independent fund research / rating agencies or analysts and take corrective measures if needed.
3. Interest rate risk is a function of the maturity profile or the tenure of the security in the portfolio. This is proactively monitored by managing average maturity in line with our view on the market.
4. Credit analysis plays an important role at the time of purchase of bond and then at the time of regular performance analysis. Our internal research anchors the credit analysis. Sources for credit analysis include Capital Line, CRISIL, ICRA updates etc. Debt ratios, financials, cash flows are analysed at regular intervals to take a call on the credit risk.
5. We have different maturity buckets for corporate bonds. By being in different maturity buckets, we avoid concentration of the portfolio in a maturity bucket. We define individual limits for G Sec, money market instruments, MIBOR linked debentures and corporate bonds exposure, for diversification reasons.

The Scheme does not propose to underwrite issuances of securities of other issuers. There will be no exposure to securitized debt securities in the portfolio.

### **Policy for Investment decisions**

The investment policy of the AMC has been determined by the Investment Committee (“IC”) which has been ratified by the Boards of the AMC and Trustee. At the strategic level, the broad investment

philosophy of the AMC and the authorized exposure limits are spelt out in the Investment Policy of the AMC. During trading hours, the Fund Managers have the discretion to take investment decisions for the Scheme within the limits defined in the Investment Policy, these decisions and the reasons thereof are communicated to the CEO for post facto approval.

The designated Fund Manager(s) of the Scheme will be responsible for taking day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

### Portfolio Turnover Policy

Portfolio turnover is defined as the aggregate value of purchases or sales as a percentage of the corpus of a scheme during a specified period of time. The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy.

However, during volatile market conditions, the fund manager has the flexibility to churn the portfolio actively to optimize returns keeping in mind the cost associated with it.

## F. FUNDAMENTAL ATTRIBUTES

Following are the fundamental attributes of the scheme, in terms of Regulation 18(15A) of the SEBI (MF) Regulations:

### (i) Type of Scheme:

An Open-ended Income Scheme

### (ii) Investment Objective:

**Investment Objective:** The objective of the Scheme is to generate optimal returns through active management of a portfolio of debt and money market instruments. However, there is no assurance that the investment objective of the Scheme will be realized and the Scheme does not assure or guarantee any returns.

### Asset allocation:

Types of Instruments	Indicative allocation (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Money market instruments & Debt securities at the time of investment.	0	100	Medium

In the event of deviations, portfolio rebalancing will be carried out within 30 calendar days.

### (iii) Terms of Issue:

#### (a) Listing:

The Scheme being open ended, the Units are not proposed to be listed on any stock

exchange and no transfer facility is provided.

(b) **Redemption of Units:**

The Unit Holder has the option to request for Redemption either in amount in rupees or in number of Units. The minimum redemption amount shall be 'any amount' or 'any number of units' as requested by the investor at the time of redemption request.

**Redemption Price:**

The Redemption Price of the Units is the price at which a Unit Holder can redeem Units of a scheme. It will be calculated as described below:

Redemption Price = Applicable NAV - (Applicable NAV x Exit Load\*)

\* Exit Load, whatever is applicable, will be charged.

Redemption Price will be calculated for up to four decimal places for the Scheme.

For example, if the Applicable NAV of a Scheme is Rs.10.5550, and it has a 2% Exit Load, the Redemption Price will be calculated as follows:

Redemption Price = 10.5550 - (10.5550 X 2.00%) i.e. 10.4550 - 0.2110 = 10.3440

If the Scheme has no Exit Load, the Redemption Price will be equal to the Applicable NAV.

The Securities Transaction Tax levied under the Income Tax Act, 1961, at the applicable rate on the amount of redemption will be reduced from the amount of redemption.

**To illustrate:**

If a Redemption of 4,900 units is sought by the Unit Holder at a Redemption Price of Rs. 10.3440 (as calculated above), the redemption amount is Rs. 50,685.60. Securities Transaction Tax (STT) for instance is 0.001%. This will be further reduced by the STT of Re. 0.50 (i.e. Rs. 50,685.60 x 0.001%), making the net redemption amount Rs. 50,685.10.

If a Redemption of Rs. 10,000 is sought by the Unit Holder at a Net Redemption Price of Rs. 10.3440 (as calculated above), which will give 966.744 Units; the effective redemption amount will be grossed up to Rs. 10,204.08 (i.e. 10,000 ÷ (1-2%)) and 966.744 units (10,204.08 ÷ 10.555) will be redeemed. This is to ensure that the Unit Holder receives the net amount of Rs. 10,000 as desired.

