SECTION II. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down. As with any investment in stocks, shares and securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Principal Asset Allocation Fund of Funds is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor or any of its associates including co-settlers are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 25 lakhs made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme

Scheme Specific Risk Factors:

- The Scheme/Plan will invest in a combination of Equity, Debt/Liquid Mutual Fund schemes and gold based ETFs. Hence, the performance of the Scheme/Plan would depend upon the performance of underlying schemes.
- Investments in the underlying schemes, which also consist of equity funds, will have all the risks associated with investments in equity markets.
- Investments in Debt/Liquid Schemes will have all the risks associated with the debt markets including Interest Rate Risk, Credit Risk, Liquidity Risk and Reinvestment Risk.
- To the extent the underlying Debt/Liquid Schemes/Equity Schemes make investment in overseas financial assets, there may be risk associated with currency movements, restriction on repatriation and transaction procedures in overseas markets.
- To the extent the underlying Debt/Liquid Schemes/Equity Schemes engage in security lending, the Scheme/Plan will be subject to risks related to fluctuations in collateral value/ settlement/liquidity/counter party.
- To the extent the underlying Debt/Liquid Schemes/Equity Schemes are permitted to invest in derivative instruments the Scheme/Plan is exposed to the high risk, high return derivative instruments.
- If underlying scheme declares any day as a non-business day, AMC may also declare that day as a non-business day for this Scheme. However, if this information is received by the AMC from underlying scheme later in the day and the Scheme/Plan has already accepted transactions, such transactions will be processed on the next business day.
- While it would be the endeavour of the Fund Manager of the Scheme/Plan to invest in the target schemes in a manner, which will seek to maximize returns, the performance of the underlying funds may vary which may lead to the returns of the Scheme/Plan being adversely impacted.
- The performance of the Scheme/Plan may be affected by changes in Government policies, general levels of interest rates and risk associated with trading volumes, liquidity and settlement systems in equity and debt markets.
- This being a Fund of Funds Scheme, the investors are bearing the recurring expenses of the Scheme/Plan in addition to the expenses of the other underlying schemes in which the Scheme/Plan makes investments.
- The scheme specific risk factors of each of the underlying schemes become applicable since the Scheme/Plan invests in the underlying scheme. Investors who intend to invest in the Scheme/Plan are required to / and are deemed to have read and understood the risk factors of the underlying schemes relevant to the Scheme/Plan that they invest in.

Risk Associated with Investing in Equities & Units of Equity Mutual Fund Schemes (applicable where the asset allocation pattern of the Scheme provides such investment)

- The value of Scheme's / Plan's investments may be affected by factors affecting the Securities markets and price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies if the Government, taxation laws and political, economic or other developments which may have an adverse bearing on

individual securities, a specific sector or all sectors. Consequently, the NAV of the units of the Scheme/Plan may be affected.

- Equity & Equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme/Plan may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme/Plan to make intended securities purchases due to settlement problems could cause the Scheme/Plan to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's/Plan's portfolio may result, at times, in potential losses to the Scheme/Plan, should there be a subsequent decline in the value of securities held in the Scheme's / Plan's portfolio.
- The liquidity and valuation of the Scheme's / Plan's investments due to the holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options.
- The liquidity of the Scheme/Plan is inherently restricted by trading volumes in securities in which it invests.
- Investment decisions made by the Investment Manager may not always be profitable.

To the extent the underlying mutual fund scheme(s) invest in Equity and Equity related Instruments, the Scheme/Plan which invest in Equity Mutual Fund Schemes (where the asset allocation pattern of the Scheme/Plan provides such investment) shall be affected by the afore mentioned risk factors. The Net Asset Value (NAV) of the units of the Scheme/Plan is likely to get effected on accounts of such risk factors. Any change in the investment policies or fundamental attributes of any underlying scheme is likely to affect the performance of the Scheme/Plan. Further, the liquidity of the Scheme's / Plan's investments may be inherently restricted by the liquidity of the underlying schemes in which it has invested.

Risk Associated with Investing in Money Market Instruments and/or units of Liquid/ Debt Mutual Fund Scheme(s)-

Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent.

Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Interest Rate Movement (Basis Risk): The changes in the prevailing rates of interest will likely affect the value of the Scheme's holdings until the next reset date and thus the value of the Schemes' Units will be affected. Increased rates of interest, which frequently accompany inflation and/ or a growing economy, are likely to have a negative effect on the value of the Units. The value of securities held by the Scheme generally will vary inversely with changes in prevailing interest rates. The fund could be exposed to the interest rate risk (i) to the extent of time gap in resetting of the benchmark rates, and (ii) to the extent the benchmark index fails to capture the interest rate movement.

Prepayments Risk: In the event of prepayments, investors may be exposed to changes in tenor and yield.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

To the extent the underlying Mutual Fund Scheme invest in Debt / Money Market Instruments, the Scheme/Plan shall be affected by the afore mentioned risk factors viz. Price Risk, Interest Rate Risk, Credit Risk, Reinvestment Risk, Interest Rate Movement Risk, Prepayment Risk, Spread Risk etc. The Net Asset Value (NAV) of the units of the Scheme/Plan is likely to get effected on accounts of such risk factors. Any change in the investment policies or fundamental attributes of any underlying scheme is likely to affect the performance of the Scheme/Plan. Further, the liquidity of the Scheme's/Plan's investments may be inherently restricted by the liquidity of the underlying schemes in which it has invested.

