RISK PROFILE OF THE SCHEME

- The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and/or ability to meet its investment objective.
- The specific risk factors related to the Scheme include, but are not limited to the following:
 - The Scheme shall invest predominantly in Tata Gold Exchange Traded Fund (TGETF) – the underlying scheme. Hence the Scheme's performance shall primarily depend upon the performance of TGETF. Any change in the investment policies or the fundamental attributes of the underlying scheme could affect the scheme /performance of the Scheme.
 - Investments by TGETF are subject to availability of Gold. If favorable investment opportunities do not exist or opportunities have notably diminished, TGETF may suspend accepting fresh subscriptions. This may also affect the acceptance of subscription by the Scheme.
 - All risks associated with the underlying scheme, including performance of underlying physical gold, asset class risk, passive investment risk, indirect taxation risk, etc., will therefore be applicable to this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying scheme.
 - The Portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying scheme where the Scheme has invested and will not include the investments made by the underlying scheme.
 - The value (price) of gold may fluctuate for several reasons and all such fluctuations will impact the NAV of Units under the Scheme. The factors that may effect the price of gold, among other things, include demand and supply for gold in India and in the global market, Indian and Foreign exchange rates, Interest rates, Inflation trends, market risks including trading risks in gold as commodity, legal restrictions on the movement/trade of gold that may be imposed by RBI, Government of India or countries that supply or purchase gold to/from India, trends & restrictions on import/export of gold in and out of India, etc.
 - The Scheme assets are predominantly invested in TGETF and valued at the market price of the said units on The National Stock Exchange of India Limited (NSE). The same may be at a variance to the NAV of the underlying scheme, due to market expectations, demand/supply of the TGETF units, prevailing market conditions, etc. To that extent the performance of Scheme shall be at variance with that of the underlying scheme.
 - The changes in asset allocation may result in higher transaction costs.
 - When subscriptions received are not adequate enough to meet the minimum investment criteria for transacting directly with the Fund, the units of the underlying scheme may be acquired from the stock exchanges where the price quoted may be at variance with the underlying NAV, which could result in higher acquisition costs. Alternatively, the subscriptions may be deployed in Money market instruments within the limits specified under the Asset allocation pattern, which will have a different return profile compared to gold returns profile.
 - Taxation: Repurchase of units of the underlying scheme or sale of units of the underlying scheme on the Stock Exchange may attract short or long term capital gain tax depending upon the acquisition cost and holding period of the Units. Moreover, converting units of the underlying scheme to Gold may also attract Wealth tax. Furthermore, Gold is subject to indirect tax not restricted to the following: Sales Tax, Octroi, VAT, Stamp Duty, and Custom Duty. Hence, any change in the rates of taxation/applicable taxes would affect the valuation of the Scheme.
 - Redemption Risk:
 - The units issued under the Scheme will derive liquidity primarily from the underlying scheme having creation/ redemption process in creation unit size of predefined quantity of physical gold (currently 1 kg). At times prevailing market conditions may affect the ability of the underlying scheme to sell gold against the redemption request received.
 - Furthermore, the endeavor would always be to get cash on redemptions from the underlying scheme. However, in case the underlying scheme is unable to sell for any reason, and delivers physical gold, there could be delay in payment of redemption proceeds pending such realization.
 - Additionally, the Scheme will derive liquidity from trading units of underlying scheme on the exchange(s) in the secondary market which may be inherently restricted by trading volumes, settlement periods and transfer procedures. As there is no active secondary market developed or maintained by the underlying scheme, the processing of redemption requests at times may be delayed.
 - In the event of an inordinately large number of redemption requests, or re-structuring of the Scheme's investment portfolio, the processing of redemption requests may be delayed.
 - Right to Limit Redemptions
 - The Trustee, in the interest of the Unit holders of the Scheme offered in this Scheme Information Document and keeping in view the unforeseen circumstances/unusual market conditions, may limit the total number of Units, which can be redeemed on any Business Day depending on

the ability of the Scheme to sell units of the underlying scheme and / or underlying scheme able to liquidate gold against the redemption request submitted by the Unit holders of the Scheme due to prevailing market conditions. In view of the above, the Trustee has the right, in its sole discretion, to limit redemptions (including suspending redemptions) under certain circumstances, as described under 'Right to restrict redemption and/or suspend redemption of the units' in Section 'Restrictions, if any, on the right to freely retain or dispose of Units being offered'.

- **Risks Associated with Processing of Transaction Through Stock Exchange Mechanism**

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognised stock exchange(s).

Risks associated with Debt/Money Markets Instruments

Interest Rate Risk

As with debt/money instruments, changes in interest rate may affect the price of the money market instrument(s) and ultimately Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Credit Risk

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Reinvestment Risk

This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the scheme is reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows are reinvested may be lower than that originally assumed.

Risks associated with Segregated Portfolio

Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. Security comprises of segregated portfolio may not realize any value. Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks associated with investing in Securities Segment and Tri-party Repo trade settlement:

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

Risks associated with transaction in Units through stock exchange(s):

In respect of transaction in Units of the Scheme through BSE and / or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by BSE and / or NSE and their respective clearing corporations on which the Fund has no control.

Risk associated with potential change in Tax structure:

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk Control / Mitigation measures of the Scheme:

Sr No.	Risk & Description	Risk mitigation / management strategy
1	Liquidity Risk	Focus on good quality paper at the time of portfolio construction
2	Credit Risk	In house dedicated team for credit appraisal Issuer wise exposure limit Periodical portfolio review by the investment committee
3	Interest Rate Risk	Close watch on the market events Active duration management Portfolio exposure spread over various maturities.
4	Regulatory Risk	Online monitoring of various exposure limits by the Front Office System also as a backup, manual control are implemented.