Investors may note that the Trustee has a right to modify the existing Load structure in any manner subject to a maximum as prescribed under the Regulations and with prospective effect only.

Please refer section – LOAD STRUCTURE.

Applicable NAV for Redemption / Switch-Out / Systematic Transfer Plan:

- In respect of valid Redemption applications accepted at a Designated Collection Centre up to 3 p.m. on a Business Day, the NAV of such day will be applicable.
- In respect of valid Redemption applications accepted at a Designated Collection Centre after 3 p.m. on a Business Day, the NAV of the next Business Day will be applicable.

(c) Aggregate fees and expenses charged to the scheme:

For detailed fees and expenses charged to the scheme please refer to section 'Fees and Expenses'.

- (d) The Scheme does not provide any safety net or guarantee to the investors. There is no assurance OR guarantee of returns.

**Change in the fundamental attributes of the Schemes:**

In accordance with Regulation 18(15A) of the Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme or the Fund or the fees and expenses payable or any other change which would modify the Scheme and affect the interest of the Unit Holders will be carried out unless:

- A written communication about the proposed change is sent to each Unit Holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a Marathi daily newspaper with wide circulation published in Mumbai (as the head office of the Fund is situated there); and
- The Unit holders are given an option to exit for a period of 30 days to exit at the prevailing Net Asset Value without any exit Load.

Fundamental attributes will not cover changes to the Scheme made in order to comply with changes in regulation with which the Scheme has been required to comply.

**G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?**

The performance of the scheme will be benchmarked to the performance of the CRISIL Composite Bond Fund Index.

**Rationale for adoption of benchmark:**

CRISIL Composite Bond Fund Index seeks to track the performance of a debt portfolio that includes government securities and AAA/AA rated corporate bonds.

The Scheme proposes to have an active portfolio management strategy where average maturity of the portfolio can vary significantly depending on the outlook of market conditions. Accordingly, to reflect the dynamic nature, the chosen benchmark is an appropriate benchmark for the Scheme.

The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

### **Participation in Repo in Corporate Debt**

In accordance with SEBI Circulars No. CIR/IMD/DF/19/2011 dated November 11, 2011 and CIR/IMD/DF/23/2012 dated November 15, 2012 on 'Participation of mutual funds in repo in corporate debt securities', Mirae Asset Mutual Fund shall participate in repo transactions in Corporate Debt Securities within the following overall framework, as per the guidelines of Securities and Exchange Board of India and Boards of Mirae Asset Trustee Co Pvt. Ltd & Mirae Asset Global Investments (India) Pvt. Ltd.

### **(A) Gross Exposure Norms**

(i) The gross exposure of the scheme to ‘corporate bonds repo transactions’ shall not be more than 10% of the net assets of the concerned scheme. (ii) The cumulative gross exposure through ‘corporate bonds repo transactions’ along with equity, debt and derivatives shall not exceed 100% of the net assets of the scheme. (iii) In addition to investment restrictions specified in SEBI (Mutual Funds) Regulations 1996, the counter-party exposure in a scheme, considering the investments held in the debt securities and value of collaterals held through repo transactions (as a lender), shall not be more than 12% in case of money market instruments and debt instruments.

### **(B) Category of the counter-party to be considered for making investment**

All entities eligible for transaction in corporate debt repos, as defined by Reserve Bank of India (RBI) and SEBI, shall be considered for repo transactions.

### **(C) Credit Rating of Counterparty to be considered for making investment**

The scheme/s shall carry out repo transactions with only those counterparties, who have a credit rating of ‘AA- and above’ (Long term rating) or ‘A1+’ (Short term rating).

### **(D) Tenor of Repo**

As a repo seller, the scheme/s can borrow for a period not more than six months as per the existing Regulation 44(2) of the SEBI (Mutual Funds) Regulations, 1996. As a repo buyer, the scheme/s can lend for a maximum period of one year, subject to provision/s of the Scheme Information Document (SID).

### **(E) Tenor and Credit Rating of the Collateral**

The scheme/s shall participate in repo transactions in Corporate Bonds rated ‘AA+’ (‘A1+’ in respect of money market instruments). The tenor of the collateral shall not be more than 10 years.

### **(F) Minimum Haircut**

In terms of RBI guidelines, repo transactions shall be subject to the following minimum haircuts:-

<b>Rating of the Security</b>	<b>AAA</b>	<b>AA+</b>	<b>AA</b>
<b>Minimum Haircut</b>	7.50%	8.50%	10%

The above are minimum stipulated haircuts where the repo period is overnight or where the re-margining frequency (in case of longer tenor repos) is daily. In all other cases, Fund Manager may adopt appropriate higher haircuts.