B. REQUIRMENT OF MINIMUM NUMBER OF INVESTORS

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan. However, if such limit is breached during the NFO of the Scheme/Plan, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme/Plan, whichever is earlier, the Scheme/Plan complies with these two conditions. In case the Scheme/Plan does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme/Plan shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS, IF ANY

Investment in the Scheme/Plan should be viewed by an investor/unitholder as a long term investment as mutual funds carry normal market risks and there can be no assurance and no guarantee that the Scheme/Plan will achieve its objective. It is recommended that an investment in the Scheme/Plan should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all, as investment decisions made by the AMC will not always be profitable or prove to be correct. As with any investment in stocks and securities, the NAV of the Units under the Scheme/Plan can go up or down, depending on the factors and forces affecting the capital markets. Past performance of the schemes of Principal Mutual Fund, the Sponsor or its Group affiliates is not indicative of and does not guarantee the future performance of the Scheme/Plan. The name of the Scheme/Plan does not in any manner indicate the quality of the Scheme/Plan, its future prospects or the returns. Units may trade at a premium/discount to the Scheme's / Plan's NAV. The Scheme/Plan is not intended as a complete investment program. Investors, therefore, are urged to study the terms of this offer carefully and consult their Investment Advisor before they invest in the Scheme/Plan. Investors'/unitholders' attention is drawn to the risk factors set out in the beginning of this Scheme Information Document and also to the following specific risks:

Regulatory Risks: Neither this SID nor the Units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of this SID are required to inform themselves about, and to observe, any such restrictions. No person receiving a copy of this Scheme Information Document or any accompanying application form in such jurisdiction may treat this SID or such application form as constituting an invitation to them to subscribe for Units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly, this Scheme Information Document does not constitute an offer or solicitation by anyone in any jurisdiction

in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any persons in possession of this Scheme Information Document and any persons wishing to apply for Units pursuant to this Scheme Information Document to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction.

Prospective investors should review/study this SID along with SAI and KIM carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscription, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of Units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of Units within their jurisdiction/of nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift Units are subject, and (also) to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding Units before making an application for Units.

No person has been authorized to give any information or to make any representations not confirmed in this SID in connection with the Offer of Units, and any information or representations not contained herein must not be relied upon as having been authorized by the Mutual Fund or the AMC or the Trustee. Statements made in this SID are based on the law and practice currently in force in India and are subject to change therein. Neither the delivery of this SID nor any sale made hereunder shall, under any circumstances, create any impression that the information herein is correct as of any time subsequent to the date hereof.

Performance Risk: The value of (and income from) an investment in the Scheme/Plan can decrease as well as increase, depending on a variety of factors, which may affect the values and income generated by a Scheme's/Plan's portfolio of securities. The returns of a Scheme's/Plan's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, changes in government and Reserve Bank of India policy, taxation, political, economic or other developments and closure of the stock exchanges. Investors should understand that the investment composition indicated for the Scheme/Plan, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there can be no assurance that the Scheme's/Plan's investment objective will be attained nor will the Scheme be in a position to maintain the model percentage of investment pattern/composition particularly under exceptional circumstances such that the interest of the unitholders are protected.

Political Risk: Whereas the Indian market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved the removal of trade barriers and other protectionist measures, which could adversely affect the value of investments. It is possible that future changes in the Indian political situation, including political, social, or economic instability, diplomatic developments and changes in laws or regulations could have an effect on the value of investments. Expropriation, confiscatory taxation, or other relevant developments could also affect the value of investments.

SECTION III. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An open-ended Fund of Funds Scheme.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

Scheme/Plan(s)	Investment Objective
Conservative Plan	The objective of the Plan is to provide long term total return primarily by seeking income through investments made in debt/money market mutual funds with some exposure to equity mutual funds.
Moderate Plan	The objective of the Plan is to provide long term total return by seeking capital appreciation and income through investments made in a basket of equity mutual funds, debt/money market mutual funds and Gold ETFs.
Aggressive Plan	The objective of the Plan is to provide long term total return by seeking capital appreciation through investments made primarily in equity mutual funds with some allocation to debt/money market mutual funds and Gold ETFs.

C. WHAT IS THE INVESTMENT STRATEGY

Market movements; particularly in the equity and fixed income markets can be unpredictable and the resultant volatility can be intimidating for most retail investors seeking to invest in the long-term to meet their pre-identified goals.

Even experienced investment professionals are often unable to foresee exactly where the markets will be headed especially in the longer term. Therefore, spreading investments among several asset categories with different characteristics allows for more consistent performance under a variety of economic backdrops. Over time, a well-diversified portfolio of investments allows investors to take advantage of gains in performing asset classes in different market conditions and economic cycles; thereby reducing the impact of underperforming asset classes, moderating the portfolio's overall risk exposure and smoothing returns.

The asset allocation as described above is a thoughtful and scientific process that should be distinguished from the related concept of diversification, which simply means to distribute a portfolio's investment among a variety of asset classes.

This Scheme will use a quantitative model to determine the most suitable asset allocation under each of its Plans.

Importantly, this Scheme is meant to empower individual retail savers to invest in a goal oriented manner into asset classes best suited for their investment risk profile. It is meant to provide them a platform to invest in mutual funds in the right manner after they have gone through the discipline of identifying their goals, considering the time horizon associated with the respective goals and after having undergone a profiling of their investment risk appetite.

In line with the above, an investor is required to identify his own risk profile / risk appetite before making an investment in this scheme.

How does an investor come to know of his / her risk profile when he wishes to invest by seeking help from a distributor-

As mandated in SEBI circular Ref. CIR/IMD/DF/13/2011 dated August 22, 2011, the AMC's are required to ensure that the distributors follow advisory based selling so that the advice offered will be subject to the principle of 'appropriateness' of products to the customer category. Appropriateness is defined as selling only that product categorization that is identified as best suited for investors within a defined upper ceiling of risk appetite. The distributors are expected to have in place a mechanism of conducting risk profiling of the customers so that the products, best suited to the risk profile of the customer, can be offered.

The AMFI code of conduct for intermediaries of Mutual Funds (Revised) dated January 28, 2013 require the distributors, inter alia other things, to recommend schemes appropriate for the investor's risk profile and needs.