Risk Control / Mitigation measures of Underlying Scheme:

The Scheme by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in gold and gold-related instruments. The risk control process involves identifying & measuring the risk through various risk measurement tools. The Scheme has identified the following risks of investing in gold and gold-related instruments and designed risk management strategies, which are embedded in the investment process to manage such risks.

Sr. No.	Risk & Description	Risk mitigation / management strategy
1	Tracking Error: The performance of the Scheme may not be commensurate with the performance of the benchmark index on any given day or over any given period, referred to as tracking error.	The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. The investment manager will endeavor to maintain low cash levels to minimize tracking error.
2	Price risk: Fluctuations in the price of gold	Since the Scheme is passively managed, price risk is inherent and cannot be mitigated.
3	Liquidity risk: Inability to buy / sell appropriate quantity of gold	The Scheme has to sell gold only to designated bankers / traders who are authorized to buy gold. Though, there are adequate numbers of players to whom the Scheme can sell gold the Scheme may have to resort to distress sale of gold if there is no or low demand for gold to meet its cash needs of redemption or expenses.
4	Event risk/Custody Risk: Risk of loss, damage, theft, impurity etc. of gold	There is a risk that part or all of the physical gold belonging to the Scheme could be lost, damaged or stolen. In order to ensure safety, the said gold will be stored with custodian in its vaults. Gold held by custodian is also insured. The custodian will insure/cover all such risks.
6	Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

Sr. No.	Risk & Description	Risk mitigation / management strategy
7	Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.	Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the Scheme will ensure that these instruments are sufficiently backed by assets.

The information is provided for general information only. However, in view of the individual nature of the implications, each investor is advised to consult his or her own tax advisors with respect to the specific amount of tax and other implications arising out of his or her participation in the Schemes.

The Finance Act, 2020 abolished income distribution tax and instead introduced taxing of income from mutual fund units in the hands of the unit holders.

Type of Investor	Withholding tax rate
Resident	10%*
NRI	20%** or rate as per applicable tax treaty*** (whichever is lower)

* Tax not deductible if dividend income in respect of units of a mutual fund is below Rs. 5,000 in a financial year.

** The base tax is to be further increased by surcharge at the rate of:

- 37% on base tax where income or aggregate of such income exceeds Rs. 5 crore;
- 25% where income or aggregate of such income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where income or aggregate of such income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and

*** The income distributed by mutual fund to unitholders is unlikely to fall within the definition of dividend under the tax treaty. Given this and the language of the newly inserted proviso to section 196A, claiming tax treaty benefit in respect of income distributed by mutual fund to unitholders for withholding tax purpose may not be possible.

As per the Explanation to Section 112A of Income Tax Act 1961, an equity-oriented fund is defined as a fund whose investible funds are invested in equity shares of domestic companies listed on a recognised stock exchange to the extent of atleast 65% or more of the total proceeds of such fund. Note 1 – As per Finance Act, 2023, capital gains from transfer of units of “specified mutual fund schemes” acquired on or after 1st April 2023 are treated as short term capital gains taxable at applicable slab rates as provided above irrespective of the period of holding of such mutual fund units. For this purpose, “specified mutual fund” means mutual fund where not more than 35 per cent of its total proceeds is invested in the equity shares of domestic companies.

- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

In case total income includes income by way of dividend on shares and short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes, the rate of surcharge on the said type of income not to exceed 15%. In case investor is falling under ‘New Regime’, the rate of surcharge not to exceed 25%.

^{**}Specified income – Total income excluding income by way of dividend on shares and short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes.

^{^^^} This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

^{^^^} This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

Further, the domestic companies are subject to minimum alternate tax (except for those who opt for lower rate of tax of 22%/15%) not specified in above tax rates.

As per section 139AA of the Income tax Act, 1961 (“the Act”) read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to non linking of PAN with Aadhaar, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act. Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at the time of redemption of units in case of NRI investors.

Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Wherever applicable, Tax Deducted at Source, Tax Collected at Source & GST related provisions on ETFs, gold & gold related instruments shall apply as per the Act, Rules & Regulations from time to time.

Compliance under Foreign Account Tax Compliance Act (FATCA) regulations:

United States of America (US) has introduced chapter no. 4 in the US Internal Revenue Code as a part of the Hiring Incentives to Restore Employment (HIRE) Act, which was enacted by the US legislature to create employment opportunities in US. The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014.

The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on -

- i. **US taxpayers about certain foreign financial accounts and offshore assets.**
- ii. **Foreign Financial Institutions (FFIs) about financial accounts with them of US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest.**

FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources

will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Pvt Limited (TAMPL) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.

In order to ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.

Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

Common Reporting Standard (CRS):

On similar lines of FATCA, the Organization of Economic Development (OECD), along with the G 20 countries, of which India is a member, has released a 'Standard for Automatic Exchange of Financial Account Information in Tax matters'. In order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard(CRS) on automatic exchange of information(AEOI). On June 3,2015 India has joined the Multilateral Competent Authority Agreement(MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account holders 'resident' in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries.

In view of India's commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.

Applicants are required to refer to the "FATCA/CRS information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund. FATCA provisions are relevant not only at on-boarding stage of investor(s)/unit holder(s) but also throughout the life cycle of investment with the Fund/the AMC. In view of this, Investors should immediately intimate to the Fund/the AMC, in case of any change in their status with respect to FATCA/CRS related declaration provided by them previously.

Investors(s)/Unit holder(s) should consult their own tax advisors to understand the implications of FATCA/CRS provisions /requirements.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund.