Depending on the market conditions and risk perceptions, the Fund Manager may seek higher haircut (while lending) or give a higher haircut (while borrowing).

### **(G) Risk factors and mitigation measures**

#### **1) Illiquidity Risk**

The repo market for corporate debt securities is over the counter (OTC) and illiquid. Hence, repo obligations cannot be easily sold to other parties. Therefore, to mitigate such risks, it has been stipulated that gross exposure to Repo in corporate bonds would be limited to 10% of net assets of the concerned scheme. Further, the tenor of repo would be taken based on nature and unit holders’ pattern of the scheme.

#### **2) Counter-party risk**

Credit risk would arise if the counter-party fails to repurchase the security as contracted or if counterparty fails to return the security or interest received on due date. To mitigate such risks, the schemes shall carry out repo transactions with only those counterparties, which has a credit rating of 'A1+' or 'AA- and above'. In case of lending of funds as a repo buyer, minimum haircuts on the value of the collateral security have been stipulated, and we would receive the collateral security in the scheme's account before the money is lent to the counter-party. Overall, we would have a limited number of counter-parties, primarily comprising of Mutual Funds, Scheduled Commercial banks, Financial Institutions and Primary dealers. Similarly, in the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter-party may hurriedly dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the Scheme. Thus, the Scheme may suffer losses in such cases. Sufficient funds flow management systems are in place to mitigate such risks.

### 3) Collateral Risk (as a repo buyer)

Collateral risks arise due to fall in the value of the security (change in credit rating and/or interest rates) against which the money has been lent under the repo arrangement. To mitigate such risks, we have stipulated the minimum credit rating of the issuer of collateral security.

('AA' for long-term instruments/A1+ for money market instruments), maximum duration of the collateral security (10 years) and minimum haircuts on the value of the security.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-à-vis limiting exposure to a particular scrip or sector etc.

In case of Post Dated Cheques the date of the first cheque shall be dated on or before the date of submission</p>	

of the application form while the remaining cheques (minimum 5 in case of Monthly or 3 in case of Quarterly option) shall be post-dated cheques (dated uniformly either the 1st, 10th, 15th 21st or 28th of a month or quarter).

The first installment of the SIP will be processed subject to applicable NAV on the date of submission on any Business Day. The second installment in case of monthly SIP will be processed on the available SIP dates (currently 1st, 10th, 15th, 21st or 28th of every month) indicated by the investor, after a gap of 25 to 30 calendar days from the date of processing of the first SIP. However, if the amount of SIP is Rs.2 lakhs and above, the units will be allotted subject realization of funds from the investors account.

If the choice of date for the second installment is not indicated by the investor, the second installment of SIP will be by default processed on the 10th of the month. In case of quarterly SIP, the default date for next installment will be 10th of the relevant month. If any of above dates falls on a holiday/non-business day, the transaction will be taken as of the next Business Day. At the time of registration of SIP, if the 'default' end date is not mentioned by the investor, it will be registered for a default period upto 31st December 2099". The SIP installments shall continue until 31st December, 2099 unless the investor instructs Mirae Asset Mutual Fund to discontinue the SIP. If there is an ambiguity in the enrolment period of the SIP, the second installment of SIP will be by default processed for the SIP date chosen (10th of the month if not specified) for a default period of 12 months.

- An extension of an existing SIP will be treated as a new SIP on the date of such application, and all the above conditions need to be met with. The load structure prevailing at the time of submission of the SIP application (whether fresh or extension) will apply for all the installments indicated in such application.
- Termination of SIP - For discontinuation of SIP the unit holder / investor should intimate the AMC / ISC at least 15 working days prior to the due date of next cheque / installment (1st, 10th, 15th, 21st or 28th of every month / quarter). On such request, SIP will be terminated and the balance post-dated cheques will be returned to the investor or the debit instruction given by the investor under ECS or Direct Debit will be cancelled.
- In case of cancellation of a SIP or cheques returned un-cleared for SIP installments or payment instructions not honored, the AMC may reduce the number of Units allotted against the previous installments. As part of the process, units are automatically allotted as per the SIP date(s) (1st, 10th, 15th, 21st and 28th) and the credit is then checked for the units such allotted; post the status report received for ECS debits to the SIP investor account. Where the credit has not been received or the transaction is a failure transaction, the units so allotted will be reversed/reduced for that particular transaction. However, this process will not be applicable for such SIPs where each SIP amounts to Rs. 2 lakhs and above since the units are allotted only subject to realization of funds from the investors account.
- Any Unit Holder can avail of this facility subject to certain terms and conditions detailed in the Application Form.