Principal AMC has developed a risk profiling tool and has made it available to a few of its empanelled distributors who have sought for the same.

An investor who is not aware of his / her risk profile / risk appetite can approach his / her distributor to conduct his / her risk profiling.

How does an investor come to know of his / her risk profile when he wishes to invest direct i.e. without seeking help from any distributor –

For those investors who wish to invest under "Direct sub/plan" (i.e. without seeking help from any distributor) and are not aware of their risk profile / risk appetite, but wish to know the same, a risk profiling tool is hosted on Principal AMC's website www.principalindia.com

In addition, there are various other websites available that enable such investors to do their own risk profiling by following few simple steps indicated therein. These websites are easily accessible (through Google-search), are free to use and are informative enough containing self-explanatory steps that enable "Do it Yourself" way of conducting one's risk profiling.

This scheme is therefore, distinct from the normal hybrid funds because it aims to offer these investors access to (i) the right asset classes for their investor risk appetite (ii) diversified through a strategic asset allocation process which optimizes risk and reward (iii) periodic rebalancing of the portfolio of each Plan by adjusting the asset allocation at least every quarter, thereby automatically enabling this valuable discipline for the investors and; (iv) tactical asset allocation to ensure that, the portfolios are responsive to market and economic conditions.

The Investment strategy has been articulated below in the sections (D) How will the scheme allocate its assets and (E) Monitoring and rebalancing.

D. HOW WILL THE SCHEME/PLAN ALLOCATE ITS ASSETS

The Scheme will have 3 different Plans viz. Conservative Plan, , Moderate Plan, and Aggressive Plan corresponding to Principal's three Investor Risk Profiles viz. Conservative, Moderate and Aggressive. Each Plan will provide the investors an opportunity to choose a plan suitable to their risk profile.

The strategy of the fund is to provide an asset allocation solution to the investors. The asset allocation process will essentially provide an allocation among three asset class viz. Equity, Fixed income and Gold. The quantitative model is based on the Modern Portfolio Theory; and the resultant output mainly depends on return of the different asset classes, their risk and the correlation among asset class returns. The suggested allocation across the selected asset classes' viz. equity mutual funds, debt and liquid funds and gold based mutual funds attempts to maximize a portfolio's expected return for a given level of expected risk. The model will suggest different asset allocations for the 3 different risk profiles listed above.

Considering that we have 3 investor risk profiles (as defined above) and an investment plan is required to cater to each one of these profiles; we have divided the spectrum into 3 asset allocations, which can be done by introducing “constraints” to define the borders for each investor risk profile.

A sample portfolio across the 3 customer risk profiles is given as an illustration below:

Asset Classes	Customer Risk Profile		
	Conservative	Moderate	Aggressive
	Allocation	Allocation	Allocation
Gold	-	10.00%	10.00%
Equity	17.08%	45.47%	82.24%
Debt	82.92%	44.53%	7.76%
Total	100%	100%	100%

The constraints applied to define each of the 3 investor risk profile are given below:

Asset class / instrument	Range of Constraints for Asset Allocation in ‘Conservative’ Plan		Risk associated to asset class
	Floor	Ceiling	
Units of Equity Mutual Fund	0	30	High
Units of Debt / Liquid Mutual Funds*	70	100	Low to Medium
Asset class / instrument	Range of Constraints for Asset Allocation in ‘Moderate’ Plan		Risk associated to asset class
	Floor	Ceiling	
Units of Equity Mutual Fund	20	60	High
Units of Debt / Liquid Mutual Funds*	40	80	Low to Medium
Units of Gold Mutual Funds /ETFs	0	10	High
Asset class / instrument	Range of Constraints for Asset Allocation in ‘Aggressive’ Plan		Risk associated to asset class
	Floor	Ceiling	
Units of Equity Mutual Fund	70	90	High
Units of Debt / Liquid Mutual Funds*	10	30	Low to Medium
Units of Gold Mutual Funds /ETFs	0	10	High

*including upto 5% in Cash / Cash Equivalents / Money Market Instruments.

The cumulative gross exposure through equity, debt and other asset classes/instruments, shall not exceed 100% of the net assets of the Scheme. The Scheme will not invest in derivatives. However, the Underlying scheme(s) may have exposure to derivatives. Further, the Scheme has no intention to invest in reverse repos having “corporate bonds” as underlying security. The Scheme shall not engage in short-selling and Stock Lending.

The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in CBLO, repos, bank deposits and/ or other money market instruments in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time. Such changes in the investment pattern will be for defensive considerations and the intention being at all times to seek to protect the interests of the Unit Holders. Such deviations shall be reviewed periodically and the Fund Manager shall do the rebalancing of the portfolio within 30 days from the date of the deviation to bring it in alignment with the asset allocation pattern as indicated above.

Strategic Asset Allocation:

The output from the quantitative model ; using the above constraints (i.e. proportions of specified asset classes applicable to each investor risk profile) is called *Strategic Asset Allocation* and provides us maximum “expected” returns (as they have been assumed on historical returns) for the associated risk.

Tactical Asset Allocation:

The above Strategic Asset Allocation may, if required, thereafter be adjusted by the Fund Manager to reflect his view of the financial markets and macro economy. The resulting asset allocation, generated for each investor risk profile/plan is called *Tactical Asset Allocation* and is actually applied when deciding the proportion in which respective asset classes will be held in each of the investor risk profile/plan portfolio.

This process is intended to ensure that, the respective Plan portfolios stay adequately responsive to current market conditions and thereby try to maximize the opportunity to gain superior returns within their respective risk profiles.

The Tactical Asset Allocation will be computed at least quarterly.

In case the Fund Manager decides to change the investment allocations between the Underlying schemes of a Plan, the redemptions from the Underlying scheme(s) on account of such re-allocation will be limited to 5% of the net assets of the Underlying scheme(s) on a single day. Due to portfolio rebalancing, if the redemptions in Underlying equity-oriented schemes exceed 5% of the net asset of each Underlying equity-oriented scheme, then the Investment Manager will stagger redemptions over few days, so that redemptions in any Underlying scheme do not constitute more than 5% of the net asset of the Underlying equity-oriented schemes’ on any given business day. Additionally, the aforesaid cap of 5% on redemption would also be adhered to, at the time of redemption from each Underlying equity oriented schemes and Underlying debt – oriented schemes for the purpose of portfolio rebalancing or otherwise.

Investments by the Plan under the Scheme into the Underlying scheme(s) will not exceed 25% of the net assets of the Underlying scheme(s).

E. MONITORING AND REBALANCING

Research has long established that unless investors are disciplined enough to stick with the asset allocation relevant to their investment risk profile, by rebalancing their funds portfolio, the benefits of asset allocation, however well done, will not be entirely retained.

The Scheme’s Fund Manager shall remain vigilant to developments in the financial markets and macro- economy. In this he may usually be backed by independent research from a reputed research agency.

The Tactical Asset Allocation will be computed at least quarterly.

On the day of determination of the revised tactical asset allocation, in the event the marked to market values of the asset classes in each Plan are in variance beyond a tolerance range of +/- 1% points of the revised Tactical Asset Allocation the asset classes will be rebalanced to bring them within +/- 1% points of the revised Tactical Asset Allocation.

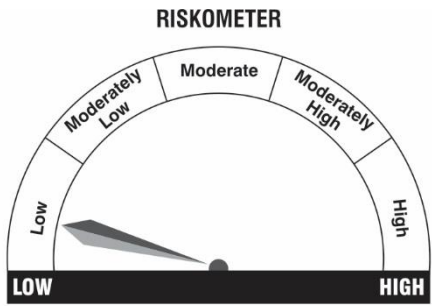

It is important to note that, the rebalancing has been set at quarterly intervals to ensure that, the portfolios are not subjected to changes which may prove to be reactive to short term changes in the markets. At the same time it will reduce the possibility of investors missing out on an opportunity to benefit from material changes in market conditions/trends because they were not adequately responsive as the gap between rebalancing dates is too long.

Indicative List of Underlying Schemes

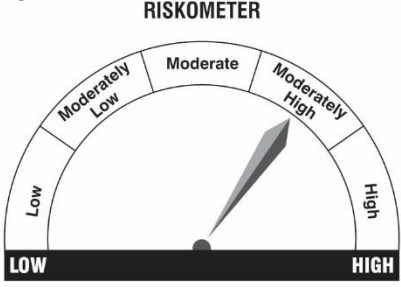

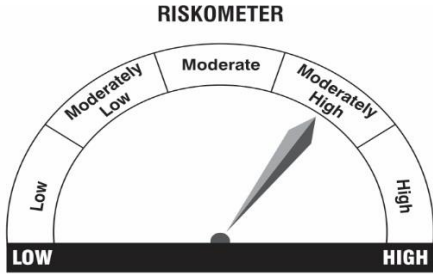

An indicative list of underlying schemes is provided below. The Scheme shall invest in the Direct Sub-Plan of the underlying Schemes. The Scheme/Plan may invest in Direct Sub-Plans of other domestic mutual funds schemes in line with the investment objective, investment strategy and risk profile(s) of the respective Scheme/Plan.

F. INVESTMENT PROCESS

There is separate team for investment in fixed income instruments & equities. The team works under the supervision of Chief Investment Officer (CIO). CIO is overall in charge for the Fund's investment.

As mentioned earlier, the Scheme will have 3 different Plans viz. Conservative Plan, Moderate Plan, and Aggressive Plan corresponding to Principal's three Investor Risk Profiles viz. Conservative, Moderate and Aggressive. Each Plan will provide the investors an opportunity to choose a plan suitable to their risk profile.

The strategy of the fund is to provide an asset allocation solution to the investors. The asset allocation process will essentially provide an allocation among three asset class viz. Equity, Fixed income and Gold. The quantitative model is based on the Modern Portfolio Theory; and the resultant output mainly depends on return of the different asset classes, their risk and the correlation among asset class returns. The suggested allocation across the selected asset classes' viz. equity mutual funds, debt and liquid funds and gold based mutual funds attempts to maximize a portfolio's expected return for a given level of expected risk. The model will suggest different asset allocations for the 3 different risk profiles listed above.

Considering that we have 3 investor risk profiles (as defined above) and an investment plan is required to cater to each one of these profiles; we have divided the spectrum into 3 asset allocations, which can be done by introducing "constraints" to define the borders for each investor risk profile.

A sample portfolio across the 3 customer risk profiles is given as an illustration below:

Asset Classes	Customer Risk Profile		
	Conservative	Moderate	Aggressive
	Allocation	Allocation	Allocation
Gold	-	10.00%	10.00%
Equity	17.08%	45.47%	82.24%
Debt	82.92%	44.53%	7.76%
Total	100%	100%	100%

This Scheme will use a quantitative model to determine the most suitable asset allocation under each of its Plans. To arrive at this allocation, the following process will be adopted.

- The fund will use the below combinations of benchmark to estimate the target risk associated with the three investor risk profile as listed above.

Investment Risk Profiles	Definitions
Conservative	Average of Standard Deviation of CNX Nifty Index 85% CRISIL Short Term Bond Fund Index and 15% CNX Nifty Index
Moderate	Average of Standard Deviation of 60% CRISIL Short Term Bond Fund Index and 40% CNX Nifty Index
Aggressive	Average of Standard Deviation of 20% CRISIL Short Term Bond Fund Index and 80% CNX Nifty Index

- Having done that, the strategic asset allocation for respective risk profile may be estimated using the quantitative model.