**(ii) Systematic Withdrawal Plan:**

This facility enables the Unit Holders to withdraw sums from their Unit accounts in the Scheme at periodic intervals through a one-time request. The withdrawals will commence from the Start Date mentioned by the Unit Holder in the Application Form for the facility. A minimum period of 7 days shall be required for registration under SWP. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. However, if any of the dates on which the redemption is sought is a non-Business Day, the Units will be redeemed at the Applicable NAV of the next Business Day.

**Options available:**

Investors can withdraw fixed amount on 1st or 10th or 15th or 21st or 28th of each month / quarter for minimum 12 months / 4 quarters. By default, in case of any ambiguity in selection of withdrawal frequency, the SWP date will be 10th of each month.

In case of Fixed Withdrawal, if the amount of installment is more than the amount available in that account for redemption, the entire available amount will be redeemed and the SWP will terminate automatically.

**Appreciation withdrawal:** Investors can withdraw for a minimum appreciation of Rs.1000/- and more at regular intervals. If the appreciation amount is less than Rs. 1000/- or the specified amount, there will be no SWP in that month / quarter. The cumulative appreciation of this period and the immediately succeeding period shall be paid out subject to it being a minimum of Rs.1000/- or the specified amount.

In case of Appreciation Withdrawal, appreciation will be calculated on the units available for redemption at the time of the SWP installment. Investors can withdraw appreciation on the 1st of each month / quarter for minimum of 12 months / 4 quarters.

SWP is not available for investments under lock-in period and for investments which are pledged.

The SWP payouts will be processed at the requested frequency. The investor can opt for direct credit of the redemption proceeds to their bank accounts. AMC / MF will endeavor to credit the payout directly to that bank account through available electronic mode(s) (ECS/Direct Credit). The AMC/MF shall not be responsible if payout through electronic mode(s) (ECS/Direct Credit) does not get affected due to incomplete or incorrect information or any other technical /operational reasons. The AMC / MF reserve the right to use any other mode of payment as deemed appropriate, however the preferred mode will always be NEFT/RTGS.

**(iii) Systematic Transfer Plan (STP)**

This facility will be available to the investors during the On-going Offer period.

This facility enables Unit Holders to transfer fixed sums from their Unit accounts in the Scheme to the existing schemes or other schemes launched by the Fund from time to time. The transfer will commence from the date mentioned by the Unit Holder in the Application Form for the facility. A minimum period of 7 days shall be required for registration under STP. The Units will be allotted / redeemed at the Applicable NAV of the respective dates of the Scheme on which such transfers are sought from the Scheme. In case the day on which the transfer is sought is a non-Business Day for the Scheme, then the application for the facility will be deemed to have been received on the immediately following Business Day.

STP facility will be available in all the existing schemes and shall allow the funds to move from one scheme to another scheme.

**Details of STP:**

Frequency of STP	STP dates	Minimum amount*	Min. no. of STP required
Daily	Monday to Friday	Rs. 1000/-	5
Weekly	Every Wednesday	Rs. 1000/-	6
Fortnightly	Every Alternate Wednesday	Rs. 1000/-	6

Monthly	1 <sup>st</sup> , 10 <sup>th</sup> , 15 <sup>th</sup> , 21 <sup>st</sup> and 28 <sup>th</sup>	Rs. 1000/-	6
Quarterly	1 <sup>st</sup> , 10 <sup>th</sup> , 15 <sup>th</sup> , 21 <sup>st</sup> and 28 <sup>th</sup>	Rs. 1500/-	4

\*Investors may please note, that the minimum amount of installment for STP to Mirae Asset Tax Saver Fund, will be Rs. 500/- and in multiples of Rs. 500/- thereafter.

Each STP Installment 'OUT' to / of Mirae Asset Tax Saver Fund (an Open Ended Equity Linked Saving Scheme), will be subject to a lock- in period of three years from the date of allotment of Units proposed to be redeemed. Hence, Mirae Asset Tax Saver Fund shall act as Source Scheme for STP post completion of the said lock-in period.

STP is not available for investments under lock-in period and for investments which are pledged.

- In case of insufficient balance, the transfer will not be affected.
- Default Dates: In case of any ambiguity in selection of transfer date, the STP date will be 10th of each month / quarter.