- c. The above Strategic Asset Allocation may, if required, thereafter be adjusted by the Fund Manager to reflect his view of the financial markets and macro economy.. The resulting asset allocation, generated for each investor risk profile/plan is called Tactical Asset Allocation and is actually applied when deciding the proportion in which respective asset classes will be held in each of the investor risk profile/plan portfolio.

This process is intended to ensure that, the respective Plan portfolios stay adequately responsive to current market conditions and thereby try to maximize the opportunity to gain superior returns within their respective risk profiles. The Tactical Asset Allocation will be computed at least quarterly (including as at the last working day of every calendar quarter and applied at the beginning of the following quarter).

- d. Depending upon the tactical asset allocation so derived, the fund will invest in underlying funds to reflect the tactical asset allocation.

Debt – Decision making process:

The debt team comprises the Head Fixed Income, Fund Managers, Credit Analyst and Fixed Income Dealer. Scheme wise responsibilities are allocated to the Fund Managers who are responsible for the performance of the schemes while adhering to prescribed regulatory and internal risk limits.

The Credit Analyst analysis all companies from a credit perspective and recommends investment in those which are found satisfactory to a committee consisting of the CEO, CFO, CIO and the Head of Fixed Income. The Credit Analyst also monitors the financial performance, the credit ratings and any major developments in respect of the companies in the portfolio.

While making investments, the Fund Managers keep in mind the mandate of the fund, the portfolio liquidity and the interest rate risk in addition to the credit risk mentioned above.

The Fixed Income team meets weekly to review the fixed income market scenario (market liquidity, macroeconomic parameters, interest rates etc., news flow etc.), the portfolio composition and fund performance.

Depository

Securities of the Scheme will be held in dematerialised form. In case the securities are held in dematerialized (electronic) mode, the rules of the Securities and Exchange Board of India (Depositories and Participants) Regulations, 1996, would apply. The service charges payable to the Depository Participant will form a part of the annual recurring expenses.

G. WHERE WILL THE ASSET ALLOCATION FUND OF FUNDS SCHEME INVEST?

Special Products / facilities available during the NFO	The Fund reserves the right to amend or terminate or introduce special facilities in the SID. The current special facilities offered in the Scheme/Plan are as follows:

1. Switch Option

Investors can opt to switch between Regular Sub-Plan & Direct Sub-Plan at NAV based prices. Switching will also be allowed from any select open ended scheme(s) managed under the Fund into either scheme existing on the date of switch or during the NFO period of the new scheme(s) that may be launched in the future at NAV based prices.

In the case of NRIs, FIIs, FPIs etc. this will be subject to necessary approval (if any) from the Reserve Bank of India and any other approval as applicable. Tax deduction at source, if any, will be effected at the appropriate rate in case of a switch and the balance amount would be utilized to exchange units to the other Scheme.

A request for switch may be specified either in terms of amount or in terms of the number of units of the scheme/plan/option from which the switch is sought. Such instructions may be provided in writing by completing the switch form or using the relevant tear off section of the Transaction Slip that may be enclosed with the Account Statement and lodging the same on any business day at any of the designated Official Points of Acceptance. The switch will be effected by redeeming units from the scheme(s) in which the units are held and investing the net proceeds in the other Scheme, subject to the minimum balance applicable for the respective Scheme(s).

2. Systematic Investment Plan

Systematic Investment Plan (SIP) is available for planned and regular investments. Under SIP, unit holders can benefit by investing specified rupee amounts periodically for a continuous period. This concept is called Rupee Cost Averaging. This program allows unit holders to save a fixed amount of rupees every month/quarterly by purchasing additional units of the Scheme(s).

Example

Let us take an example of a unit holder who invests Rs.3000/- per month

Month	NAV	Amount (Rs.)	Units
April 1	10.50	3000	285.71
May 1	10.65	3000	281.69
June 1	10.05	3000	298.50
July 1	9.75	3000	307.69
August 1	9.60	3000	312.50
September 1	9.50	3000	315.79
October 1	9.25	3000	324.32
November 1	9.05	3000	331.49
December 1	8.90	3000	337.08
January 1	8.75	3000	342.86
February 1	8.50	3000	352.94
March 1	8.80	3000	340.91
TOTAL		36000	3831.48

Note: The figures of NAV are hypothetical and are for illustrative purposes only. At the end of one year the unitholder would have 3831.48 units, at an average per unit cost of Rs. 9.40.

Rupee Cost Averaging does not guarantee a profit nor protect against a loss. Rupee Cost Averaging can smooth out the market's ups and downs and reduce the risk of investing in volatile markets.

Features of the SIP

1. SIP Applications will be accepted on any working day of the month. Accordingly the units will be allotted on the date of receipt of valid SIP Application along with a SIP investment cheque dated not beyond the date of the Application. Thereafter the date for the first SIP installment shall be 1st, 5th, 15th or 25th of a particular month ("specified dates for SIP investments") as selected by the Investor OR the nearest date amongst the Specified Date subsequent to receipt of the application, as the case may be after completing a minimum time gap of 30 days from the date of the first SIP investment cheque. E.g. If a duly completed SIP enrolment is received within the applicable cut-off timings on January 27, 2013 along with a valid cheque dated not beyond January 27, 2013, for a SIP investment of Rs.2,000- per month (together with 5 or more post dated cheques each for a minimum of Rs. 2,000/-), units will be allotted on January 27, 2013 with the scheme applicable NAV, and the next SIP date [first SIP Installment date] will be March 1, 2013 or immediately following business day if March 1, 2013 is a non-business day OR such other date amongst the Specified Dates as per the application form.
2. Investors, who wish to opt for ECS (debit clearing) facility available with select banks, should ensure that there is a minimum time gap of 30 days between the first cheque for SIP enrolment and first installment of SIP through ECS or Direct Debit. Dishonoured cheque(s) may not be presented again for collection.
3. Unit holders need not submit a copy of cancelled cheque provided the SIP Auto Debit Facility Enrolment Form is attested by the Bank from which SIP installments will be debited.
4. Unit holders have the right to discontinue the SIP facility at any time by sending a written request to any of the designated Investor Service Centers (ISCs) of Principal Mutual Fund. Please also note that notice of such discontinuation should be received at least 18 working days prior to the due date of the next SIP installment.
5. SIP enrolment will be discontinued by AMC in case [a] the SIP installment is not honored consecutively for three SIP installments [b] if any installment of a SIP transaction gets rejected due to the bank account of the Investor being closed, the SIP would be suspended for subsequent SIP transactions and registration will be cancelled for SIP through Auto Debit / Post Dated Cheques (PDCs)/ Direct Debit / Standing Instructions (SIs) [c] the Bank account [for ECS (Debit Clearing) and / or Direct Debit / Standing Instruction and / or PDCs for direct debit] is closed and the request for change in bank account / Bank Branch is not submitted by the concerned unit holder at least 15 working days before the due date of next SIP installment[d] if the Bank account is frozen for further commercial transaction by the Bank. Further, in such cases the balance cheques, if any, will be returned to the unit holder.

6. TRIGGERS

Under this facility, the unit holders may opt for withdrawal and/or switch in the normal manner based on the value of investment either reaching upto or below or above/beyond a specified particular value; the capital appreciation/gains realization either equals to or becomes more/lower than a specified particular amount or percentage on happening of a particular event, on a particular date etc. (subject to applicable lock in period, if any). Alerts act as a financial planning tool for information. The unit holder may subsequently continue in the scheme or otherwise withdraw/switch. For e.g. an account may be monitored and the unit holder either informed or account redeemed (no redemption will be permitted if under lock-in) as and when the balance reaches or crosses (rise or fall) a desired value or after a certain period of time etc. This helps the unit holders to minimise the loss and/or book timely profits. In case of triggers linked with events/dates, on realisation of gains (equal to/beyond/lower than), a specified amount/full amount/gains/appreciation etc. would be redeemed and paid either when the investment reaches upto and/or beyond (above or below) a particular value or after a particular period of time.

In case of triggers linked with gains/appreciation, at the option of the unit holder, either the amount equivalent to gains/appreciation would be redeemed or the full original investment amount would be redeemed and the gain/appreciation component paid to the unit holder/switched into other scheme/plan, and the original investment amount would be reinvested either in the same scheme/plan or any other scheme/plan.

ACTIVATION OF TRIGGER

Unit holders shall note that NAV of a scheme is determined on close of the business day taking into consideration closing prices of the securities on the primary stock exchange (*please refer to clause on "Valuation Policy" in the SAI & "Computation of NAV" in the SID*). Intra day prices are not considered for valuing the scheme's portfolio. Value of the unit holder's unit balance at the end of a relevant business day based on that day's NAV and closing value of a relevant index of a stock exchange would be used as a base for activating the triggers. However all redemptions/switches/reinvestments etc. linked to such triggers will always be at the applicable NAV based prices of the day on which the event occurs.

Please also note that the trigger is an additional facility provided to the unit holders to save time on completing the redemption/switch formalities on happening of a particular predetermined event. Trigger is not an assurance on part of AMC/Fund to the investor that he/she will receive a particular amount of money/appreciation and/or a percentage on redemption or will get a particular amount of capital appreciation or will minimise the loss to investor to a particular amount or percentage. Trigger is an event on happening of which the Fund will automatically redeem and/or switch the units on behalf of the investors on the date of happening of the event. In actual parlance, a trigger will activate a transaction/alert when the

event selected for has reached a value greater or less than the specified particular value (trigger point).

Unit holders can opt from any one of the following event under trigger option:

1. *When value of investment of the unit holder reaches or crosses a particular value/falls to or closes below a particular value*

Eg. Investment Value reaches or crosses Rs.11000/-

Trigger Activation

If investment value at NAV based price is less than Rs.11,000/-, trigger will be activated when value of the units at NAV held by unit holders rises to Rs.11000/- or more on close of any business day.

Eg. Investment Value falls to or closes below Rs.11000/-

If investment value at NAV based price is more than Rs.11,000/-, trigger will be activated when value of the units at NAV held by unit holders falls to Rs.11000/- or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which value of units held by unit holders reaches or crosses or falls below Rs.11,000/-.

2. *Capital appreciation of a particular amount*

Eg. Capital appreciation by Rs.1000/-

Trigger Activation

Trigger will be activated when value of units invested at NAV based price appreciate by Rs.1000/- or more at NAV on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which value of investment held by unit holders increases by at least Rs.1000/-.

3. *NAV reaches or crosses a particular value*

Eg. NAV reaches or crosses Rs.11/-

Or when NAV falls to or closes below Rs.11/-

Trigger Activation

If NAV on the date of allotment of investment is less than Rs.11/-, trigger will be activated when NAV rises to Rs.11/- or more on close of any business day. If NAV on the date of allotment of investment is more than Rs.11/-, trigger will be activated when NAV falls to Rs.11/- or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which NAV reaches or crosses or falls below Rs.11/-.

Or when BSE Sensex falls to or closes below 16000

If BSE Sensex at the time of investment is more than 16000, then trigger will be activated when BSE Sensex falls to 16000 or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which close of day the BSE Sensex reaches or crosses or falls to or closes below 16000 mark.

5. *NSE Nifty reaches or crosses a particular value*

Eg. NSE Nifty reaches or crosses 5000

Or when NSE Nifty falls to or closes below 5000

Trigger Activation

If NSE Nifty on the date of allotment of investment is less than 5000, then trigger will be activated when NSE Nifty rises to 5000 or more on close of any business day. If NSE Nifty on the date of allotment of investment is more than 5000, trigger will be activated when NSE Nifty falls to 5000 or below on close of any business day. All transactions linked with trigger will be on the basis of NAV of the business day on which close of day the NSE Nifty reaches or crosses or falls below 5000 mark.