Methodology:

At the LAST installment, the system will check for the Available Market Value in the Transferor Scheme with "STP Amount":

If "Available Market Value in the Transferor Scheme" is more than "2 x STP Amount", then only STP amount will be transferred and the balance amount will remain in the Transferor Scheme.

If "Available Market Value in the Transferor Scheme" is less than "2 x STP Amount", the entire Available Market Value in the Transferor Scheme will be switched out and the STP for the particular investor will be ceased.

Example: If an investor does a 12 month STP for Rs.6,000/- (Rs.500/- per STP) then,

1. If at the time of last STP, the Available Market Value in the Transferor Scheme is less than Rs.2,000/- the full amount in Transferor Scheme will be transferred.
2. If at the time of last STP, the Available Market Value in the Transferor Scheme is greater than Rs.2,000/- only STP Amount of Rs.500 will be transferred.

**(iv) MIRAE ASSET VARIABLE TRANSFER PLAN (VTP):**

Mirae Asset VTP is a facility wherein unit holder(s) of designated open-ended Scheme(s) of Mirae Asset Mutual Fund can opt to transfer variable amount(s) linked to value of investments under VTP on the date of transfer at per-determined intervals from designated open-ended Scheme(s) of Mirae Asset Mutual Fund (Transferor Scheme) to the designated open-ended Scheme(s) of Mirae Asset Mutual Fund (Transferee Scheme).

VTP facility will be available in all the existing schemes and shall allow the funds to move from one scheme to another scheme.

**Details of VTP:**

Frequency of VTP	VTP dates	Minimum amount*	Min. no. of VTP required
Daily	Monday to Friday	Rs. 1000/-	6
Weekly	Every Wednesday	Rs. 1000/-	6
Fortnightly	Every Alternate Wednesday	Rs. 1000/-	6
Monthly	1 <sup>st</sup> , 10 <sup>th</sup> , 15 <sup>th</sup> , 21 <sup>st</sup> and 28 <sup>th</sup>	Rs. 1000/-	6
Quarterly	1 <sup>st</sup> , 10 <sup>th</sup> , 15 <sup>th</sup> , 21 <sup>st</sup> and 28 <sup>th</sup>	Rs. 1500/-	4

\*Investors may please note, that the minimum amount of installment for VTP to Mirae Asset Tax Saver Fund, will be Rs. 500/- and in multiples of Rs. 500/- thereafter.

Each VTP Installment 'OUT' to / of Mirae Asset Tax Saver Fund (an Open Ended Equity Linked Saving Scheme), will be subject to a lock- in period of three years from the date of allotment of Units proposed to be redeemed. Hence, Mirae Asset Tax Saver Fund shall act as Source Scheme

for VTP post completion of the said lock-in period.

**Following are the features of Variable Transfer Plan (VTP):**

- Under the Variable Transfer Plan, unit holders will be eligible to transfer: Fixed Amount per installment OR the amount as determined by the following formula:- [(Fixed amount to be transferred per installment X number of installments including the current installment) - market value of the investments through Variable Transfer Plan in the Target Scheme on the date of transfer] whichever is higher, on the date of transfer.
- The first VTP installment will be processed basis the fixed installment amount specified by the unit holder at the time of enrollment. From the second VTP installment onwards, the transfer amount shall be computed as per formula stated above.
- The minimum unit holder's account balance or a minimum amount of application at the time of Variable Transfer Plan enrollment in the Source Scheme should be Rs.25,000/-.
- In case of VTP - Daily, Weekly and Fortnightly Interval, the commencement date shall be within 7 business days from the date of receipt of a valid request.
- For Daily, Weekly, Monthly, Fortnightly or Quarterly VTP falling on a Friday or on any business day where the next day is a non-business day, the NAV applicable shall be the Transaction date i.e. before 3.00 p.m. for both source and the target scheme.
- In order to discontinue the facility, a written request must be submitted at least 7 business days prior to the next applicable transfer date for Daily/Weekly/Fortnightly/Monthly/Quarterly frequency.
- The new facility introduced under the scheme will have the same investment objective, portfolio, liquidity and expense ratio as that of the prevailing plans of the respective schemes.
- Unit holder is free to choose the frequency of such transfers.

**Example of Calculation of Installment of Variable Transfer Plan:**

Source Scheme: Mirae Asset Savings Fund

Target Scheme: Mirae Asset Emerging Bluechip Fund

Suppose an investor chose a monthly VTP option from Mirae Asset Savings Fund to Mirae Asset Emerging Bluechip Fund of amount Rs.5000/- and he has already transferred three installments upto date August 1, 2015.

Total units allotted upto the date of last installment i.e. August 1, 2015 is assumed as 1400. The NAV of Mirae Asset Emerging Bluechip Fund - Growth Option on September 2015 is assumed as Rs.9.50 - per unit.

So the market value of investment on the date of transfer is 13,300 (1400 x 9.5). The next installment as per the VTP will be calculated as per the following formulae: Higher of the following, Fixed Amount to be transferred per installment (Rs.5,000/-) OR [(Fixed Amount to be transferred per installment \* Number of Installment including current installment) - Market Value of Target Scheme] = (Rs.5000\*4) - 13,300 = Rs.6,700/-. So Rs.6,700/- will be transferred under the VTP.

**(v) Inter-scheme Switching**

The Transaction Slip can be used by investors to make inter-scheme switches (during the NFO Period and the ongoing offer period) within the Fund. All valid applications for switch-out shall be treated as Redemption and for switch-in as Purchases with the respective Applicable NAVs of the Scheme / option.

**(vi) Intra-scheme Switching**

Investors can switch between different options under the same Plan of the Scheme, at the Applicable NAV. All valid applications for switch-out shall be treated as Redemption and for

switch-in as Purchases with the respective Applicable NAVs of the option. As per current Load structure, no Entry or Exit Loads will be charged for intra-scheme switching. However, AMC may change the loads prospectively as indicated in section on LOAD STRUCTURE FOR THE SCHEME in this SID.

**(vii) Folio Number**

Unless otherwise requested by the Unit Holder, a single folio number may be assigned if an investor invests in different schemes of the Fund, and a consolidated account statement will then be provided for investments in all the schemes.

**(viii) Fractional Units**

Since a request for Purchase or Redemption is generally made in rupee amounts and not in terms of a fixed number of Units of the Scheme, an investor may be left with fractional Units. Fractional Units will be computed and accounted for up to four decimal places for the Scheme. Investors are requested to note that if the unit balance after redemption of units in a folio is less than or equal to 25 units and is identified at the time of processing such request, the AMC reserves the right to redeem such fractional units along with the redemption request received. However, there may be certain cases where such balance units in certain folios may not be redeemed at the time of processing of redemption request made by the investor(s), in such cases, as part of the review process, the Trustees authorize the AMC to suo-moto redeem such fractional balance units, on periodic basis.

**(ix) Consolidation of folios**

In case an investor holds investments in multiple folios under the Fund, the AMC reserves the right to consolidate all the folios belonging to the same investor into one folio.

**(x) Transaction through electronic mode**

The AMC may from time to time offer various facilities to the unit holders through electronic mode such as internet, mobile phones, Kiosk, etc. to facilitate transactions in units of the scheme. The AMC may enter into such arrangements / agreements as it may deem fit to give effect to the above.

However, investors intending to take benefit of these facilities should note that they should use these services at their own risk. The Fund, the AMC, the Trustee, along with its directors, employees and representatives shall not be liable for any damages or injuries arising out of or in connection with the use of internet, mobile phones, Kiosk, etc. or its non-use including, without limitation, non-availability or failure of performance, loss or corruption of data, loss of or damage to property (including profit and goodwill), work stoppage, computer failure or malfunctioning, or interruption of business; error, omission, interruption, deletion, defect, delay in operation or transmission, computer virus, communication line failure, unauthorized access or use of information.

## D COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

NAV of Units under the Options there under can be calculated as shown below:

$$\text{NAV} = \frac{(\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses})}{\text{No. of Units outstanding under the Scheme/Option.}}$$

The NAV of the Units will be calculated and announced at the close of each working day. The NAVs of the Scheme will be computed and units will be allotted upto 4 decimals.

The NAV calculated as above will be published in two newspapers on a daily basis, by way of press release / advertisement.

Computation of NAV will be done after taking into account dividends paid, if any, and the distribution tax thereon, if applicable. Therefore, once dividends are distributed under the Dividend Option, the NAV of the Units under the Dividend Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

NAVs will be rounded off upto 4 decimal places, the valuation of the Schemes' assets and

calculation of the Schemes' NAVs shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Please note that Repurchase price = NAV less Exit load. If exit load is charged, the repurchase price shall be calculated after adjusting the exit load applicable to such units. The exit load (net off service tax, if any, payable in respect of the same) shall be credited to the Scheme of the Fund.