6. On a particular day or date

Eg. On 31/1/2013

Trigger Activation

Trigger will be activated on 31/1/2013. All transactions linked with trigger will be on the basis of NAV of 31/1/2013 or on 1/2/2013 if 31/1/2013 is not a business day.

7. Change in the value of units (held by unit holders) at least by certain percentage

Eg Change in Investment Value at least by (+ or — or +/-) 10%

Trigger will be activated when value of the units at NAV based price invested by unit holders rises to 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders falls by 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders either rises by 10% or more at NAV or falls by 10% or more on close of any business day.

Percentage rise or fall in value of units will be calculated on the amount invested by the unit holders.

8. Capital appreciation of at least a certain percentage

Eg. Capital appreciation of at least (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when value of the units at NAV based price invested by unit holders appreciate to 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders depreciates by 10% or more at NAV on close of any business day; or Trigger will be activated when value of the units at NAV based price invested by unit holders either appreciates by 10% or more at NAV or depreciates by 10% or more at NAV on close of any business day.

Difference between the value of units on close of a business day (at NAV) and amount invested (at NAV based price) will be used as a base for calculating percentage of capital appreciation.

9. Change in the NAV at least by a certain percentage

Eg. Change in NAV at least by (+ or — or +/-) 10%

Trigger Activation

Trigger will be activated when the NAV of the units rises by 10% or more on close of any business day compared with the NAV on the date of allotment of investment; or Trigger will be activated when the NAV of the units falls by 10%

or more on close of any business day compared with the NAV on the date of allotment of investment; or Trigger will be activated when the NAV of the units either rises by 10% or more or falls by 10% or more on close of any business day compared with the NAV on the date of allotment of investment

Percentage rise or fall in NAV will be calculated comparing NAV on a particular business day with the NAV on the date of allotment of investment.

10. Change in the BSE Sensex at least by a certain percentage

Percentage rise or fall in NSE Nifty will be calculated comparing NSE Nifty on a particular business day with the NSE Nifty on the date of allotment of investment;

On happening of any of the above mentioned events, the Unit holder can opt for the following action on the date of happening of the relevant event;

- Full redemption
- Redemption of gains only
- Full switch into other Scheme/Plan / Option of Principal Mutual Fund

Transactions linked with the triggers will be at the applicable NAV based price of the business day on which the event takes place. Further all the predetermined events i.e. the value of the unit balance, capital appreciation, NAV, BSE Sensex,

	<p>NSE Nifty will be compared with the value of units, NAV, BSE Sensex and NSE Nifty prevailing on the date of investment (i.e. date of allotment) irrespective of the fact whether the trigger is opted on the date of allotment of investment or subsequently.. For eg an investor has invested at Rs.11/- and opted for full redemption if NAV appreciates at least by 10%. Trigger will be activated on the business day when NAV moves to Rs.12.10 (i.e. 10% more than Rs.11/-) or more.</p> <p>Triggers(s) linked to BSE Sensex or NSE Nifty will always compare the value of BSE Sensex or NSE Nifty on close of business day. In case BSE or NSE is open on a non-business day, its value will not be considered even if it reaches or crosses a trigger value, and on any subsequent business day if the value of BSE or NSE is reached, the same would be considered for trigger purposes. For eg. A unit holder has opted for full redemption if NSE Nifty reaches or crosses 5000 mark. If NSE is open on January 1, 2013, but it is not a business for the Fund, trigger will not be activated (i.e. redemption will not take place) even though closing value of Nifty as on January 1, 2013, is 5000 or more.</p> <p>The closing value of BSE Sensex/NSE Nifty on non-business day will be ignored for trigger activation. A trigger once activated will not be reactivated in any other scheme where the switch/reinvestment happens or in the same scheme which retains part of the value or in case of normal redemption/switch before trigger activation. Triggers will be deactivated on redemption and/or switch and/or pledge of units except in case where only gains are to be redeemed or switched and opted for the same in the trigger form.</p>
<p>The policy regarding the issue of repurchased units including the maximum extent, manner of re-issue, the entity(the scheme or the AMC involved in the same)</p>	<p>Presently the AMC does not intend to reissue the repurchased units. The trustee reserves the right to reissue the repurchased units at a later date after issuing adequate public notices and taking approvals, if any, from SEBI.</p>
<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>POSSIBLE DEFERRAL OF REDEMPTION/ REPURCHASE REQUESTS</p> <p>Whilst every effort will be made to ensure that the Scheme/Plan will have sufficient liquidity to enable the repurchase cheques to be collected/dispatched within the deadline stated in the foregoing clause, unit holders should note that where the Scheme/Plan is obliged to arrange for the disposal of the underlying securities/borrow, in order to satisfy redemption/repurchase requests, unit holders may experience some delays in receiving repurchase cheques, reflecting the time involved in settling the underlying sales of securities/borrowing. However in any case, the Fund will ensure that the collection/dispatch of repurchase cheques is not delayed beyond ten working days (when Principal Mutual Fund is open for business) from the date of receipt of the repurchase request in accordance with Regulation 53(b) of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.</p> <p>SUSPENSION OF SALE/REPURCHASE/SWITCH OPTIONS OF THE UNITS</p> <p>The Fund at its sole discretion reserves the right to withdraw sale, repurchase and/or switch of the units under the Scheme/Plan, temporarily or indefinitely, if in the opinion of the AMC the general market conditions are not favourable. However, the suspension of sale/repurchase/switch either temporarily or indefinitely will be made applicable only after the approval of the Board of Directors of the AMC and</p>

Trustee. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

The sale, repurchase and switch of the units may be temporarily suspended under any or all of the following conditions :

 - SEBI by order so permits
 - During the period of Book Closure/Record Date
 - On a requisition made by three-fourth's of the unit holders.

Redemption

Repurchase Procedure

The units of the Scheme/Plan can be repurchased (sold back to the Fund) on any business day. The repurchase request can be made on Application Form/Common Transaction form or by using the relevant tear off section of the Transaction Slip that may be enclosed with the Account Statement, which should be submitted at any of the Official Point of Acceptance. Where the date of redemption is a non business day, the deemed date for such redemption will be the next business day.

In case the units are standing in the names of more than one unit holder, where mode of holding is specified as "jointly", repurchase requests will have to be signed by all the joint holders. However, in cases of holding specified as 'either/anyone or survivor', any one of the joint holders (in case of either/anyone or survivor) will have the power to make repurchase request. However, in all cases, the repurchase proceeds will be paid to the first named holder only.

In case a unit holder has subscribed to units on more than one Business Day (either through continuation in case of existing unit holder, or through subsequent subscriptions), the units subscribed to prior in time (that is those units which have been held for the longest period of time), will be deemed to have been repurchased first, that is on a First -In -First-Out basis. However, a unit holder may request the Fund to repurchase units subscribed by him/her at different dates, by indicating the specific date of subscription of the units, which is offered for repurchase.

The repurchase request can be made by specifying the Rupee amount or by specifying the number of units to be repurchased. If a repurchase request is for both a specified Rupee amount and a specified number of units, the specified rupee amount will be considered the definitive request. If only the repurchase amount is specified by the unit holder, the AMC will divide the repurchase amount so specified by the applicable NAV based price to arrive at the number of units. The request for repurchase of units could also be in fractions, up to three decimal places.

If the number of Units held by the Investor as per the records maintained by AMC and/or the Registrar is less than the number of Units requested to be redeemed then, all the Units held by the Unit holder in such folio / Scheme / Plan / Sub-Plan for which application for Redemption is made, shall be redeemed. Provided that, where redeem 'all' is specified in the request, all Unit holdings in that Scheme/Plan shall be redeemed.

The AMC reserves the right to change the minimum repurchase amount on a prospective basis subject to SEBI Regulations. Unit holders may also request for repurchase of their entire holding and close the account by indicating the same at the appropriate place in the Transaction Slip/Repurchase form.

Repurchase Price

The repurchase price will be calculated using the following formula:

Repurchase Price = Applicable NAV*(1 – Exit Load, if any).

Example for calculation of Repurchase Price

If the Applicable NAV is Rs. 11.25 and a 1.00% exit load is charged the repurchase price will be calculated as follows:

$$\begin{aligned}\text{Repurchase Price} &= \text{Rs.}11.25 \times (1-1.00\% \text{ of Rs.}11.25) \\ &= \text{Rs. } 11.25 - \text{Rs. } 0.1125 \\ &= \text{Rs.}11.1375 \text{ per unit}\end{aligned}$$

The repurchase price shall not be lower than 93% of the NAV

The AMC reserves the right to modify the exit load. However, any such change in the load structure shall be only on a prospective basis. The unit holder is requested to confirm the applicable exit load at the time of investment from the AMC/OPT.

Repurchase by NRI's/ FIIs/ FPIs

Repurchase of unit balances in the account of an NRI/FII/FPI will be subject to any procedures laid down by the RBI. Such repurchase proceeds will be paid by means of a rupee cheque payable to the designated NRE/ NRO account of the unit holder and subject to RBI procedures and approvals and subject to deduction of tax at source, as applicable. All bank charges in connection with such payment will have to be borne by the unit holder and/or the Scheme by way of ongoing expenses.

Payment of Repurchase Proceeds

The time limit set for dispatch of repurchase proceeds will be from the Business Day when the request is accepted within the cut off time, prescribed in this behalf at the Official Point of Acceptance. As per the SEBI Regulations, the Fund shall mail the repurchase proceeds within ten Business Days from the date of acceptance of valid request within the cut off time, prescribed in this behalf at any of the Official Point of Acceptance, in case of a repurchase request being sent by post.

In the event of failure to dispatch the repurchase or repurchase proceeds within the statutory period specified above as per the SEBI Regulations, the AMC shall be liable to pay interest to the unit holders at such rate (currently 15% per annum) as may be specified by SEBI for the period of such delay.

Electronic Credit Clearing Services (ECS) Identified Banks

ECS is a facility offered by RBI for facilitating better customer service by direct credit of dividend or repurchase amount to a unit holder's bank account through electronic credit. This helps in avoiding loss of dividend or repurchases warrant in transit or fraudulent encashment. The Fund will endeavour to arrange such facility for payment of repurchase proceeds to the unit holders. However, this facility is optional for the unit holders. Repurchase proceeds may be released through the ECS facility to unit holders residing in any of the cities where such a facility is available. In order to avail the above facility, the unit holder will have to give a written request to the Registrar. If the unit holder has opted for the ECS facility his/her bank branch will directly credit the amount due to them in their account whenever the payment is through ECS. The Registrar will send a separate advice to the unit holder informing them of the direct credit. It may be noted that there is no commitment from the Fund that this facility will be made available to the unit holders for payment of repurchase proceeds. While the Fund will endeavour in arranging the facility it will be dependent on various factors including sufficient demand for the facility from unit holders at any centre, as required by the authorities. In places where such a facility is not available or if the facility is

discontinued by the Fund for any reason the repurchase warrants will be mailed to the unit holder.

Unit holder's Bank Account Details

Unit holders are on a mandatory basis required to mention their bank account details in their applications/ requests for redemption. Redemption Cheques and/or any other instruments will then be made out in favour of the Bank for crediting the respective unit holder's account so specified.

The normal processing time may not be applicable in situations where such details are not provided by unit holders. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and delay/loss in transit.
